

LIBS 497 – Nostalgia as Popular Culture
Texas A&M University - Commerce – Spring Semester 2010
web-enhanced course – Mon/Wed 3:30 – 4:45 PM (305 Hall of Languages)

Instructor: Dr. Brad Klypchak

Office: 221 Hall of Languages Building

Email: Brad.Klypchak@tamuc.edu

Office Hours: Mon and Wed 1:00-3:00

Tues and Thurs 11:00-12:00; 2:00-3:00, or by appointment

Course Description: Film, television, music, fashion, video games, sport, museums, cultural heritage, folklore... nostalgia surrounds us, and this course invites the chance to explore why. Through readings and discussion, this course will apply an interdisciplinary approach to examining the varied reasons and rationales about contemporary consumption of days long past.

Course Objectives:

1. To demonstrate an understanding of the core concepts of reflective and restorative nostalgia.
2. To encounter and engage in readings from a variety of paradigmatic approaches as a means for generating synthesis, analysis and communication of critical thought
3. To apply the principles of interdisciplinary scholarship by reflectively and informatively contributing to dialogues on a variety of nostalgia-related topics
4. To critically deconstruct aspects of nostalgic practices in connection to the larger cultural, political, historical, and/or contextual discourses

Evaluation:

Nostalgia Scrapbook	10%
Annotated Bibliography Project:	10%
Reflective Nostalgia Project:	10%
Restorative Nostalgia Project:	10%
Exams:	20%
Analysis Project:	20%
Presentations:	10%
Participation and Engagement:	10%

Grading System:

A (exceptional) = 100 - 90% B (good) = 89 - 80% C (average) = 79 - 70%
D (minimally sufficient) = 69 - 60% F (failure) = <60%

I am a firm believer in the formal significance to these letter grades and their meaning. As much as it pains us on occasions to realize, exceptional is a difficult realm to achieve. As well, average is just that, average – on a level with one’s peers. Average does not equate to poor or a “bad” grade. In nearly all grading instances, I start from a mindset that one begins at middle “C” (75%), and one proves their relative ability to shift above, shift below, or remain at that mark with their work. This is particularly true of participation and reading response grades.

Readings:

There is one required text for the course:

Reynolds, Simon. (2011). *Retromania: Pop Culture’s Addiction to Its Own Past*. New York: Faber and Faber.
ISBN: 978-0-86547-994-4 manufacturer list price \$18.00
[Reynolds’ blog tied to the book](#)

In addition to this text, there are a variety of additional readings which will be distributed through eCollege. A full bibliography of the course readings will be available there as well.

All readings are to be completed during the respective week they are assigned, and their material will be needed on exams. On occasion, students may be asked to complete additional readings beyond those listed on the syllabus. Should this be the case, sufficient time and access to such readings will be provided.

Academic Dishonesty

All coursework is to be an original work by the student and created specifically for fulfilling the requirements for this course. Plagiarism, cheating, or otherwise representing another's work or ideas as one's own without proper attribution will not be tolerated. It is the student's responsibility to:

1. research and write their own papers
2. give proper credit through documentation when using words or ideas of others
3. rely on their own knowledge when taking tests
4. refuse to give another student the opportunity to be dishonest

Any act of academic dishonesty will result in the automatic failure of the course and may be subject to further disciplinary action by the university.

"Attendance" policy, instructor's rights and expectations:

All courses demand active participation and regular attendance. It is imperative that the student do all assigned work in a timely fashion. In particular, the benefits from discussion specifically depend on each student's respective preparation and distinctive contribution. Failure to do so hurts not only the individual student, but the collective community as a whole.

Please be aware: Upper-division courses are typically already quite time-involved as the amount of outside library work, reading, and writing is demanding. One must stay active and disciplined with researching, writing, discussion board posting, and assignment management throughout the term.

All assignments are devised for the explicit purpose of offering educational benefit, be that academic growth, hands-on experience, development and display of critical thought, or expression of our academic selves. Coursework is to be completed as assigned and is to be turned in via the eCollege dropbox no later than the formal due date. Any work turned in after due dates will incur a penalty respective of its relative degree of tardiness (to a point of no credit whatsoever). Failing to complete assignments not only inhibits the immediate learning process but, again, ultimately hurts the overall learning community as discussion of the process and its results can prove insightful as well. Repeated failures to meet deadlines (be it missed assignments, periods of minimal progress, failure to engage with the course community, etc.) will constitute the equivalence of "absences" in a traditional classroom setting. Students with more than **three** "absences" may be dropped from the course. For additional information, see the *Student's Guide Handbook*, p. 37. Additionally, I reserve the right to assign a final course grade no higher than a "C" for students accumulating more than **three** "absences."

