COURSE REQUIREMENTS**Instructional / Methods / Activities Assessments:**

This course occurs in a digital learning environment designed with a module format. You will be expected to read assigned material, participate in discussions and group tasks, reflect on your knowledge growth and complete all assigned tasks/projects by the due date. Late work will not be accepted. Therefore you need to demonstrate a level of time management that allows you to meet due dates as posted.

Participate in all online group/class discussions. There will be an opportunity to work as an individual, with a partner or in a group of 3-4 students. Working with a partner or in a group requires you to follow my CCC: collaboration, cooperation, and completion. This means, as an adult learner, you will collaborate with another student or students in a cooperative manner to complete a quality product. I truly believe two minds are better than one so I encourage partnerships or groups. However, I WILL NOT mediate should an issue arise pertaining to CCC; you are expected to find a resolution. You will always have the choice to opt out of the partnership or group and work as an individual. Therefore, you are expected to show a level of professionalism and stay actively engaged with your partner or the group through communication and contributions to complete the project.

Read required textbook. The student will be expected to read the required text and any supplemental materials. This is an online course that presents written information as an alternate mode of lecture. Do not take this lightly; as an online course you are expected to read/reflect for meaning.

Reflections: Throughout the course, the student may be asked to consider ideas presented in articles and threaded discussions. Some of the reflections will be assigned and submitted to the instructor, others will be for personal reflection and kept by the student.

Written tasks: Completion of all discussions/reflections and projects should exhibit professionalism in appearance and content at an acceptable level of scholarship. Projects are to be completed and turned in according to the due date posted in eCollege. Late work will not be accepted without an excused absence and/or extenuating circumstances as

determined by the instructor with a late due date determined by the instructor. The campus library and/or computer labs are available for use in the event personal technology fails or supplies or assistance is needed.

Grading:

90-100	A
80-89	B
70-79	C
