If the comprehensive final is taken as option, it will only count if it improves the student's grade.

Technical Issues

Students are required to take three midterm exams, which will be accessed through the course page. Students are responsible for testing the compatibility of their own computers and software prior to starting the exam and must be sure to have a high-speed internet connection to eliminate the chance of technical problems. Exams are timed and can only be accessed once. Exams cannot be paused once it has begun even if there is a sudden disconnection. Students are given the option to “Save Answers” and should do so frequently. Students should not click the “Submit Test” button until the exam has been completed. Once the student clicks the “Submit Test” the exam will be closed and cannot be re-entered. Any technical problems that occur while taking the exam should be immediately referred to the help desk. Students who encounter technical problems as a result of failing to comply with these guidelines will not be given an opportunity re-take or re-access an exam.

Discussion Assignments

There will be 15 weekly discussions. Each week, the instructor will post a topic for the discussion assignments on Monday at 10:00 a.m. Each discussion thread will be open until Sunday of that week and will close at 11:59 p.m. We will not have a discussion the week of Thanksgiving Break. Students are given ample time to participate in discussion assignments and therefore there will be no make-up opportunities if for any reason the student fails to participate. No credit will be given for posts made after the deadline.

Each student is required to respond to the topic and is required to respond to three other posts made by other students. Each post should answer all parts of the topic in a clear and coherent manner. When responding to other members of the course, students should provide thoughtful discussion that will help stimulate conversation. It is not sufficient to simply agree or disagree with the post; the student must provide an educated response. Students should use proper grammar, capitalization, and punctuation when responding. Suggested length for the student’s initial response to the discussion question is approximately 150-175 words. Suggested length for student’s response to posts made by classmates is approximately 100 words. Word minimums are not required initially, but may be imposed based on the quality of responses.

The student will be graded based upon the quality and content of their original response to the topic posted as well as those posted in response to other students. Posts that do not fully answer the questions or respond to other posts will not receive full credit. When posting on the discussion board, you should not expect to post all four responses at the same time. The idea of discussion is to engage with other students and read what others are saying. With that in mind you should engage in discussion throughout the week. Please be aware that penalties may be given to students who submit all the required postings on the same day or all on the last day of the week. Each discussion assignment will be graded on a scale from 1-3, with 3 being the highest. Students who fail to participate will receive a 0 and cannot be made up.

Students must be conscious of the academic dishonesty as discussed in the Student Conduct and Discipline section below when content is submitted for Discussion Assignments. All content that is submitted should be the student’s original work. Any material taken from another source, including the textbook, should include a proper citation. Material that is copied from any source will be considered plagiarism and as a result the student will not receive credit for ALL Discussion Assignments.

Additional Course & Instructor Policies

Make-up exams: No individual make-up examinations will be given. If a student misses an exam, that student will receive a grade of 0 for the exam. Make-up exams will only be granted at the discretion of the instructor. Any request for a make-up exam must be submitted in writing, not e-mail, and include documentation explaining why the absence was legitimate. Such a request must be received within 3 calendar days of the missed exam date, unless the student is physically unable to submit such a request. Legitimate reasons may include illness severe enough to require professional treatment, death in the immediate family, participation in official University activities and legal obligations. *Please note, these reasons do not guarantee that a make-up exam will be given.* Should you be allowed to take the make-up exam, it will be a cumulative examination that will be given during the last scheduled week of class for the semester.

Extra Credit: There is no extra credit in this class so please do not ask about it. At times, you may be given the opportunity to receive extra points on exams. These will be given at the instructor's discretion and are not a guarantee.