Course participation includes aspects of respectful, thoughtful, class interaction and engagement in group discussions. This course's expectations work in conjuncture with what the *Student's Guide Handbook* describes as Civility in the Classroom (see p. 36). Additionally, all students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See *Student's Guide Handbook*, Policies and Procedures, Conduct, pg. 42).

ADA Statement - Students with Disabilities

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services

Texas A&M University-Commerce

Gee Library- Room 132

Phone (903) 886-5150 or (903) 886-5835

Fax (903) 468-8148

StudentDisabilityServices@tamuc.edu

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See Code of Student Conduct from Student Guide Handbook). Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum:

<http://www.albion.com/netiquette/corerules.html>

Texas A&M University-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Please Note:

Popular culture and entertainment media use life as its muse. As such, it is comprised of the themes, subjects, and contents that contribute to everyday life. These contents, at times, can and do include aspects of violence, threat, sexuality, conflict, oppression, discrimination, inequality, profanity, varying ideology, crime, and impropriety. While effort has been taken to keep decorum in mind, nostalgia as a scholarly pursuit is intended for collegiate/adult maturities and some of the examples encountered in the course will comprise aspects of these contents.

Brief Assignment Explanations:

Participation and Engagement: Whether in the classroom or on the discussion board, the goal is demonstrate communication, discussion, and interactive engagement. Students are expected to dialogue in a way that provokes, clarifies, challenges, and enlightens the course community.

Additional considerations of a student's relative level of engagement and academic integrity will also be made across all aspects of the course including but not limited to completion and quality of tasks and assignments, communications, following instructions and guidelines, and accessing materials. As mentioned previously, all students will start as receiving 75% and will be assessed as to their respective demonstration of proficiency/deficiency/adequacy across the term.

Exams: During week 8 and week 15, timed examinations will be given to assess mastery of the course's core concepts. All topics build upon one another. As a result, exams are cumulative in nature. Exams will include short answer and essay-based questions and will consist of questions asking students to demonstrate their mastery of the course material through the critical thinking skills of analysis, reflection, evaluation, synthesis, and application.

Nostalgia Scrapbook: Students will compile a collection of instances reflecting elements of nostalgia as popular culture. The aim of this task is to highlight the diversity of ways in which nostalgia can be seen in everyday life practices.

Annotated Bibliography Project: Students will be required to utilize online databases for locating source material on a topic which pertains to his/her particular nostalgic interests. By completing an annotated bibliography of journal articles from diverse areas of scholarship, the student will engage with a variety of academic research while also establishing a scholarly foundation contributing to their Analysis Project, their Restorative Nostalgia Project, and their Reflective Nostalgia Project.

Restorative Nostalgia Project: Students will choose a specific instance of restorative nostalgia in action and will create a brief synopsis describing not only the entity's constructs, but also a concise bibliography of key academic works tied to that specific genre. Through a formal research process of the chosen topic, the student will compile and create summative document for the genre to be shared amongst the course community as a whole. This information will also be presented to one's coursemates (part one of the Presentations task).

Reflective Nostalgia Project: Students will choose a specific instance of reflective nostalgia in action and will create a brief synopsis describing not only the entity's constructs, but also a concise bibliography of key academic works tied to that specific genre. Through a formal research process of the chosen topic, the student will compile and create summative document for the genre to be shared amongst the course community as a whole. This information will also be presented to one's coursemates (part two of the Presentations task).

Analysis Project: Students will apply course concepts and principles by deconstructing some aspect of nostalgic popular culture. In the analysis, the student will display evidence of theoretical content, an academically-sound research base, and a critical assessment of the practice/behavior/product/activity chosen. This information will also be formally presented to one's coursemates (part three of the Presentations task).

TECHNOLOGY REQUIREMENTS

- To fully participate in online courses, you will need to use a current, Flash enabled browser. For PC users, the suggested browser is Internet Explorer 9.0 or 10. For Mac users, the most current update of Firefox is suggested.
- You will need regular access to a computer with a broadband Internet connection. The minimum computer requirements are:
 - 512 MB of RAM, 1 GB or more preferred
 - Broadband connection required courses are heavily video intensive
 - Video display capable of high-color 16-bit display 1024 x 768 or higher resolution
- You must have a:
 - sound card, which is usually integrated into your desktop or laptop computer
 - speakers or headphones.
- Depending on your course, you might also need a:
 - webcam
 - microphone

For courses where interactive tools are used, like VoiceThread or ClassLive Pro, headphones are suggested for use with recording and playback. We recommend a webcam with an integrated microphone, such as the Microsoft LifeCam Cinema. All devices should be installed and configured before class begins.

