COURSE INFORMATION

Course Description

A survey of the underlying ideas, principles, and participatory practices of constitutional government in the United States and Texas. Topics considered include civil liberties and civil rights, constitutionalism, federalism, ideology, pluralism, political culture and socialization, political parties and interest groups, public opinion, republicanism, voting and electoral politics, and global forces that continue to shape our understanding of the relationship between the people and government.

Please note that you will not be taught what to think about political issues in this course. Rather, you will be provided with the knowledge to determine how to think about political issues for yourself.

This course is meant to provide you with a working knowledge of how a government functions both at the federal level and the state level in the United States of America, and in the state of Texas.

Because this is a web-based course, all students must meet the technology requirements listed below to successfully complete this course.

Student Learning Objectives for this Course:

3. Personal Responsibility: Students will be able to understand their role in their own education.

Exams: There will be four exams given during the semester. They will be open for one week, during which time you are expected to take the exam or receive a 0. They comprise a significant portion of your grade; so it would be beneficial to come prepared for the exams. If you have an academic or athletic reason for missing the exam please get with me as early as possible, to make other arrangements.

This is to help develop your writing skills, and also allow you to look at how other people have discussed topics that are at the forefront of our political lives.

Quizzes: will be given weekly, and can be over the subject matter or over current topics. Questions for the quizzes will come primarily from previous lectures and assigned readings. There will be a quiz or writing assignment for each chapter that we cover. Your lowest quiz grade will be dropped and quizzes cannot be made up if you missed it.

Extra Credit: Opportunities for extra credit will arise during the semester and students will have the option of writing a one page reflection paper over the events or subject matter.
