### Instructional Methods

This course is built around My IT Lab for Microsoft Access 2016. Within the MyLab environment, there are many activities, simulations, and videos to improve student learning. There will be Capstone Activities for each of the 10 chapters, as well as an end of chapter quiz. Students will have 3 opportunities to turn in their assignments, including their 2 final projects that are capstones for several chapters.

# Student Responsibilities or Tips for Success in the Course

Students are expected to log into the course at least 3 times per week and check their emails. Announcements and emails are posted on Mondays and may come periodically. It is recommended that you work on the database homework each day, as these are challenging exercises and will take several hours to complete.

### GRADING

#### Interaction with Instructor Statement

I strongly prefer email as the standard form of communication in this class. Please keep phone calls to a minimum. I expect your emails to be professionally prepared. For example:

Dear Mrs. Lancaster, Hello, Greetings, Good Morning/Afternoon, etc,

Your message.

Sincerely, Thank you, Regards, etc.

Your full name

Remember to professionally compose your e-mail messages with proper grammar, spelling, and a professional tone. Properly addressed and signed e-mails will be replied to within 4-12 hours Monday-Saturday, 10-8. If a face-to-face conference is required between the student and the instructor in the instructor's office, an appointment must be made several days in advance by the student.

### COURSE AND UNIVERSITY PROCEDURES/POLICIES

### **Course Specific Procedures/Policies**

Papers or documents will not be accepted for grading through fax or as e-mail attachments. REMEMBER, the instructor does not grade late or incorrectly submitted assignments.

Late work is not accepted. This document outlines the due dates for all homework, but most will be due on Saturday nights at 10:59 PM.

No attendance policy will be imposed for this online course. However, students will need to complete all assignments and course requirements consistent with the assignment schedule. Excused absences will not generate extra time for meeting deadlines and scheduled events. Writing assignments must be delivered prior to the established deadline when "excused absences" interfere with the course calendar. Late work receives a grade of zero. Students may submit work before the due dates; however, assignment grades will be posted after the assignment due date. Since late assignments are not accepted, you are strongly encouraged to submit assignments prior to the due dates. Students will be expected to participate consistent with course objectives and goals. I expect that your completed assignments will always reflect your best effort.

It is the student's responsibility to:

- Stay active in the course by logging into the course on a regular daily basis.
- Always read every course announcement on the homepage of the course.
   Feedback for assignments, university announcements, and major department
   announcements will be posted to this forum. These announcements are placed
   in your course to help you so please take the time to read and understand each
   announcement. These announcements are time sensitive so they will only be
   available for a limited period of time.
- Learn to proficiently use the D2L system.

- Be able to proficiently use Microsoft Office and a computer operating system (Microsoft Windows).
- Be able to save documents created to Microsoft Office 2013 or 2016
- Have one reliable and one backup reliable Internet connection.
- Be proactive in reading all the reading and writing assignment instructions. Read all assignments several times and schedule a time in which to complete the assignment. To be successful, you will need to read assignment instructions many times.
- Ask questions about assignments via e-mail well before the due date. Submit all assignments before or on the due date. I can usually tell when an assignment is submitted as a last minute effort. If you have a question about your database, please compress (ZIP) the database to attach it to the email, otherwise my email program will block it.
- Ask questions that are not answered in the course syllabus, individual assignment details, or posted to course announcements.
- Always submit your best effort.

# Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.
