Examinations: 60 percent. There will be three required examinations. All exams will include material from both the textbook and lecture. Students are responsible for testing the compatibility of their own computers and software prior to starting the exam and must be sure to have a high-speed internet connection to eliminate the chance of technical problems. Exams are timed and can only be accessed once. Exams cannot be paused once it has begun even if there is a sudden disconnection. Students are given the option to “Save Answers” and should do so frequently. Students should not click the “Submit Test” button until the exam has been completed. Once the student clicks the “Submit Test”, the exam will be closed and cannot be re-entered. Any technical problems that occur while taking the exam should be immediately referred to the help desk and the student should contact the instructor immediately via email. Students who encounter technical problems because of failing to comply with these guidelines will not be given an opportunity re-take or re-access an exam.

Discussion Assignments

There will be 15 weekly discussions. Each week, the instructor will post and/or instructions for the discussion assignments on Monday. Each discussion thread will be open until Saturday of that week and will close at 11:59 p.m. There will not be a discussion the week of Thanksgiving Break. Students are given ample time to participate in discussion assignments and therefore there will be no make-up opportunities if for any reason the student fails to participate. No credit will be given for posts made after the deadline.

Each week the student is required to submit four posts. The student is required to respond to the discussion topic and respond to three posts made by other students. Each post should answer all parts of the topic in a clear and coherent manner. When responding to other members of the course, students should provide thoughtful discussion that will help stimulate conversation. It is not sufficient to simply agree or disagree with the post; the student must provide an educated response. The student’s initial response should be at least 175 words and should incorporate

material from the textbook and at least one additional reference. Please note the additional reference should be from a scholarly source and should be cited within the discussion post. Wikipedia is never acceptable. The three responses to posts made by other students should be at least 125 words each.

The student will be graded based upon the quality and content of their original response to the topic posted as well as those posted in response to other students. Posts that do not fully answer the questions or respond to other posts will not receive full credit. Each discussion assignment will be graded on a scale from 1-3, with 3 being the highest. Students will receive up to 1.5 points for their original response and up to .5 for each additional response, for a combined possible total of 3 points. Students who fail to participate will receive a zero and this grade cannot be made up.

Students must be conscious of the academic dishonesty as discussed in the Student Conduct and Discipline section below when content is submitted for Discussion Assignments. All content that is submitted should be the student's original work. Any material taken from another source, including the textbook, should include a proper citation. Material, which is copied or paste from any source will be considered plagiarism and as a result, the student will not receive credit for ALL Discussion Assignments. Work submitted by students will be checked through Turnitin for originality.

Additional Course & Instructor Policies

Make-up exams: No individual make-up examinations will be given. If a student misses an exam, that student will receive a grade of zero for the exam. Make-up exams will only be granted at the discretion of the instructor. Any request for a make-up exam must be submitted in writing, not e-mail, and include documentation explaining why the absence was legitimate. Such a request must be received within three calendar days of the missed exam date, unless the student is physically unable to submit such a request. Legitimate reasons may include illness severe enough to require professional treatment, death in the immediate family, participation in official University activities and legal obligations. *Please note, these reasons do not guarantee that a make-up exam will be given.* Should you be allowed to take the make-up exam, it will be a cumulative essay examination that will be given during the last scheduled week of class for the semester.

Extra Credit: There is no extra credit in this class so please do not ask about it. At times, you may be given the opportunity to receive extra points on exams. These will be given at the instructor's discretion and are not a guarantee.

Student Conduct & Discipline

The University has rules and regulations for the orderly and efficient conduct of business. It is the responsibility of each student to be knowledgeable about the rules and regulations which govern student conduct and activities. General information on student conduct and discipline is contained in the student handbook.

I expect all students to maintain the highest level of personal responsibility and academic honesty which is discussed in Texas A&M University-Commerce Procedures A13.12 Academic Honesty. "Academic dishonesty includes, but is not limited to, plagiarism (the appropriation or stealing of the ideas or words of another and passing them off as one's

own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments), and abuse (destruction, defacing, or removal) of resource material."

Academic dishonesty affects all individuals at the University and accordingly will not be tolerated. For this class, academic dishonesty includes cheating, plagiarism, collusion and/or falsifying academic work. Any attempts to pass off work as your own that was written by another individual, without proper citation or attribution, on any assignment or exam in this course will be considered an act of plagiarism. Any and all instances of academic dishonesty will be referred to the appropriate administrators on campus and may result in significant penalties to include failure or removal from the course.

Students with Disabilities

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
