Course Description

This course familiarizes students with skills and best practices for computer forensics investigation and analysis. Students will learn how to gather and analyze digital evidence and use critical thinking skills to solve computer-based crimes.

Student Learning Outcomes

Students learning topics include:

- Understanding the Digital Forensics Profession and Investigations
- The Investigator's Office and Laboratory
- Data Acquisition
- Processing Crime and Incident Scenes
- Working with Windows and CLI Systems
- Current Digital Forensics Tools
- Linux and Macintosh File Systems
- Recovering Graphics Files
- Digital Forensics Analysis and Validation
- Virtual Machine Forensics, Live Acquisitions, and Network Forensics
- Email and Social Media
- Mobile Device Forensics

The syllabus/schedule are subject to change.

- Cloud Forensics
- Report Writing for High Tech Investigations
- Expert Testimony in High Tech Investigations
- Ethics for the Investigator and Expert Witness

COURSE REQUIREMENTS

Minimal Technical Skills Needed

- Be able to take screenshots and use MS. Word and PowerPoint, using presentation and graphics programs, etc.
- Be able to follow instructions in installing the required software.
- Be able to troubleshoot software problems (e.g., by consulting online sources using Google etc).

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Assessments

- **Exams/Projects:** Two exams/projects will be given during the semester. You can get a maximum of 25 points for each exam.
- **Quizzes / Application Assignments:** 7 to 10 labs/quizzes will be given during the semester. You can get a maximum of 50 points for these. Please see the submission deadlines in the tentative class calendar on D2L.

Student Responsibilities/Tips for Success in the Course

1. Students are expected to:
 - a. Read the text related to the topic listed for each week on D2L.
 - b. Complete all required assignments as scheduled
 - c. Watch any tutorial/recorded videos as posted
 - d. Read the slides for each week/topic
2. This syllabus is tentative for the semester. Certain topics maybe stressed more, or less than indicated in the schedule. Depending on the class progress, certain topics may be omitted or added.

The syllabus/schedule are subject to change.

3. Behavior: "All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment." (See Student's Guide Book). During your collaboration with me and your fellow students online or in class, professionalism and respect will be expected.
4. Any form of cheating – copying, sharing files, submitting the work of another as your own – is not permitted. Students who participate (as givers/receivers) in any form of cheating will fail the course.

TECHNOLOGY REQUIREMENTS

The following information is provided to assist you in successfully using technology to complete the assignments and class activities:

- The course may require you to download and install open-source software. Specifically, you may be asked to install Virtual Machines. It is the student's responsibility to follow the given instructions and get the system ready in due time. You cannot come to the instructor only a few days before the assignment is due and say that you have NOT installed the required software. You WILL HAVE ample time for all tasks !
- To fully participate in online courses you will need to use a current Flash enabled internet browser.
- You will need regular access to a computer with a broadband Internet connection. The minimum computer requirements are:
 - 512 MB of RAM, 1 GB or more preferred
 - Broadband connection required
 - Courses are heavily video intensive
 - Video display capable of high-color 16-bit display 1024 x 768 or higher resolution
- You must have a:
 - Sound card, which is usually integrated into your desktop or laptop computer
 - Speakers or headphones.
 - *For courses utilizing video-conferencing tools and/or an online proctoring solution, a webcam and microphone are required.
- At a minimum, you must have Microsoft Office 2013, 2010, 2007 or Open Office. Microsoft Office is the standard office productivity software utilized by faculty, students, and staff. Microsoft Word is the standard word processing software, Microsoft Excel is the standard spreadsheet software, and Microsoft PowerPoint is the standard presentation software. Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft Office, you can check with the bookstore to see if they have any student copies.
- For additional information about system requirements, please see: <https://secure.D2L.com/tamuc/index.learn?action=technical>

The syllabus/schedule are subject to change.

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Below are technical requirements

COMMUNICATION AND SUPPORT

- If you ask me questions by emails, I will reply within 48 hours. However, I usually answer them much faster than this.
- If you have questions about software operations, please be sure to include the screenshots of the questions in the emails.

The syllabus/schedule are subject to change.

- All assignment due dates, project deadlines, and exam time are central time in the United States.

COURSE AND UNIVERSITY POLICIES

Course Specific Procedures/Policies

The class schedule will be provided and updated in D2L. A tentative topics list with each week is listed at the end of this document. Each assignment will be listed with its due date. Since assignments make up the majority of your grade, you should make every effort to complete them on time. Late assignments are **highly** discouraged. For each day an assignment is late it will be deducted 15%. Under **NO** circumstances will I accept an assignment more than FOUR DAYS late.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.
