COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings:

Textbook Required: Hanson, G. & Venturelli, P. (2015). *Drugs and society* (12th ed.). Jones & Bartlett: Boston.

APA RESOURCE: Purdue Online Writing Lab:

<http://owl.english.purdue.edu/owl/resource/560/01/>

Course Description: This course is designed to examine the physiological and sociological effects of drugs and other harmful substances. Legal and ethical implications will also be considered.

Student Learning Outcomes:

By the end of the course, the successful student should be able to:

1. Examine current scientific information concerning the relationship between drugs and mental and physical health as well as risk-taking behavior.
2. Identify reasons to initiate drug use and why individuals choose to continue using drugs.
3. Explore how dependence occurs, the treatment necessary to break dependence, and how dependence might have been prevented.
4. Survey the historical influence on the drug-oriented society and its bearing on personal drug behavior to include laws that arise related to substance use, misuse, and abuse.
5. Identify alternative highs to drug use highs and how they relate to healthy attitudes and behaviors.
6. Identify factors and examine issues in making responsible choices about drugs (e.g. decision-making, refusal skills).
7. Make a distinction between over-the-counter (OTC) medications, prescription medications, alcohol, tobacco, and a number of illegal drugs.

COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments

We will review many legal and illegal substances commonly used and abused. Activities include discussions of timely topics, application of knowledge through quizzes and exams, and a review of the literature on a substance use and abuse topic.

Assignment 1: E-college Quizzes (13 quizzes at 20-50 points each = 400 points)

Student Learning Outcomes #1, #2, #3, #4, #5, #6, and #7

1. Examine current scientific information concerning the relationship between drugs and mental and physical health as well as risk-taking behavior.
2. Identify reasons to initiate drug use and why individuals choose to continue using drugs.
3. Explore how dependence occurs, the treatment necessary to break dependence, and how dependence might have been prevented.
4. Survey the historical influence on the drug-oriented society and its bearing on personal drug behavior to include laws that arise related to substance use, misuse, and abuse.
5. Identify alternative highs to drug use highs and how they relate to healthy attitudes and behaviors.
6. Identify factors and examine issues in making responsible choices about drugs (e.g. decision-making, refusal skills).
7. Make a distinction between over-the-counter (OTC) medications, prescription medications, alcohol, tobacco, and a number of illegal drugs.

You will take 13 quizzes over material presented in assigned readings (i.e. websites and articles); the chapters of the book; and lectures. Each quiz will be timed and must be completed within the assigned time frame. The purpose of the quizzes is to ensure that you have the basic knowledge to perform other activities in class such as discussing, researching, and writing about a variety of substances and issues related to them.

Assignment 2: Discussions (10 total discussions at 20 points = 200 points)

Student Learning Outcomes #1, #2, #3, #4, #5, #6, and #7

1. Examine current scientific information concerning the relationship between drugs and mental and physical health as well as risk-taking behavior.
2. Identify reasons to initiate drug use and why individuals choose to continue using drugs.
3. Explore how dependence occurs, the treatment necessary to break dependence, and how dependence might have been prevented.

The purpose of this project is for students to explore one of today's major substance abuse problems. The instructor must approve the topic for its relevancy and also so that other students will not duplicate it.

Possible topics include the following: Diagnosis and Treatment of Addiction; Athletes and Drug Abuse (Steroids); Drug Abuse and Psychiatric Disorders; Fetal Alcohol Syndrome; Alcohol and the College Student; Narcotics; Stimulants; Tobacco Use and Health Problems; Drugs, Sex, and Violence; Marijuana; Inhalants; OTC Drugs; Herbal Drugs; Women and Drugs; Drugs and the Older Adult; Drugs and Children; Drug Abuse Prevention (**This is not an all-inclusive list.** You may create your own topic.)

Guidelines for this paper are as follows:

- 4 – 6 pages (actual writing not including the cover page, references, etc.). Research paper should be written in your own words and should be based on fact and current research. **No opinions should be used.**
- APA format (one-inch margins; Times New Roman 12 ptfont)
- At least 5 references (at least 3 of them current (2008 – 2014) **professional, refereed journal articles**). A **bibliography page** of the references will need to be attached to the end of the research paper.

NOTE: Each student should have a separate topic. (If you have a topic in mind, please let the instructor know ASAP, first come first serve.) *Please note, the sample research paper is for reference only, and should not be copied or reproduced. The sample research paper is the sole property of Dr. Tara Tietjen Smith.*
