## **COURSE OUTLINE AND EXPECTATIONS**

### **DESIGN OF THE CLASS**

This class is designed on constructivist principles. This means that the instructor creates an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students

actively participate in the class through the construction of their own learning. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement.

### **CLASS PARTICIPATION**

Given the constructivist design of the class, this course will be interactive. It is my expectation that all students participate fully for all activities and assignments in order to maximize their learning experience. This web based course will be made up of several learning activities including (but not limited to) small & large group discussion, student-led learning activities, lecture notes and clarification, reflection activities, individual learning activities, written papers, and reflective, integrative examinations. In order for this class to be interesting and beneficial, each student is expected to have recorded weekly minutes in the eCollege portal. The eCollege reports these minutes to me. In certain circumstances if a student is (inactive) for “0” recorded minutes, they are dropped from the course.

Students must be prepared to lead and/or enter into discussions, to ask relevant questions, and to share the results of their study and reflection. This means that each student should be (1) conscious of the class schedule and the requirements for each class (knowing what to be prepared for), (2) self-disciplined (spending time to be fully prepared), and (3) eager to share with your classmates (participating actively by sharing what you have prepared).

### **ONLINE CLASS ENVIRONMENT**

Please practice courtesy, respect the opinions of others, be positive in speech and effort, encourage your classmates, respect confidentiality, and support each other’s learning.

### **GRADING—Scoring Rubrics located in the DocSharing Tab**

Discussion Board	25
Case Study Responses	25
PISA/Comparative Education Analysis	20
Critical Assessment	30
Total	100

Final grades will be calculated on the following scale

<b>90-100</b>	<b>A</b>	<b>Excellent</b>
80-89	B	Good
70-79	C	Poor
Below 70	F	Unacceptable

*Please Note: While students may receive numerical grades for various assignments listed in the syllabus based on the criteria provided by the instructor and which contribute to an overall grade average represented in the breakdown listed above, these grades are to provide feedback to students and to guide the instructor in making an assessment of student work. The final grade awarded for the course, however, will be at the sole discretion of the instructor and will be based on several factors, including but not limited to the rubric provided (see Course Grade Rubric attached). Points will be deducted for the submission of late work.*

## **ASSIGNMENTS**

### ***Completion of assignments***

Each student is expected to work individually and/or with a group at the direction of the instructor to complete the assignments of the course. It is expected that all course work will be submitted by the posted deadline. Assignments will not be accepted via email to the professor and work submitted to the wrong dropbox will not be accepted. Please be mindful of your submission deadlines.

### **Late Work Policy**

In each module there will be a late box. Work that is not completed by the due date may be placed in the late box. Late work will not be accepted beyond the second day after the due date. Please note that late work WILL be penalized. The penalty is as follows

- 1 day late      One Letter Grade Penalty
- 2 days late     Two Letter Grade Penalty

Points will be deducted from the graded assignment. For example, a student submits an assignment one day after the due date. The assignment is graded and the student earned an B on the assignment. An additional deduction is required because of the late submission. Therefore the final grade that the student will receive will be a C. Had the student submitted the work on time, the student would have earned a B. Therefore, it is imperative that you submit your work in on time.

### **Internet Outages.**

In the instances when you experience internet outages and you are requesting an extension, documentation of the outage will need to be provided. Please contact your internet provider for the documentation. If you are in an area that is prone to frequent internet outages, I strongly urge you to seek alternate methods of accessing ECollege. The technician will also provide you with a “ticket number;” that number should also be forwarded to the instructor.

**Please note that the acceptance of late work and requests for extension are provided at the discretion of the professor.**

### **Principal Preparation Practice Questions**

Each week, you will be assigned practice exam questions to complete. You will be provided with an opportunity to discuss challenges and strategies used to answer the problems in the Principal Prep Discussion Area. Participation is not required but strongly encouraged.
