While content and activities of each course in the MSW curriculum covertly or overtly addresses each of the nine competencies, identified within each course is a set of specific practice behaviors representing observable components of one for more competencies. Associated competency(s) and practice behaviors assessed in this course are outlined on the field learning contract.

Overview of Course Assignments

Field Practicum Seminar:

A Faculty Field Liaison conducts the field practicum seminars. The function of the Faculty Field Liaison is to monitor and evaluate the progress of the student in the field practicum, assist the student in integration of classroom learning and application of field practicum of content.

For students in their first semester at a field agency, the Faculty Field Liaison will visit the student's field practicum agency a minimum of two times during the semester, or as needed on problematic issues. For students in their second or final semester in the field agency, the Faculty Field Liaison will make a minimum of 2 contacts with the agency field instructor, at least one of which is at the field practicum agency, or as needed.

All students enrolled in the field practicum are required to meet with the faculty field liaison and other students in a seminar meeting scheduled one time a week. The Faculty Field Liaison develops seminar format.

Seminar Purpose

To provide orientation to field practicum expectations and record keeping

To provide opportunity for students to raise and share questions regarding the field practicum, assignments, or expectations

To provide opportunity for students to share with other students their learning experience in the field practicum; to begin the practice of peer consultation on professional problem solving; and to offer support and input to fellow students.

Learning Contract

Students complete a learning contract each semester. The requirements and time frames for documentation of assigned field activities will be presented in the seminar, by the Faculty Liaison. The documentation must be available for the faculty liaison to review at the mid-term and final evaluation.

There are two written evaluations of student progress in the field practicum. Through the use of the evaluation component on the learning contract the field instructor completes a mid-term and final evaluation of the students progress.

Grading Scale

The Faculty Field Liaison assigns the final grade for the student in the field practicum. Student grades reflect the recommendation of the field practicum instructor (the agency-based field instructor) as well as the direct observations of the faculty field liaison, and the student's efforts and level of task completions.

Grades below B are not acceptable. If a student earns a grade below B, she or she must repeat the course.

Student Rights and Responsibilities

"Civility in face-to-face classrooms, online courses and in labs, internships, practicum and all other academic settings necessitate respect for the opinions of others and is very important in all academic settings. It is likely you may not agree with everything that happens or discussed in the academic setting; however, courteous behavior and responses are expected. To create a civil and preserve learning environment that optimizes teaching and learning, all participants share a responsibility in creating a civil

and non-disruptive forum" (Student Guide Book, p 35). To create an optimum learning environment, students have rights and responsibilities.

Student Rights

As set forth in Texas A&M University System Policy 13.02

The rights of students are to be respected. These rights include respect for personal feelings; freedom from indignity of any type, freedom from control by any person except as may be in accord with published rules of the system academic institutions, and conditions allowing them to make the best use of their time and talents toward the objectives, which brought them to the system academic institutions. No officer [university faculty, employee] or student, regardless of position in rank, shall violate those rights, any custom, tradition or rule in conflict will be allowed to prevail.

Students are expected at all times to recognize constituted authority, to conform to the ordinary rules of good conduct, to be truthful, to respect the rights of others, to protect private and public property, and to make the best use of their time toward an education.

Students with Disabilities

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Students Responsibilities

- Class participation has three components: (1) appropriate interactions with classmates; (2) active involvement in class activities and (3) attentiveness
- Students will engage in class, reflecting responsibility, inherent in the development as a social work professional.
- Classroom exercises, discussions, role-plays, guest speakers and other in-class experimental exercises are essential for a student's professional learning and continued development of self-awareness.

➤ Student Engagement is Defined as the Following:

To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills. Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities can include participation in a live, synchronous virtual classes, attending a Face to Face course when appropriate, interacting with peers in posted discussions and collaborating in group interactive projects. Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement 80% of the time during a semester.

Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

As we enter the semester, we are all working under stresses and strains related to the COVID-19 pandemic. It is imperative we communicate consistently and frequently. If, for any reason, you are not able to complete assignments or actively engage in the course, you MUST reach out to your instructor and let him or her know.

➤ **Final Evaluation and Grade Depends on both Course Engagement and Completion of Assignments.**

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

Engagement activities are defined as active participation in live synchronous classroom instruction; active involvement in interactive group projects; participation in asynchronous discussions and other opportunities for peer to peer interaction, faculty to student interactions and interaction outside of classroom expectations (such as interviewing a social worker for an assignment) among other possible venues. One half of the students' grade will be based on their level of engagement throughout the course. Example:

Student A – earns 95% of possible points across the assignments

Student A – engaged in 75% of engagement activities provided throughout the course

Student A final grade: $95\% + 75\% / 2 = 85\%$ (B) for the course.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct, Department Code of Conduct and National Association of Social Workers' (NASW) Code of Ethics*.

University Code of Conduct located in the *Student Guide Book* at <http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website under Campus Life Documents

To become aware of University policies related to student academic and behavioral expectations for students refer to the Guidebook.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offences by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves in an ethical and professional manner. Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics* (located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website: <https://www.socialworkers.org>

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products.
