### ***Instructional Methods***

This is an online class. All instructional activities and assignments will be delivered and received online using the eCollege learning media platform.

Videos, lecture notes, and articles in the modules and Doc Share will help guide students through the development of these assignments. **You are expected to read all lecture notes and articles and view all videos in each module before completing assignments and discussion threads.**

*The syllabus/schedule are subject to change.*

## ***Student Responsibilities or Tips for Success in the Course***

### Being a Successful Student

- [What Makes a Successful Online Student](#)
- [Self-Evaluation for Potential Online Students](#)
- [Readiness for Education at a Distance Indicator \(SmartMeasures\)](#)

To Login Information: Login = tamuc; password = online

Given the constructivist design of the class and the online delivery format, it is imperative that this course is interactive. It is my expectation (and I am sure yours, too) that all students participate fully in all activities and assignments in order to maximize their learning experiences.

In order for this class to be interesting and beneficial, each student is expected to be prepared to lead and/or enter into discussions, to ask relevant questions, and to share the results of his/her study and reflection.

This means that each student should be:

- (1) Aware of the class schedule and the requirements for each class (knowing for what to be prepared),
- (2) Self-disciplined (spending time to be fully prepared), and
- (3) Eager to share with his/her classmates (participating actively by sharing what s/he has prepared). Participation is an extremely important part of your experience in this class. When you miss participating in a class assignment, not only do you miss information presented, but you miss the interaction of your classmates, which can lead to the loss of key learning experiences.

## **GRADING**

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

*The syllabus/schedule are subject to change.*

## COMMUNICATION AND SUPPORT

### *Interaction with Instructor Statement*

I will communicate with you through:

- Email
- eCollege Announcements
- Module Q&A Forum
- Virtual Office Hours as needed
- SKYPE
- Phone conference by appointment

Email is the primary mode of communication that will be used in this course. I will attempt to answer emails within 24 hours. As a student enrolled at Texas A&M University-Commerce, you have access to an email account via myLeo - all my emails sent from eCollege (and all other university emails) will go to this account. Please be sure to check it regularly. Conversely, you are to email me via the eCollege email system or your myLeo email as the university's spam filters will catch yahoo, hotmail, etc. and I will not check for your email in spam. **When sending me an email, please include the course number (EDAD 664) in the subject line.**

Please be sure that the email you have listed with TAMUC is the one you wish to use. Ecollege uses the MyLeo email that was provided to you upon admittance to the university unless you have changed your primary email through the system. .

Another way to communicate with me is through Module Q&A. Each of the seven modules within the EDAD 664 course shell has a link entitled Module Q&A, where you can post questions and review responses to questions that pertain to course information as you progress through this course.

*The syllabus/schedule are subject to change.*

Prior to asking a question, please quickly review previous responses within a particular Module Q&A forum as your question may already have been addressed. You are welcome to respond to a classmate's question if you can accurately address the issue.

If you would like to communicate with me via a phone conference, please schedule an appointment via email and include the topic that you would like to discuss.

All assignments will be submitted electronically in the dropbox of the online course in accordance with the deadlines designated within Modules 1-7. These will be graded based on the criteria provided in rubrics, which are included in this syllabus as well as in Modules 1-7 of the online course. All graded assignments will be returned via email attachments, and grades will be posted in a timely manner.

## **COURSE AND UNIVERSITY PROCEDURES/POLICIES**

### ***Course Specific Procedures/Policies***

#### **APA Format for Papers**

Please follow APA 6 formatting in your Style Manual. You may also access a free online APA tutorial at [Purdue Online Writing Lab](http://www.purdue.edu/onlinewritinglab) and at [www.apastyle.org](http://www.apastyle.org)).

Reflection papers should be double-spaced and typed in a New Times Roman font that is 12 cpi in size. Papers should adhere to the format as specified by the *APA Manual, Sixth Edition*. These should reflect scholarly work and should not be written in first person.

All resources should be cited using the correct APA format as specified in the *APA Manual, Sixth Edition*. All papers should be free of technical errors (grammar, punctuation, mechanics, etc.).

#### **Late Work**

**Late work is not accepted unless prior approval received by the instructor. Points may be deducted.** You will have plenty of notification and time to complete course assignments. If you know you are going to be out of town and unable to access a computer, plan ahead. See the course semester outline at the end of this syllabus.

#### **Attendance**

This is an online class; therefore, attendance is up to you! You may be required to work as a team on various activities. The quality of your contributions and regular participation in weekly activities will be considered attendance. It is strongly encouraged that you attempt to log into the course each day of the week. Please check your MyLeo email for messages in order to stay current.

*The syllabus/schedule are subject to change.*

## **Scholarly Expectations**

All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical, particularly at the graduate level, to make duplicate submissions of a single work for credit in multiple classes unless specifically requested by the instructor. Work submitted at the graduate level is expected to demonstrate higher-order thinking skills and be of significantly higher quality than work produced at the undergraduate level.

## **Dropping the Class**

At times, we become overloaded or have unplanned events that demand our attention. If you need to adjust your schedule by dropping this course, please follow university procedures to officially drop the class. Please do not just disappear. If you fail to officially drop the class, a grade must be assigned at the end of the course.

## **Incomplete Grades**

Per university policy, you must visit with the instructor, develop, and sign "A Plan for Completing the Grade of X" before you may receive an incomplete for the course. The reason for such requests is limited to "circumstances beyond student's control which prevented student from attending classes during Finals Week or the preceding three weeks." You are notified that the deadline date for all plans is not to exceed one semester. Failure to fulfill plan requirements within the specified time will result in a course grade of "F".

## **Academic Honesty:**

Please refer to the *TAMU-C Graduate Catalog* and the *Publication Manual of the American Psychological Association* (2010) for the discussion of academic honesty. Academic honesty is especially important when it comes to citing/ quoting sources in research papers and assignments. Students are responsible for reading this material and becoming familiar with the conventions for acknowledging sources of information. Consequences for academic dishonesty range from failing a specific assignment to expulsion from the university.

The *TAMU-C Graduate Catalog* states, "Conduct that violates generally accepted standards of academic honesty is defined as academic dishonesty, which includes, but is not limited to plagiarism (the appropriation or stealing of ideas or words of another and passing them off as one's own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments) and abuse (destruction, defacing, or removal) of resource material."

*The syllabus/schedule are subject to change.*

## **Syllabus Change Policy**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

## **University Specific Procedures**
