

MATH 538.01S & 01W: COMPLEX ANALYSIS I
FALL 2014

CONTACT INFORMATION:

NAME : Dr. Hasan Coşkun
OFFICE : Binnion Hall BIN 314
PHONE : 903.886.5951
WEB : <http://faculty.tamu-commerce.edu/hcoskun/>
E-MAIL : hasan.coskun@tamuc.edu
OFFICE HOURS : MW 2:30-4:00p (BIN 314), and TR 4:30-6:30p (Skype),
otherwise by appointment

DESCRIPTION AND POLICIES:

1. CLASS SCHEDULE: This course has both online and traditional sections.
Section 01W Online
Section 01S MW 4:30-5:45p BA338 & MPLX120
Online office hours will be held via Skype (email your Skype ID to the instructor), or via Adobe Connect at the website <http://connect.tamuc.edu/coskun> at times indicated above. You are welcome to attend both regular and online office hours which are scheduled after work hours for your convenience.
2. TEXTBOOK: Complex Analysis for Mathematics and Engineering, 6th edition, by Mathews and Howell (ISBN-13: 9781449604455)
3. WEBSITE & INTERNET: An eCollege website has been created for the course which may be accessed from student myLEO accounts following the eCollege and then the My Courses tabs. All files and documents, lecture notes and outlines, links to video content, and software modules that the instructor shares with the class will be posted in the Doc Sharing folder in the course website. All material posted at the course website is copyrighted ©. You are allowed to retain one copy of each file for your personal use, but the files should not be distributed in any form without instructor's written consent.
4. COURSE DESCRIPTION: Geometry of complex numbers, mapping, analytic functions, Cauchy-Riemann conditions, Complex integration. Taylor and Laurent series, residues. Prerequisites: Math 436 or Math 438, or consent of instructor.
5. SOFTWARE: *Mathematica* software is required for the course. It will be used for carrying out computations in discussion sessions, homework exercises, exams and projects. Mathematica 10 is installed and available in Mathematics computer lab in BIN 328, and in computer labs at the Metroplex center. Personal student licenses may be purchased online at the Wolfram Mathematica website <http://www.wolfram.com/mathematica/how-to-buy/education/>.

6. **HOMEWORK:** Homework will be assigned in every class meeting on a regular basis. Selected assignments and problems will be graded only, but all homework problems should be worked out. The assignments will be turned in electronically (in form of a Mathematica notebook) by due dates to the Dropbox for that week at the eCollege website. Student name and homework number should be printed at the top of each notebook. You may work in groups unless otherwise instructed, however the paper you turn in must be your own work. Late homework is not accepted. Homework score is worth 50 points of the total semester grade.
7. **TESTS & PROJECTS:** There will be two tests/projects (100 points each) and a comprehensive final (200 points). Test problems will be similar to homework exercises. No make-up test will be given without an official, written, university accepted excuse. The student must contact the instructor the next working day and present the documented excuse to make up a test.
8. **LEARNING OUTCOMES:** Students who complete this course successfully will
 - a) learn the *terminology* of introductory single variable complex analysis;
 - b) learn the *methods* used in single variable complex analysis;
 - c) learn the *applications* of theoretical results to practical problems.
9. **TENTATIVE COURSE OUTLINE:**
 1. Introduction to Mathematica (Week 1)
 2. Complex Numbers (Week 1)
 3. Complex Functions (Week 2 and 3)
 4. Analytic and Harmonic Functions (Week 4 and 5)
 5. Sequences, Julia and Mandelbrot Sets, and Power Series (Week 6 and 7)
 6. Elementary Functions (Week 8 and 9)
 7. Complex Integration (Week 10 and 11)
 8. Taylor and Laurent Series (Week 12 and 13)
 9. Residue Theory (Week 14 and 15)
10. **TENTATIVE EXAM SCHEDULE:**

Test 1	100 pts	Wed October 01, 2014	4:30p, BA338 & MPLX120
Test 2	100 pts	Wed November 05, 2014	4:30p, BA338 & MPLX120
Final	200 pts	Mon December 08, 2014	4:30p, BA338 & MPLX120

11. **GRADING SCALE:** All scores will be added and a letter grade will be assigned according to the following table.

A	406 - 450 pts
B	361 - 405 pts
C	316 - 360 pts
D	271 - 315 pts
F	0 - 270 pts

12. **OTHER IMPORTANT DATES:**

October 30, 2014	Last day to drop a class
November 27-28, 2014	Thanksgiving holiday
December 02, 2014	Last day to withdraw from Fall 2014
December 05, 2014	Last class day

13. **MISCELLANEOUS:** Your enrollment in this course indicates that you agree to observe all the conditions and regulations of this syllabus and the Student Handbook. Your test and homework scores may be filed to be used anonymously for educational research.

It is your responsibility to secure the software licenses and other resources (such as a personal computer with proper operating system to run the software, broadband internet access to view the video recordings and participate in online discussion sessions, etc.) to be able to complete and communicate all assignments, tests and projects to the instructor as required. The access information to Library resources, and Help Desk for technical support are available through the eCollege website.

Policies pertaining to scholastic dishonesty are identical to TAMU-Commerce regulations given in the Student Handbook, available online at the website <http://web.tamuc.edu/studentLife/documents/studentGuidebook.pdf>. All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment (See Student's Guide Handbook, Policies and Procedures, Conduct). Disruptive behavior and scholastic dishonesty in any form will not be tolerated.

Students requesting accommodations for a disability should contact the Office of Student Disability Resources and Services, Texas A&M University-Commerce, Gee Library, Room 132, Phone: (903) 886-5150 or (903) 886-5835, Fax: (903) 468-8148, or Email: StudentDisabilityServices@tamuc.edu.

Any possible changes to be made in this syllabus by the instructor during the semester will be announced in class.
