

Justin Bowen

Objective My objective as an adjunct professor is to listen and learn from the many experiences of those I have encountered over the years in my personal and professional (law enforcement) life and share that knowledge with students that desire to serve our communities in the public safety profession. Secondly, I believe my objective as an adjunct professor is to learn from the students and their experiences so that it may deepen my knowledge and understanding of the “world” each of the individuals comes from in order to strengthen my ability to communicate as a professor.

Skills & Abilities While serving as an active duty police officer and detective, I have obtained and utilized the following skills in order to impart a variety of messages dedicated to the criminal justice profession including:

- Ability to create and present subject matter presentations using power point and additional presentation resources
- Ability to investigate criminal cases involving property related and financial fraud related offenses
- Ability to train officers and individuals on the techniques required when investigating fraud related offenses including those involving the use of digital assets or “crypto currencies”
