Billy Quarles

Assistant Professor

Department of Physics & Astronomy
Texas A&M University-Commerce
McFarland Science Building Room 145
Commerce, TX 75429-3011
billy.quarles@tamuc.edu
www.billyquarles.com

Education

2012 **PhD in Physics & Applied Physics**, University of Texas at Arlington, Arlington

2008 **MS in Physics**, Stephen F. Austin State University, Physics, Nacogdoches

2006 **BS in Physics & Astronomy**, Texas Christian University, Physics & Astronomy, Fort Worth

PhD Dissertation

Title *Selected studies of celestial dynamics and habitability of extrasolar planetary systems*

Supervisors Zdzislaw Musielak & Manfred Cuntz

Research Interests

Theory Gravitational Dynamics, Planetary Spin Dynamics, Planet Formation, Planetary Habitability

Observation Binary Stars, Exoplanets in Binary Stars, Multiple Planet Systems

Teaching Experience

8/24 – present **Assistant Professor**, Texas A&M University-Commerce, Commerce, TX
- ASTR1304: Solar System Astronomy
- ASTR120: Life in the Universe

8/21 – 5/24 **Assistant Professor**, Valdosta State University, Valdosta, GA
- ASTR1000: Introduction to the Universe
- ASTR1010K: Astronomy of the Solar System
- ASTR1020K: Stellar and Galactic Astronomy
- PHYS2700: Modern Physics
- ASTR3800: Astrobiology
- PHYS3820: Computational Physics
- ASTR4410: Modern Astrophysics
- ASTR3220: Cosmology

8/20 **Guest Lecturer**, Georgia Institute of Technology, Atlanta, GA
- Mathematical Physics

8/15 – 5/16 **Visiting Assistant Professor**, University of Nebraska at Kearney, Kearney, NE
- Introductory Physics I & II for Health Science majors
- Conceptual Physical Science
- Introductory Astronomy

9/12 – 12/12 **Astronomy Lab Supervisor**, University of Texas at Arlington, Arlington, TX

1/09 – 8/12 **Graduate Teaching Assistant**, University of Texas at Arlington, Arlington, TX

8/10 – 12/10 **Astronomy Lecturer**, University of Texas at Arlington, Arlington, TX

8/06 – 5/08 **Graduate Teaching Assistant**, Stephen F. Austin State University, Nacogdoches, TX

Research Experience

8/18 – 8/21 **Research Scientist**, Georgia Institute of Technology, Atlanta, GA
8/16 – 8/18 **Postdoctoral Research Associate**, University of Oklahoma, Norman, OK
5/16 – 8/16 **Postdoctoral Research Associate**, University of Idaho, Moscow, ID
9/15 – 8/16 **Technical Consultant**, San Diego State University, San Diego, CA
1/13 – 8/15 **Postdoctoral Research Fellow**, NASA Ames Research Center, Moffett Field, CA

Student Research

Undergraduate Students (*9*)

8/23 – present **Hector Prieto**, Valdosta State University, Valdosta, GA
8/23 – present **Ian McLean**, Valdosta State University, Valdosta, GA
1/23 – present **Jasmine Freeman**, Valdosta State University, Valdosta, GA
1/23 – present **Jordan Hewins**, Valdosta State University, Valdosta, GA
6/22 – 5/23 **Ralph Avery**, Valdosta State University, Valdosta, GA
5/21 – 8/21 **Oshina Jagtap**†, University of Texas at Arlington, Arlington, TX
8/18 – 8/21 **Karthik Yadavalli**†, Georgia Institute of Technology, Atlanta, GA
8/18 – 5/19 **Ziqian Hong**†, Georgia Institute of Technology, Atlanta, GA
8/17 – 5/18 **Ethan White**, University of Oklahoma, Norman, OK

Graduate Students (*6*)

1/22 – present **Shaan Patel**, University of Texas at Arlington, Arlington, TX
8/18 – 5/22 **Steven Kreyche**† **(Ph.D. awarded in 2022)**, University of Idaho, Moscow, ID
8/17 – 12/21 **Marialis Rosario-Franco**† **(Ph.D. awarded in 2021)**, University of Texas at Arlington, Arlington, TX
8/16 – 5/19 **Matt Clement (Ph.D. awarded in 2019)**, University of Oklahoma, Norman, OK
8/17 – 5/18 **Sarah Moorman**†, University of Texas at Arlington, Arlington, TX
8/12 – 12/14 **Suman Satyal**† **(Ph.D. awarded in 2014)**, University of Texas at Arlington, Arlington, TX

†Mentoring resulted in a publication and is denoted by color in my publication list.

