Course Description:

This field-based course will focus on how EC-6 children learn and develop knowledge and skills in social studies; varied instructional and assessment strategies that require high expectations and worthwhile opportunities for all students; Texas Essential Knowledge and Skills (TEKS) in Social Studies.

Student Learning Outcomes:

The following learner outcomes are specific to the EC-6 social studies standards. While engaged in learning and teaching the intern will show evidence that s/he:

- has a comprehensive knowledge of the social sciences and recognizes their value;
- effectively integrates the various social science disciplines;

- uses knowledge and skills of social studies, as defined by the TEKS to plan and implement effective curriculum, instruction, assessment, and evaluation;
- applies knowledge of significant historical events and developments, as well as multiple historical interpretations and ideas, in order to facilitate student understanding of relationships between the past, present, and the future;
- applies knowledge of people, places, and environments to facilitate students' understanding of geographic relationships in Texas, the United States, and the world;
- knows how people organize economic systems to produce, distribute, and consume goods and services, and uses this knowledge to enable students to understand economic systems and make informed economic decisions;
- knows how governments and structures of power function, provide order, and allocate resources, and uses this knowledge to facilitate students understanding of how individuals and groups achieve their goals through political systems;
- understands citizenship in the United States and other societies, and uses this knowledge to prepare students to participate in our society through an understanding of democratic principles and citizenship practices;
- understands cultures and how they develop and adapt and uses this knowledge to enable students to appreciate and respect cultural diversity in Texas, the United States, and the world;
- understands developments in science and technology, and uses this knowledge to facilitate student understanding of the social and environmental consequences of scientific discovery and technological innovation;
- understands the importance of illustrations and concrete examples with use of hands-on experiences, as well as content and vocabulary development for English language learners--- example: use of cognates with English learners; and
- uses critical thinking and problem solving to design and implement lessons with real-world solutions.
