COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings: Vaughn, S., Bos, C., & Schumm, J. (2011). **Teaching Students who are Exceptional, Diverse, and At-Risk** in the General Education Classroom (6th Ed.), Boston: Allyn and Bacon. *Please bring your textbook to every class meeting beginning **January 31, 2017.***

Course Description: The purpose of this course is to identify the social/emotional and academic needs of students with special needs in field-based inclusive settings. Management strategies, social skill development and academic modifications will be developed. A key purpose of the course is to identify collaborative strategies, tools and approaches that will assist in making the general education classroom more inclusive for all students. The following topics will be discussed: individual differences and characteristics of disabilities, modifying in content areas, collaboration modes and tools, Response to Intervention, and a guide to the special education processes. As a resident, you will be expected to actively participate in seminar activities and course assignments in ways that demonstrate your development as professional educators.

Student Learning Outcomes:

The teacher

- 03 understands procedures for designing effective and coherent instruction and assessment based on appropriate learning goals and objectives,

- 04 understands learning processes and factors that impact student learning and demonstrates this knowledge by planning effective, engaging instruction and appropriate assessments,
- 05 knows how to establish a classroom climate that fosters learning, equity, and excellence and uses this knowledge to create a physical and emotional environment that is safe and productive,
- 08 provides appropriate instruction that actively engages students in the learning process, understands and adheres to legal and ethical requirements for educators and is knowledgeable of the structure of education in Texas.

COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments: During class discussions, you will be expected to be able to discuss the subject matter in the chapters listed on your class schedule. Class assignments will require knowledge of the information from the textbook.

Campus Survey: To be the most effective collaborating team member, it is important that you are aware of the resource/support personnel and programs that are available on your campus. Complete the attached campus survey and submit on **3/7/2017**. If there are other resource programs or personnel on your campus that are not included on the survey, you may add that information. Try to discover the roles and functions for each resource person or program. Know that some of these resources may not be housed on your campus, but would be available through your district or co-op if a student required specialized services. For example, if a student required occupational or physical therapy, how would those services be delivered? Who would be assigned to deliver those services? *If several of you are working on the same campus, you may work together and share the information you each gather, but I will need individual copies from each of you.*

Prompts for Chapter Reflections

Reflection prompts are listed for each of the three assignments. Plan to submit your reflections on the dates indicated on the schedule. For each reflection, support your response with information from the BOOK. Each prompt should be approximately 1 page in length. * Spelling and grammar check should be used since points will be deducted for errors. 5 errors= 10 point reduction, 10 errors = 20 point reduction.

Prompt 1

- Because of No Child Left Behind (NCLB) and the Individuals with Disabilities Education Act (IDEA) there is increased emphasis put on inclusive schooling for students with disabilities. Talk about the benefits of and challenges to inclusion and how you are preparing to serve students with disabilities in your classrooms. Use your book as a resource. **Due 2/07/2017.**

Prompt 2

- Educators are always under pressure to cover the instructional goals of the curriculum while considering the different ability and interest levels of the students served. Based on the information in the book, talk about how you can or will apply your knowledge of planning and grouping practices to address this challenge. **Due 2/28/2017.**

Prompt 3

- A critical part of teaching is creating and maintaining a classroom climate that is conducive to the learning of all students. Considering the diversity that exists in public school classrooms today and the importance of well-managed classrooms, talk about what you can/would do to accomplish this goal focusing primarily on the student with an emotional disorder/disturbance or ADHD in the general education classroom. Use your book as a resource. **Due 3/21/2017.**

IEP Meeting (ARD) Attendance/Interview: Observe at least one ARD meeting before **3/21/2017**. The goal is for you to *observe or become knowledgeable of this process* prior to participating as a teacher of record. You will need to contact the ARD Coordinator on your campus to arrange for this. After attending the ARD, you will submit a reflection piece and include the following information:

- 1) Who attended the ARD and what is each member's purpose at the ARD?
(*identify by role only, not by name*)
- 2) Who appeared to be the ARD facilitator or coordinator?
- 3) What was the purpose of the ARD (Admission, Review, or Dismissal)?
- 4) What kind of information (assessment, instructional, behavioral, etc.) was shared by each committee member?
- 5) Particularly, what appeared to be the general educator's role and responsibility as a committee member?
- 6) How were educational goals and objectives determined? How were accommodations and modifications determined?
- 7) How did the committee arrive at decisions concerning the student's least restrictive environment (LRE)?
- 8) As a general educator, what would you need to do to prepare to participate in an ARD meeting? What do you feel is necessary for you to be the most effective ARD team member possible?

***Each school district is different. If your school does not allow residents/interns to attend ARD meetings, then you will need to interview your mentor in order to complete this assignment.

