**COURSE INFORMATION**

**Materials – Textbooks, Readings, Supplementary Readings:**

**Textbook Required:** *Juvenile Delinquency: A Sociological Approach* (10th Ed.) by William E. Thompson and Jack E. Bynum. Rowman and Littlefield, 2017, ISBN: 978-1-4422-6500-4. Books should be available in the University bookstore and online. It is important to have the most current edition (10<sup>th</sup>) as earlier editions do not contain the same information and chapter numbers, boxes, etc., will not match. Also, try to obtain the book before the class begins as reading assignments start immediately.

**Course Description:** The study of the nature extent, causation, treatment, and prevention of juvenile delinquency. Recommended background courses: CJ 101 or SOC 1301.

**Student Learning Outcomes: This course in Juvenile Delinquency has the following objectives:**

1. Develop a sociological and criminal justice perspective on juvenile delinquency in our society with emphasis on causation, nature and extent of delinquency, the juvenile court, and possible control, treatment, and prevention strategies;
2. Make general sociological analyses of types of delinquency and juvenile offenders;
3. Understand a brief overview of the Texas Juvenile Code and the Juvenile Justice System in Texas; and compare/contrast it with other states;
4. Use critical thinking skills to assess current trends in juvenile delinquency and develop a plan with policy implications for “rethinking” the problem of delinquency.

**COURSE REQUIREMENTS**

**Instructional / Methods / Activities Assessments**

**CLASS FORMAT:** This is an online summer course that takes a full semester of coursework (15-16 weeks) and condenses it down to five 4-day weeks (essentially class 20 days). Consequently, things happen very quickly and the course moves at a very fast pace. It is imperative to keep up with reading assignments and discussions, as once a student gets “behind,” it becomes almost impossible to get “caught up.” Every effort will be made to provide the best possible learning experience for students by blending PowerPoint presentations, online discussions, and appropriate reading assignments. We will be studying and discussing many current, interesting, and often controversial subjects. Thus, a mature attitude is assumed of all students. **Do NOTHING that will interfere with anyone else’s opportunity to learn in this class and be sure to practice good “netiquette” (see below).**

. Students are expected to be polite and courteous and conform to online etiquette at all times. For detailed rules on “netiquette” go to the website: <http://www.albion.com/netiquette/corerules.html> A summary of netiquette rules are provided below.

- [Rule 1: Remember the Human](#)
- [Rule 2: Adhere to the same standards of behavior online that you follow in real life](#)
- [Rule 3: Know where you are in cyberspace](#)
- [Rule 4: Respect other people's time and bandwidth](#)
- [Rule 5: Make yourself look good online](#)
- [Rule 6: Share expert knowledge](#)
- [Rule 7: Help keep flame wars under control](#)
- [Rule 8: Respect other people's privacy](#)
- [Rule 9: Don't abuse your power](#)
- [Rule 10: Be forgiving of other people's mistakes](#)

**EXAMINATIONS:** There will be five multiple choice examinations worth 100 pts. each. The exams are scheduled for every Thursday. Adjust your schedule now--do not make plans that conflict with exam dates! If you miss more than one exam, you will fail the course. All exams will be taken on the computer. There will be a 24-hour “window” in which each exam can be taken; once logged on, you will have only the allotted time to complete the exam; you will **not** be able to log off and back on during the exam; **once logged off, the exam is over. Exams are intended to be taken “closed book” and without any outside help. Be sure to hit “submit” when you finish the exam.**

**ON-LINE DISCUSSIONS:** There will be 5 online discussions worth 20 points each. On Monday of each week a discussion question will be posted that relates to the reading assignments for that week. Students have until 11:30(central time) Thursday of each week to respond to the discussion question. To receive the full 20 points, students are expected to “engage” in the discussion by asking other students questions and/or responding to the posts of other students.

A minimum of 4 meaningful posts are required to get the total points possible. Stating “I agree,” or “I disagree,” or “good post,” are not considered “meaningful” posts.

To earn these points students must post some type of response to the question as well as a comment/question that is on topic and contributes to the overall discussion (see rubric below). Online discussions are not the same as texting or tweets. They should reflect critical thinking and contain complete sentences that are grammatically correct with as few spelling and punctuation mistakes as possible. Do not use slang or popular abbreviations such as btw, lol, etc. Discussions will be worth a total of 100 pts. Always be polite and courteous when responding to someone else’s comments or questions.

**NOTE:** Online discussions should not be viewed as similar to a discussion around the dinner table with friends or family where everybody expresses their views, opinions, and beliefs on some topic often which they know absolutely nothing about. This is an academic course and your discussion topics are directly linked to the Power Points and reading assignments in your textbook. Consequently, your posts should reflect a certain amount of knowledge on the topic based on research, facts, and data. It is fine to critique, interpret, and *occasionally* interject an opinion or two, but for the most part, this should be an academic and intellectual discussion of the topic at hand.

**Grading Rubric for Online Discussions:**

- Did student respond to question posed? And does the response reflect critical thinking, facts, and data as opposed to just personal opinion? (0- 10 pts)
- Does the student ask questions of other students? (0-5 pts.)
- Does the student answer questions from other students? (0-5 pts.)
- Are all posts grammatically correct and free of abbreviations and spelling errors?

**NOTE:** Do not ask to “make-up” a missed discussion or have a discussion “re-opened). Once the discussion is closed, it is over and the class moves on. If you were to post after that time, you would have nobody with whom to discuss.

**PARTICIPATION:** It is essential to read all assignments and participate in all online discussions to do well in this course.

**GRADES:** Final grades will be based on the five exams (100 points ea.= 500 pts.) and online discussion/participation (100 pts.). The following grading scale will be used to calculate final grades:

- A = 90% - 100% (540 - 600 pts)
- B = 80% - 89% (480 - 539 pts)
- C = 70% - 79% (420 - 479 pts)
- D = 60% - 69% (360-419 pts)
- F = Below 60% (<360pts)

**EXTRA CREDIT:** Don’t ask, there won’t be any. Two types of students usually want to do extra credit work: those who would like to make an even “higher” A; and those who are failing the course. In either case, extra credit makes no sense. Put in the time, energy, and effort on the “regular” work and you will not need any “extra” credit.

<b>TECHNOLOGY REQUIREMENTS</b>

## COURSE AND UNIVERSITY PROCEDURES/POLICIES

**Course Specific Procedures:**

**CHEATING & PLAGIARISM:** It should go without saying that every student is expected to do his/her own work. Departmental policy provides that anyone caught cheating in any form or fashion will receive an "F" for the course and may be subjected to further disciplinary action by the university. Plagiarism (the use of other's words, phrases, and ideas in your writing without giving credit to the original author) is a form of cheating and not only violates academic ethical standards, but is against the law. Don't do it!

**University Specific Procedures:**
