600-699.9	=	D

---

### POINT-BASED SYSTEM

Exams (five x 100 points each)	500 points
Participation	250
Paper	<u>250</u>
Total: 1000 points	

## ASSESSMENTS

### I. Exams

There will be five exams, one at the end of each of the five units. Each exam will consist of two parts: (1) multiple choice questions and (2) a short essay. The short essay must explain both the meaning and the connections among five terms chosen by the student from a list of key terms. The lists of key terms may be found in the online course shell.

The exams will draw upon lectures, all material presented in class, and all assigned reading material. Answers must be written in ink either in a blue book or on stapled paper. No work in pencil will be accepted.

There is a review of the main ideas of each unit in the online course shell: there will be no other reviews. Students who miss any exam may make it up during the final week of classes.

### II. Participation

Participation will be assessed based on unannounced individual, pair, and group exercises which will take place in class. There will usually be two or three of these in each of the five units of the course.

Individual class exercises may not be made up under any circumstances. It doesn't matter if the absence was excused or not. Please do not contact the instructor about make ups.

Sometimes absences are inevitable. If a student decides that he or she missed too many exercises in a given unit, he or she may submit a make-up participation assignment for the entire unit. These make-ups are at the discretion of the student: please do not ask the instructor if you need to make up your participation grade for a unit. Look at your grade in the online course shell and make your own determination. If you submit a participation make-up, it will replace your participation grade for that unit.

Participation make-ups consist of an essay with a minimum of 500 words written in answer to a prompt found in the online course shell for each unit. These essays must be entirely in the student's own words with no quotations, close paraphrases, or citations.

Please double-space your essay and put your name and the date at the top of the first page. Submit your essay through the online course shell.

Participation make-ups are due on the Friday after the exam for that unit. The dates are in the syllabus. They must be submitted through the online course shell.

Participation make-ups will not be accepted late.

### **III. Paper**

Each student will research and write an individual paper that should consist of eight to ten typed, double-spaced pages in a standard size font (such as Times New Roman 12 pt) with one-inch margins on all sides. There must be a cover page and bibliography which must be written in Turabian Humanities format (see the History Department Style Guide in eCollege).

The paper will take the form of a letter written in response to one of three prompts located in the online course shell under the tab "Paper Assignment."

The bibliography should consist of the three sources associated with the selected prompt. Notes/citations are not required. There should be no exact quotation or paraphrasing of either the assigned sources or of any other sources.

The paper must be submitted in a single file. Late papers will be accepted at the instructor's discretion, usually only if an extension is requested in advance.

## **TECHNOLOGY REQUIREMENTS**

### **Browser support**

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will

determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products.
