TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Interaction with Instructor Statement

In this course, email is an essential corresponding method and a supplement to lectures. This means that you can expect to hear from the instructor via emails regularly throughout the semester, such as using email for reminders, clarifications, last-minute notifications, etc. Needless to say, students are expected to check email regularly in daily fashion (a couple of times a day). Conversely, you should feel free to contact the instructor via email with questions, requests or problems that might not be addressed clearly in online lessons. The expectation is that I will respond to emails within 24 hours and 48 hours on weekends. However, I check my email very frequently and most often respond to students in a timely manner. Correspondence emails may not be returned as promptly as usual because of military duty. I will inform the class when this occurs.

You may access to your email account via myLeo - all my emails sent from D2L (and all other the university's emails) will go to this account. Conversely, you are to email me via the D2L email system or your personal email address. Email sent to the instructor should be with a subject to "SOC 370"

If you are having problems in class, please contact the instructor immediately. Please understand that you should not contact the instructor only at the end of the semester being unhappy with your grade, asking for a way to change it.

The syllabus/schedule are subject to change.
