Course Description:

This field-based course will focus on how EC-6 children learn and develop knowledge and skills in social studies, varied instructional and assessment strategies that require high expectations and worthwhile opportunities for all students; Texas Essential Knowledge and Skills (TEKS) in social studies and resources for teaching grades EC-6.

Course Objectives:

Domain III, Competency 19-23 (Social Studies) and Domain IV

Objectives for the course will be based upon the Texas Educator Standards so that the students may have the experiences that lead to the knowledge and skills that an entry-level educator in the field of elementary education in the area of Social Studies in Texas public school must possess.

Social Studies:

1. Understand that the eight strands of the TEKS for social studies are intended to be integrated for instructional purposes.
2. Realize that a greater depth of understanding of complex content material can be attained when social studies content is integrated with other disciplines, through project-based learning while incorporating critical-thinking skills.
3. Build a foundation in history, geography, economics, government, citizenship, culture, science, technology, and society/social study skills.
