## **Student Learning Outcomes**

- 1. Demonstrate an understanding of the basic properties of projects, including thoughtfully discussing their definitions.
- 2. Discuss and apply to a problem, the life cycle of a project.
- 3. Discuss how important it is for project managers to be able to make cross-functional decisions.
- 4. Discuss how project management is a 'leader-intensive' profession and how it differs from process management.
- 5. Complete a project checklist, work breakdown structure, activity networks, Gantt charts, scoring model, and a project proposal.
- 6. Explain basic cost estimating as it relates to the project schedule and work breakdown structure.
- 7. Analyze risk in a discussion post and be able to describe why risk management is so important to Project Planning.
- 8. Document the various constraints that make Project Planning and Scheduling so difficult.

## **COURSE REQUIREMENTS**

### **Minimal Technical Skills Needed**

Students must be able to use Microsoft Word for assignments. Students will become comfortable using the basic templates found in Project Libre.

#### **Instructional Methods**

There are a number of assignments due each week, among them will be Case Studies, Discussion posts, and Project Libre assignments.

# Student Responsibilities or Tips for Success in the Course

Students are expected to log into the course 3-4 times per week. Initial discussion posts are due on Tuesday of each week. Final replies (2) will be due on Saturdays of

each week when discussions are assigned. The Introduction is a chance for you to 'meet' your colleagues in the class Specific instructions on what to post are available when you click on Introduction in Course home.

There are overview lectures for each chapter. This are just the high points, you still must read the chapters in your text. All the materials in the lectures come from your textbook and were created by your instructor.

The **Discussions** are directly related to the assigned readings or videos. Upon completion of the assigned readings, you are expected to engage in an **ongoing** discussion/debate with your classmates. Your contributions to the discussion forums will be graded for **quality** and a **detailed analysis** linking the material to a critical appraisal of theory, policy, and practice. The introduction of outside materials is mandatory (unless otherwise noted in the discussion topic assignment). In all cases, students must cite in-text and provide a full bibliography/works cited at the end of their post for all citations mentioned in the post. See the 'How to Cite' Factsheet). Also, you can find information on the **Purdue Owl**.

The specific discussion assignment is located in each unit Chapter by clicking on the Discussion link.

The **Reply** posts are responses you make to the discussion posts that you and your classmates post as assigned.

Reply posts should be meaningful. Merely agreeing or disagreeing with a classmate will not be looked upon favorably and will result in a loss of points. A meaningful post is one that moves the discussion forward in some substantive way through providing one's perspective, additional information through research, or reframing the discussion in some new way. You are expected to engage in an **ongoing** discussion/debate with your classmates. Your comments will be graded for **quality**, and **relevance**. Your comments will also be graded based on your ability to engage in critical thinking.

Students must provide one outside source for at least one comment that they make. Extra Credit may be available for outstanding posts. Remember, they're 50% of your grade.

Dear Mrs. Lancaster, Hello, Greetings, Good Morning/Afternoon, etc.,

Your message.

Sincerely, Thank you, Regards, etc.

Remember to professionally compose your e-mail messages with proper grammar, spelling, and a professional tone. Properly addressed and signed e-mails will be replied to within 4-12 hours Monday-Saturday, 10-8. If a face-to-face conference is required between the student and the instructor online, an appointment must be made several days in advance by the student.

### COURSE AND UNIVERSITY PROCEDURES/POLICIES

## **Course Specific Procedures/Policies**

Papers or documents will not be accepted for grading through fax or as e-mail attachments. REMEMBER, the instructor does not grade late or incorrectly submitted assignments.

Late work is not accepted. This document outlines the due dates for all homework, but most will be due on Saturday nights at midnight.

No attendance policy will be imposed for this online course. However, students will need to complete all assignments and course requirements consistent with the

assignment schedule. Excused absences will not generate extra time for meeting deadlines and scheduled events. Writing assignments must be delivered prior to the established deadline when "excused absences" interfere with the course calendar. Late work receives a grade of zero. Students may submit work before the due dates; however, assignment grades will be posted after the assignment due date. Since late assignments are not accepted, you are strongly encouraged to submit assignments prior to the due dates. Students will be expected to participate consistent with course objectives and goals. I expect that your completed assignments will always reflect your best effort.

It is the student's responsibility to:

- Stay active in the course by logging into the course on a regular daily basis.
- Always read every course announcement on the homepage of the course.
   Feedback for assignments, university announcements, and major department announcements will be posted to this forum. These announcements are placed in your course to help you so please take the time to read and understand each announcement. These announcements are time sensitive so they will only be available for a limited period of time.
- Learn to proficiently use the D2L system.
- Be able to proficiently use Microsoft Office and a computer operating system (Microsoft Windows).
- Be able to save documents created to Microsoft Office 2013 or 2016
- Have one reliable and one backup reliable Internet connection.
- Be proactive in reading all the reading and writing assignment instructions. Read all assignments several times and schedule a time in which to complete the assignment. To be successful, you will need to read assignment instructions many times.
- Ask questions about assignments via e-mail well before the due date. Submit all
  assignments before or on the due date. I can usually tell when an assignment is
  submitted as a last minute effort.
- Submit assignments in the appropriate format and to the appropriate Folder.
- Read the instructor's individual grade comments in the Gradebook attached to each assignment.
- Ask questions that are not answered in the course syllabus, individual assignment details, or posted to course announcements.
- Always submit your best effort.

## **Syllabus Change Policy**

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.
