Grade will reflect performance in the school.

Instructional / Methods / Activities Assessments

This course is made up of a series of assignments and assessments to assist you in achieving the learner outcomes. Much of our work will occur within cooperative groups of six or less. Please consider the following points:

- This course [and learning to teach] is not best done solely as a lecture.
- Your preparation for class is crucial to meaningful participation and to being accountable to members of the class.
- Small Group Rationale:

1. Small group work gives everyone more opportunity to talk about what they have studied for the day. It is the best way for members to get to know one another.
2. Small group work reduces the possibility that one or two persons will dominate the discussion.
3. Small group work sends the message that daily preparation is expected and essential for fruitful study and discussion. Everyone wins when all are prepared; everyone loses when any individual is not prepared.
4. Small group work keeps everyone involved and lessens the tendency to think preparation is not necessary because others will do the talking.
5. Small group work guards against the class becoming teacher dominated. You have the responsibility not to put your teacher in that position.
6. You will strengthen your own understanding through preparation and participation.

The assignments, points allocated for each, and their contribution to your final grade are specified in the following section.