Evidence of Accommodations/Modifications and Collaboration: Review the IEPs of the students served in your general education setting and refer to the ARD meeting you attended. Note the format of the documents and how mandated components are addressed. Particularly, what accommodations or modifications are specified for use in the general education? Develop a table (or other tool) that will allow you to have all of the accommodations or modifications for each student you are serving in one, accessible document. If any of your students have a behavior intervention plan (BIP) in place, note the reinforcers and consequences outlined and how they are to be administered.

As you work with the students in your classes, consider these points:

- Is there currently a system in place to track the effectiveness of identified accommodations and/or modifications?
- What interactions have you had with others concerning improving service delivery to your students with disabilities? How would you describe your personal attempts to work collaboratively?
- What have your efforts been to include these students in the general education classroom setting?

Your assignment is to submit the following:

- A lesson plan (you may use one you are developing for another current class) for a general education class.
- Attach a copy of the accommodations/modifications (no names included on this assignment) the student needs to be successful in completing the assignment/project.
- Also include in this assignment an extension for the higher level learner.

Note: If there is not a student with an identified disability in your classroom, check with the special educator or educational diagnostician on your campus to review forms that are used to create the student accommodations. Document what you are doing to ensure the success of all students. This assignment is due **2/07/2017**.

Response to Intervention: Consider the students in your class and determine those that are possible candidates for the RTI process. Particularly consider the student that needs "something" but has not qualified for special education.

* Select one student and write a plan to help that child be successful in school. You will need to become familiar with your school's RTI process and each tier. Design interventions for each tier in order to help this student become successful through the 3 tier process. This assignment will be an ongoing assignment throughout the semester.

*If this is a child with behavior problems, what type of Behavior Intervention Plan will you adopt? Design interventions to address the misbehaviors and how to help the student improve his/her behavior.

* Spelling and grammar check should be used since points will be deducted for errors. 5 errors= 10 point reduction, 10 errors = 20 point reduction.

*** Include in this plan Tier I interventions, Tier II interventions, and Tier III interventions. Due 4/04/2017.**

Final Assessment: You should begin preparing for your final exam the first week of classes. Come prepared to class, read all chapters and participate in class discussions. Take good notes.

COMMUNICATION AND SUPPORT

Pearson LearningStudio (eCollege) Access and Log in Information

This course will be facilitated using Pearson LearningStudio, the learning management system used by Texas A&M University-Commerce. To get started with the course, go to [myLeo](#) and from the top menu ribbon select eCollege. Then on the upper left side of the screen click on the My Courses tab. <http://www.tamuc.edu/myleo.aspx>

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: It is strongly recommended you perform a “Browser Test” prior to the start of your course. To launch a browser test login to Pearson LearningStudio, click on the My Courses tab, and then select the Browser Test link under Support Services.

Pearson LearningStudio Student Technical Support

Texas A&M University-Commerce provides students technical support for the use of Pearson LearningStudio.

Technical assistance is available 24/7 (24 hours, 7 days a week).

If you experience LearningStudio (eCollege) technical problems, contact the LearningStudio helpdesk at 1-866-656-5511 (toll free) or visit [Pearson 24/7 Customer Support Site](#) <http://247support.custhelp.com/>

The student help desk may be reached in the following ways:

- **Chat Support:** Click on *'Live Support'* on the tool bar within your course to chat with a Pearson LearningStudio Representative.
- **Phone:** 1-866-656-5511 (Toll Free) to speak with Pearson LearningStudio Technical Support Representative.

Accessing Help from within Your Course: Click on the *'Tech Support'* icon on the upper left side of the screen inside the course. Then you will be able to get assistance via online chat or by phone.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

Policy for Reporting Problems with Pearson LearningStudio

Should students encounter Pearson LearningStudio based problems while submitting assignments/discussions/comments/exams, the following procedure must be followed:

1. Students must report the problem to the help desk. You may reach the helpdesk at 1-866-656-5511.
2. Students must file their problem with the helpdesk and obtain a helpdesk ticket number
3. Once a helpdesk ticket number is in your possession, students should email me to advise me of the problem and provide me with the helpdesk ticket number.
4. I will call the helpdesk to confirm your problem and follow up with you

PLEASE NOTE: Your personal computer and internet access problems are not a legitimate excuses for filing a ticket with the Pearson LearningStudio Help Desk. Only Pearson LearningStudio based problems are legitimate reasons to contact the Help Desk.

You strongly are encouraged to check for your internet browser compatibility **BEFORE** the course begins and take the Pearson LearningStudio tutorial offered for students who may require some extra assistance in navigating the Pearson LearningStudio platform.