- Both versions of Java (32 bit and 64 bit) must be installed and up to date on your machine. Java can be downloaded at:
<http://www.java.com/en/download/manual.jsp>
- Current anti-virus software must be installed and kept up to date.
- You will need some additional free software for enhanced web browsing. Ensure that you download the free versions of the following software:
 - Adobe Reader
 - Adobe Flash Player
- At a minimum, you must have Microsoft Office 2013, 2010, 2007 or Open Office. Microsoft Office is the standard office productivity software utilized by faculty, students, and staff. Microsoft Word is the standard word processing software, Microsoft Excel is the standard spreadsheet software, and Microsoft PowerPoint is the standard presentation software. Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft

Office, you can check with the bookstore to see if they have any student copies.

- For additional information about system requirements, please see: <https://secure.ecollege.com/tamuc/index.learn?action=technical>

ACCESS AND NAVIGATION

Pearson LearningStudio (eCollege) Access and Log in Information

This course will be facilitated using Pearson LearningStudio, the learning management system used by Texas A&M University-Commerce. To get started with the course, go to: <http://www.tamuc.edu/myleo.aspx>.

You will need your CWID and password to log in to the course. If you do not know your CWID or have forgotten your password, contact Technology Services at 903.468.6000 or helpdesk@tamuc.edu.

It is strongly recommended that you perform a "Browser Test" prior to the start of your course. To launch a browser test, login to Pearson LearningStudio, click on the 'myCourses' tab, and then select the "Browser Test" link under Support Services.

Pearson LearningStudio Student Technical Support

Texas A&M University-Commerce provides students technical support in the use of Pearson LearningStudio.

Technical assistance is available 24 hours a day/ 7 days a week.

If at any time you experience technical problems (e.g., you can't log in to the course, you can't see certain material, etc.) please contact the Pearson LearningStudio Help Desk, available 24 hours a day, seven days a week.

The student help desk may be reached by the following means 24 hours a day, seven days a week.

- **Chat Support:** Click on '*Live Support*' on the tool bar within your course to chat with a Pearson LearningStudio Representative.
- **Phone:** 1-866-656-5511 (Toll Free) to speak with Pearson LearningStudio Technical Support Representative.
- **Email:** helpdesk@online.tamuc.org to initiate a support request with Pearson LearningStudio Technical Support Representative.

Accessing Help from within Your Course: Click on the '*Tech Support*' icon on the upper left side of the screen inside the course. You will then be

able to get assistance via online chat, email or by phone by calling the Help Desk number noted below.

Note: Personal computer problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, an Internet cafe, or a bookstore, such as Barnes & Noble, etc.

Policy for Reporting Problems with Pearson LearningStudio

Should students encounter Pearson LearningStudio based problems while submitting assignments/discussions/comments/exams, the following procedure **MUST** be followed:

1. Students must report the problem to the help desk. You may reach the helpdesk at helpdesk@online.tamuc.org or 1-866-656-5511
2. Students **MUST** file their problem with the helpdesk and obtain a helpdesk ticket number
3. Once a helpdesk ticket number is in your possession, students should email me to advise me of the problem and to provide me with the helpdesk ticket number
4. At that time, I will call the helpdesk to confirm your problem and follow up with you

PLEASE NOTE: Your personal computer/access problems are not a legitimate excuse for filing a ticket with the Pearson LearningStudio Help Desk. You are strongly encouraged to check for compatibility of your browser **BEFORE** the course begins and to take the Pearson LearningStudio tutorial offered for students who may require some extra assistance in navigating the Pearson LearningStudio platform. **ONLY** Pearson LearningStudio based problems are legitimate.

Internet Access

An Internet connection is necessary to participate in discussions and assignments, access readings, transfer course work, and receive feedback from your professor. View the requirements as outlined in Technology Requirements above for more information.

myLeo Support

Your myLeo email address is required to send and receive all student correspondence. Please email helpdesk@tamuc.edu or call us at 903-468-6000 with any questions about setting up your myLeo email account. You may also access information at <https://leo.tamuc.edu>.
