GRADING:

Grading and evaluation – Grades will be determined according to the following percentage points earned against possible points.

Evaluation for the course grade will be computed according to the following formula:

Possible Points Grade

200 to 180 – A

179 to 160 – B

159 to 140 – C

139 to 120 – D

CLASS ATTENDANCE AND PARTICIPATION:

ONLINE: Students are expected to attend class by logging in to the course in a timely manner, reflecting responsibility which is inherent in the development as a social work professional. The instructor has the ability to see when you log in, what sections you visit and how much time you spend in the course material. Assignments submitted on time are also counted as attendance; therefore, an assignment not submitted is counted as an absence for that week. Students are expected to participate in class, even when there is not a specific grade attached (see Topic Check-in). Course topics, PowerPoint lectures, discussions, groups, videos, and other experiential exercises are essential for a student's professional learning and continued development of self-awareness. In this online course, a student is considered absent if he/she fails to log in sufficient time for the material for that week or fails to complete an assignment that is due that week.

The following penalties for absences (unexcused, or excused, according to university policy) will be administered:

Weekly	Up to 2 absences No penalty	3 absences 1 letter grade drop	4 absences Class grade of "F"	
Bi-weekly	Up to 3 absences No penalty	4 absences 1 letter grade drop	5 absences 1 letter grade drop	6 absences Class grade of "F"
Summer 10-week	Up to 1 absence No penalty	2 absences 1 letter grade drop	3 absences Class grade of "F"	

Final evaluation and grades depend on both presence and participation. Students' grades will be significantly impacted by inadequate participation or lack of required time commitment each week. Students are expected to spend a comparable amount of time in the online learning environment as they would in class (3 hours a week in the classroom). In addition, just as in traditional F2F classrooms, students are expected to spend time reading and studying class materials.

NOTE: PROBLEMS WITH YOUR INTERNET CONNECTION AND/OR COMPUTER ARE NOT CONSIDERED AS REASONS FOR LACK OF PARTICIPATION.

You have access to the university's computer labs (in the social work department AND other campus facilities, including the library) as well as local libraries and other access to computers and ISPs.

If you believe that you are unable to fulfill the requirements for the course you should talk with your instructor about the possibility of dropping or withdrawing.

Class participation has three components: (1) Appropriate interactions with classmates, (2) Attentiveness, and (3) Active involvement in class activities. Evaluation of class participation is based on instructor observation. Students will be given feedback if problems are evident.

POLICY ON DUE DATES: Assignments are due at 11:59 p.m. on the Sunday of the week in which the assignment is located. Class weeks for this course begin on Mondays at 12:00 a.m. and close on Sundays at 11:59 p.m. *Late assignments will not be accepted.*

POLICY ON PLAGIARISM AND CHEATING:

Every student is expected to do his/her own work. Law, ethical standards, university policy, and departmental policy demand that students refrain from plagiarism and any form of cheating.

Plagiarism is the "Act of appropriating the literacy composition of another, or parts of passages from of his [or her] writings, or the ideas or language of the same, and passing them off as the products of one's own mind." (Black's Law Dictionary, Abridged Fifth Edition, 1983). When using others' words, phrases, or ideas in writing, the original author should be given proper credit.

Cheating may take different forms. These include, but are not limited to, copying others' answers during an exam, using notes or other forms of help during an examination or quiz, except when explicitly permitted by the instructor, giving or receiving help on exams or assignments, or submitting work for one class which has already been submitted for another class for credit. Use of citations from the Internet without paraphrasing content AND proper referencing is regarded as plagiarism. Professors have the right to use electronic review programs (such as Turn It In") to identify plagiarism.

The department does not tolerate plagiarism or cheating. A student found to be engaging in such illegal and unethical conduct may receive a failing grade in the course and may be subjected to further disciplinary proceedings. Any assignment or exam that lacks honesty will be given a grade of “0”.

ACCEPTABLE CLASSROOM BEHAVIOR:

“Students at Texas A&M University-Commerce are expected to obey all federal, state, and local laws, in addition to the regulations of the University. The standards of Student Conduct including disciplinary rules and procedures are designed to provide and conform to the basic tenets of due process, as developed by institutions of higher education. As such, the University distinguishes these procedures and regulations as an educational and growth process which is not intended to conform to adversary proceedings as in a court of law. (Student’s Guide Book, 2011, p. 35).

ASSIGNMENT DETAILS

1. Quizzes – There are three quizzes throughout the course; each one is worth 10 points (20 questions worth ½ point each). Quizzes will only open on Monday at 12 a.m. in the week they are listed and will close at 11:59 p.m. on Sunday. There are no allowances for opening a quiz after it has closed (in order to be completed late). Each quiz is on specific chapters and there are no overlaps. All quizzes are open book; however, all quizzes are also timed, which means you are advised to have notes or to have read the material to reduce flipping through pages to find the answers.

2. Discussion – There are 3 discussion assignments throughout this course. They are worth 10 points each. To get full points on every discussion assignment **you must do all of the following:**

- a. You must respond to the discussion prompt of the instructor by Wednesday at 11:59 pm and then respond to TWO of your peers between Thursday after 12:01am and Sunday at 11:59 pm.**
- b. Your initial post must be a true discussion of your understanding of the topic assignment and must be between 10- 15 sentences.**
- c. The comments to your TWO peers must be a minimum of five sentences and must add to the discussion.** Though you are free to say things like “Interesting thought” or “Nice discussion,” these comments and those similar **are not counted as part of the five sentences.**
- d. Proper grammar is expected.** I highly recommend typing your thoughts and comments in a file on a word processing program and check for spelling and grammatical errors. Professionalism and professional presentation is an expectation and not an option. Points will be taken off for sloppy spelling and writing.

3. Papers – You will have three written assignments throughout the course on an assigned topic. Each paper is worth 20 points. All assignments are to be Times New Roman, 12 point font, and double-spaced. They are submitted via the **dropbox** in your eCollege course for the week they are due. *Do not submit them as an email. They must be a document with your last name as*

part of the file name and they must be a Word document (.doc or .docx extensions). You are required to use the template “located in “doc sharing” for each of the papers. A grading rubric is supplied for each paper so you know **exactly** what you are being graded on.

4. Group – Prior to Week 13 you will be assigned to a group and given specific instructions for the group activity your group is to complete. This assignment will be given to you (and your group members) in Week 9 and must be completed by the end of Week 13. It is worth 20 points.

5. Topic Check-in – These are scattered throughout the course. They require that you log in for that week and watch the video. For credit for this, you must complete the assignment by clicking into your Journal after viewing the video and posting a one paragraph summary of what the video was about, **and** a one paragraph summary of your thoughts on what you saw. Be sure that you date your journal entry. The combined assignments are worth 20 points (4 @ 5 points each).

6. Final Exam – This is worth 40 points and is a comprehensive exam on everything you learned in the course. It pulls questions from all previous exams you have taken and to be done within the time allocated so you will need to have studied the material.

POLICY ON LATE WORK OR EXTRA CREDIT: I DO NOT ACCEPT LATE WORK OR PROVIDE EXTRA CREDIT. There are a number of assignments in the course that will allow students of multiple learning types to excel. I do not allow for make ups for any missed assignment. The reason for this is that you have ample time to complete each assignment. It is important to pay close attention to deadlines. I highly recommend using a calendar or print off a calendar and mark your assignments and due dates.
