University Catalog Description

Basic concepts of business finance with emphasis on global and ethical issues, total quality management, production of goods and services, and various laws and regulations that affect the financial environment in which the firm operates. Basic elements of business finance, the financial environment, financial institutions, security markets, interest rates, taxes, risk analysis, time value of money and valuation. Maximizing value of the firm using financial analysis and planning, working capital management, cost of capital and capital budgeting.

Professor Course Description

This is an introductory course for undergraduate business students. The course will explore financial statements and how to analyze statements to make management decisions. The course will include a thorough review of the time value of money, interest rates, the role of both equity and debt capital in a firm's capital structure, stock and bond valuation, risk and return, calculating and interpreting a company's weighted average cost of capital, and how to make financial decisions via capital budgeting.

Student Learning Outcomes

1. Demonstrate an understanding of the fundamental concepts of corporate finance and its principles.
2. Demonstrate an understanding of the time value of money and be able to solve calculations.
3. Demonstrate an understanding of how to value both equities and debt instruments.
4. Demonstrate an understanding and show ability to measure financial decisions in a risk/return environment.
5. Construct and interpret a company's weighted average cost of capital (WACC) and make capital budgeting decisions.

COURSE REQUIREMENTS

Instructional / Design of Course

The class will be held ONCE a week in a face to face environment. Students are required to attend at all times. Students are also required to participate. Students are expected to be read the book prior to class. Pop quizzes/attendance will be taken at random and the average of this score will count for 10% of the final grade. You must be present in this course to pass.

Students will be assigned a homework assignment each week to help master the week's content. All homework and lectures are required to be completed by Sunday at 11:59 PM of the week assigned.

Student Responsibilities

Attendance is required at all times. Students are expected to watch all online lectures prior to the class. Due to the difficulty of the material covered in this class, it is highly important that students attend all lectures. Students should be ready each class period for a pop quiz or attendance grade.

The professor will not repeat questions that can be found on the syllabus. Furthermore, the professor will not answer questions regarding the class or content that have been addressed in lectures and/or e-mails to the course.

Students are expected to be read the book prior to watching the online lectures.

GRADING

Absolutely no late work will be accepted. Students that miss an exam will receive a zero. It is possible that curves will be given on exams. It is possible that students will receive extra credit, but it is up to the professor.

Exams

There will be three exams including the final. The final is comprehensive and will cover all of the course material covered during the semester. Students are responsible for information from live/recorded lectures, required readings, and any guest speakers. If a student scores higher on the final exam then that score can replace 1 of the lowest preview 2 exam scores. **There are no makeup exams.**

Homework

In order to successfully master the student learning objectives in this course, students will be required to complete homework assignments throughout the semester. This homework is worked on in class on Fridays and will be due on the Monday following before class. The homework isn't busy work, but rather an opportunity to practice what the student has learned. The homework represents 10% of the overall course grade. The homework is always required to be uploaded to the dropbox in MyLeo Online.

Lecture Attendance / Pop Quizzes

Attendance is very important to be successful in the course. Attendance will allow students to feel more engaged and achieve the required learning objectives. It is understandable that many students will not be able to attend all of the lectures; but no student should miss more than 1 time unless there is abnormal situations. Due to the fact that we only meet 1 time per week, missing 1 class is similar to missing a week of regular 2/3 class schedule.

Attendance grades and pop quizzes will be given randomly. The material for the pop quizzes are typically from the prior class days; however, the reading material may be included in the quiz. If a student is present then he/she gets a 100 and if they miss a class and attendance is taken then a zero is received. The professor will drop ONE of the lowest attendance or pop quiz grades. **Please note that if the professor is at a conference or can't attend the lecture – a recorded lecture will provided and put online to cover the content missed.**

This policy will be strictly enforced

Final Grades

Final grades in this course will be based on the following scale:

Exam 1	20%	A = 90%-100%
Exam 2	20%	B = 80%-89%
Exam 3	30%	C = 70%-79%
HW	20%	D = 60%-69%
<u>Att/Quiz.</u>	<u>10%</u>	F = 59% or Below
Total	100%

ACADEMIC DISHONESTY

The Department of Economics and Finance is committed to maintaining the integrity and respectability of degrees conferred and course credit earned through our department. Academic dishonesty restricts the understanding of subject material by the perpetrator, distracts and discourages other class members, and reduces the value of the economic signal of degrees conferred through Texas A&M University - Commerce. Whether courses are online, face-to-face, or hybrid combinations; the faculty, staff, and student members of the Department of Economics and Finance are committed to protecting the integrity of our courses, regardless of the delivery method.

All academic work must meet the standards contained in A Culture of Honesty: Policies and Procedures on Academic Honesty. Students are responsible for informing themselves about those standards and for observing the University Honor Code. Plagiarism occurs when a student submits work that is not his or her own. This includes copying from printed materials, websites, or from other people. All students are expected to turn in work that has been completed individually, unless otherwise informed by the instructor. Any assignment containing plagiarized material will automatically be graded as zero.

Please read the following items for more specific information regarding academic dishonesty.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
