COURSE DESCRIPTION

The rapid globalization of markets is one of the major developments of the post-World War II period. As has been made crystal clear starting in 2007, economic interdependence among today's economies has become a very crucial issue often resulting in severe and asymmetrical impacts among different nations and/or among different sectors within a nation. The purpose of this course is to explore these concepts and ideas of global economics and finance and equip you with the necessary tools to understand better the impact of global markets on domestic economies. This will allow you to develop the ability to analyze the current issues objectively and accurately which will allow you to apply this knowledge in your career in business, government or academics.

This class provides an analysis of current global issues and their effects in the USA. Emphasis will be on current events, gains from trade, Balance of Payments and adjustment to national and international equilibria and disequilibria, determination of exchange rates and various monetary standards, international capital flows, and trade policy considerations in a changing global economy.

We will also examine the potential political implications for what has been called variously deep globalization or extensive globalization. Economic trade between nations extends as far back as the concept of the nation state and the national sovereignty that goes with that. National self-determination is embedded in various cultures and philosophies of all nations but not all

people. Complete globalization, it is argued, requires the elimination of the nation state and the borders that geographically define each. Are we ready to give up being American? Are the French ready to give up being French? Are the Chinese? We will discuss some of these issues so you may be more aware of them when you see them or hear them.

GRADES AND ADMINISTRATIVE MATTERS:

Exams I & II (100 points each, 40% of grade), and final exam (100 points, 30% of grade). Plan well in advance for the exams: there will be no early exams and no make-up exams. An exam that is missed will be considered an F, unless I am notified prior to the exam and the excuse is a legitimate medical one or otherwise officially approved. Business travel does not qualify as ‘otherwise officially approved’. Regardless of the excuse, if you miss two tests you will automatically fail the class.

In addition, you are responsible for a paper(100 points, 30% of grade) on the Commanding Heights video series available free on YouTube or the book Globalization Paradox. You may use the link below to find useable copies of each video episode in the Commanding Heights series.

Commanding Heights link:

https://www.youtube.com/playlist?list=PLOr8g_slscQNLXPfvACwjADhh_uWJczxs

About the paper, you should be able to complete an acceptable paper in 3 8 ½ x 11 pages using Times New Roman 12pt. font with 1 ½ line spacing. I want to know if you understand the message of the book. Aside from making money and getting academic credit, why did the authors write the book from which the videos were made? An answer of, “I have no idea.” will earn you an F on 30% of your grade, just to be clear. When you lump Christians and Muslims together, you’re looking at about ½ the world’s population. It is ridiculous to write ½ the world’s population off as two religious fringe groups. You also cannot ignore the ability of the market system to build wealth for a nation. Nor can we reasonably ridicule those who are more interested in how a given amount of wealth is distributed than how much wealth is created. Globalization is an integral part of all these issues and how the world responds to them.

Course grades will be assigned as:

- 90 – 100 % A
- 80 – 89 % B
- 70 – 79 % C
- 60 - 69% D
- Below 60% F

HELPFUL HINTS

SINCE this is an online course, you need to follow your school emails very regularly. You may well have regular announcements and uploads. For each chapter assigned, you need to read your book, make sure you understand the key concepts. Reading the assigned materials, working exercises, using electronic office hours, being in useful communication with your instructor, checking the class website regularly are very important learning tools.

EXAMS: The exams for this course are multiple choice exams. They will be administered in eCollege on the dates shown in the table above for the chapters noted with each exam.

All that said, the single most important thing for you to do is keep on top of your TAMUC emails. And while we're on the subject of emails, any email from outside the TAMUC.edu domain will receive no response from me.

CLASS LIVE PRO: I strongly recommend using this option. In case you miss a session, listen to the archived recordings and contact me for further explanations or questions via email. To be able to use the ClassLive Pro platform for eCollege, you will need a head-set with earphones and an integrated microphone. The combo can be purchased online or at Walmart for approximately \$20. I know this because I just replaced the headset I have used for several years. Separate speakers and a microphone will not work as they create feedback in the system.