Media Coverage

Jul 2023	Kurzgesagt shorts – How Many Moons Could Earth Handle?
Aug 2022	Newscientist.com – Physicists work out how many moons Earth could have
Aug 2022	Universetoday.com – What is the Maximum Number of Moons that Earth Could Have?
Jan 2022	Scientificamerican.com – Astronomers Have Found Another Possible 'Exomoon' beyond Our Solar System
Jun 2020	theScienceBreaker.org – Climatic Changes for Earths in Sun-like Stellar Binaries
Nov 2019	Phys.org – Exoplanet axis study boosts hopes of complex life, just not next door
Jul 2019	Cosmos Magazine – Planets in multiple-star systems may be habitable
May 2019	Sky and Telescope – Third planet found orbiting binary star system
Jun 2017	ScienceDaily.com – Composition of Earth-size planets in TRAPPIST-1 system
Jun 2016	Astrobiology Magazine – New planet largest discovered orbits two suns
Apr 2014	National Geographic – Kepler Telescope Discovers Most Earth-Like Planet Yet
Jan 2012	Universe Today – Goldilocks moons
Jan 2012	National Geographic – "Tatooine" Planet With Two Suns Could Host Habitable Moon?
Jan 2012	Space.com (NBC News) – Alien Earths could have 2 suns like Star Wars Tatooine

Institutional Service

Valdosta State

- **Departmental Committees**: Physics Departmental Action Team (DAT), Astronomy & Physics Advisors, Engineering Technology Faculty Search, Department Head Search
- **College Committee**: Data Science Curriculum
- **University Committees**: Undergraduate Research Council, Technology, Student Affairs

Georgia Tech

- **Cosmic Coffee** (journal club) organizer (2018-2021) in the Center for Relativistic Astrophysics at Georgia Tech

Review Experience

Journals	Nature Astronomy, Astrophysical/Astronomical Journal, Astronomy & Astrophysics, Icarus, Monthly Notices of the Royal Astronomical Society, Advances in Space Research, Physical Letters A, Advances in Astronomy
Grants	NASA Emerging Worlds, NASA TESS Guest Observer Program, K2 Guest Observer Program, NASA Earth and Space Science Fellowship Program, NASA Postdoctoral Program

Research Collaborations

Kepler Working Groups

2013 – 2016 Eclipsing Binary, Transit Timing Variations & Multiple-Body, Threshold Crossing Event Review Team (TCERT)

TESS Working Groups

2016 – present Circumbinary Planets, Transit Timing Variations & Multiple-Body

Books and Monographs Published

Z. Musielak and B. Quarles. Three Body Dynamics and Its Applications to Exoplanets. SpringerBriefs in Astronomy, July 2017. Google Scholar ISBN 9783319582269

Open Educational Resources (OERs)

- Computational Physics – saturnaxis.github.io/CompPhysics
- Modern Astrophysics – saturnaxis.github.io/ModernAstro
- Astrobiology – saturnaxis.github.io/Astrobio
- Modern Physics – saturnaxis.github.io/ModernPhysics
- Cosmology – saturnaxis.github.io/Cosmology

Research Grants and Awards

CY 22-24 CoI, NASA TESS GO Cycle 4, Discovering Circumbinary Planets With TESS, $70,000 (including student support)

CY 22-24 Collaborator, JWST GO Cycle 1, Searching Our Closest Stellar Neighbor for Planets and Zodiacal Emission

FY 20-22 CoI, NASA Astrophysics Theory Program, Debris Disk Morphology due to Stellar Encounters,$523,145

FY 19-20 CoI, NASA Habitable Worlds, Tidal Obliquity Variations of Potentially Habitable Planets, $211,098

FY 19-20 CoI, NASA Sellers Exoplanet Environments Collaboration, Where to Search for Habitable Worlds, $500,000

CY 19-20 Collaborator, NASA TESS GI, Detection and Prioritization of Warm Jupiters

CY 16-18 Collaborator, NASA SSW, Comprehensive Analyses of Comet Siding Spring, Before, During and After Its Mars Encounter

CY 16-18 CoI, NASA XRP, Warm, Large Exoplanets

FY 14-16 CoI, NASA Astrobiology: Exobiology and Evolutionary Biology, Obliquity Stability of Potentially Habitable Worlds
