**Course Overview**

This course is designed to explore crime, its context, and especially its causes. First, a foundation will be provided concerning the basic concepts of crime, law, and criminology. Next, theories of crime causation will be explored. The etiology or causes of crime are at the heart of this course, with the theories acting as pillars in the class structure. Next, crime typologies will be examined, or the different kinds of crimes most prevalent in our society. Lastly, we will gain an overview of the criminal justice system itself. The intent of this format is to present a balanced perspective on the field of criminology for new students to the discipline. ## COURSE REQUIREMENTS

### Instructor's Expectations of Student

1. Attend class regularly
2. Read material before class
3. Active participation in discussions (not just "I agree/disagree")

### Instructional Methods

The method of instruction for this course will be a combination of class notes, power point presentations, discussions, and group activities. The specific activities used to engage students in mastering chapter material will be discussion board participation, five unit exams and a research paper as assigned.

### Assignments

**Exams :** You will have 5 exams during the course (each exam is worth 100 points). The exams, in general, will not be cumulative, however some of the material presented later in the course builds on topics previously discussed. Exams are to be taken on the date listed on the syllabus. Each examination will consist of multiple choice, fill-in-the blanks, true/false and short essay questions. You may prepare for these exams by reviewing reading assignments, class notes and discussion questions. The professor has the right to change the exams in any way throughout the semester.

**Online Discussions:** We are going to integrate most of our learning into online eCollege discussion. Please, make sure you are familiar with all aspects of eCollege. There is an online tutorial if there is something you do not understand. Not understanding eCollege is not an acceptable excuse for late assignments. Start now getting familiar with it.

**Research Paper:** The research paper will be a ten page paper due at the end of the semester. It is not to be an argumentative or opinion paper, but a research paper. This paper must be written based on a discussion and analysis of a course related issue of your choice. I think you will write a better paper if the topic is something course related and something you are interested in. Please, use APA format writing style for this paper. The paper will be graded on content as well as exposition. There will be a 20 point penalty for late submission. **PLEASE WATCH YOUR GRAMMAR AND SPELLING.**

You are encouraged to monitor your grades throughout the semester via the grade book in eCollege. If you turn in an assignment and do not receive a grade or have a question about the grading, I need to know immediately. I will not entertain any disputes later than one week after the grades are posted.

Overall, your final grade (based on a total of 500 points) will be calculated as follows:

Exams 5 @ 100 pts each	=	500
Discussion Questions 15 @ 10 pts each	=	150

Research Paper 1 @ 150 pts	=	150
Total		800 pts

### Grading Scale

<b>A</b>	<b>720 – 800</b>
<b>B</b>	<b>640 – 719</b>
<b>C</b>	<b>560 - 639</b>
<b>D</b>	<b>480 – 559</b>
<b>F</b>	<b>&lt;480</b>

**Note:** University policy does allow excused absences in certain situations such as: school sponsored events, jury duty, and military service (consult the university catalog for all rules and procedures). All of these excuses require proper documentation. Family emergencies, illnesses, births, deaths, incarceration or other events and calamities are **NOT** excused absences and decisions regarding such absences are left to my discretion.

### Academic Integrity and Honesty

I take plagiarism and other forms of cheating very seriously. *All the work you do in this course is to be your own.* I encourage you to study with friends, but be sure that everything you turn in is your own, original work. Regarding references, anytime you use someone else's work and do not accompany it with a proper citation to the author, you have committed plagiarism regardless of whether or not you intended to do so. It is also inappropriate to use your own work for multiple classes and any such actions will be treated just like plagiarism. Do not copy anything off the internet, out of books/articles, from friends, or from any other source or person. This includes direct cutting-and-pasting, summarizing or quoting without citing, and changing the original wording just enough so that you think you can pass it off as your own. **If I find that you have engaged in plagiarism, you will receive an F in the entire course and I reserve the right to take further disciplinary action(s) at the university level. Do Not Do It!**

### Students with Disabilities:

I am committed to assisting students with documented disabilities to succeed in this course. The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
