Overview of Course

COURSE DESCRIPTION:

This practice course provides students with theories and skills needed for direct supervision of line workers, middle and upper management skills in human service organizations. The course addresses relevant theories and models of supervision and administration as well as key skills needed to perform the functions of supervision and administration in complex organizations. Special attention is given to empowerment theories and the importance of resource development in underserved rural areas.

Course Purpose:

In many cases, advanced generalist practice graduates become administrators at some point in their career. Some are already working in that capacity. In both rural and urban agencies often look for people who can fulfill multiple functions, including the ability to provide leadership. One of the job requirements in such agencies may involve supervising line level employees or serving as an administrator in a small, non-profit organization, while at the same time providing direct services to clients.

COURSE OBJECTIVE(S):

1. Students will learn the knowledge and skills needed to provide leadership in social work organizations.
2. Students will learn how to write a grant/funding proposal for consideration by a governmental or private funding source that targets rural or urban settings.
3. Students will learn to understand the use of self in supervision including the nature and exercise of power and authority, management of time and stress, and the effects of cultural, racial, economic ability and gender diversity in the supervisory process.
4. Students will learn how to apply critical thinking skills to administrative practice.

RELATIONSHIP TO OTHER COURSES:

This course supports the program relating to agency-based practice. Students are introduced to theories and methods of social work supervision of first line workers as well as more general program administration activities related to executive direction and policy practice. The course complements foundation content relating to organizational theory, and practice with organizations. The course addresses unique aspects of supervision and administration in rural and urbanizing regions. Program development and linking resources are stressed. The course draws from advanced theory about organizations and work groups derived from SWK 507.

PROGRAM GOALS:

1. Prepare MSW graduates for professional advanced generalist practice that reflects application and integration of critical thinking, theoretical frameworks, and differential interventions.
2. Enable MSW graduates to apply ethical reasoning to advance equality, justice, and social change.
3. Promote leadership and service that is relevant to individual contexts of practice and enhances well-being and quality of life.

CORE COMPETENCIES

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Students achieve programmatic goals listed above through demonstration of the following competencies for Advanced Generalist Practice (AGP).

Competency AGP 2.1.1 Exemplify professional social work behavior and standards

Competency AGP 2.1.2 Apply social work ethical principles to resolve dilemmas and create positive change

Competency AGP 2.1.3 Critically analyze practice solutions and Communicate judgments and reasoning through decision-making processes

Competency AGP 2.1.4 Demonstrate the ability to build strengths based on mutual engagement with diverse populations

Competency AGP 2.1.5 Demonstrate commitment to strategies that address discrimination, reduce disparities, and promote social and

economic justice

Competency AGP 2.1.6 Contribute to evidence-based best practice approaches to assess and improve effectiveness

Competency AGP 2.1.7 Differentially apply theories and frameworks of HBSE

Competency AGP 2.1.8 Promote social policies to improve service delivery systems

Competency AGP 2.1.9 Use leadership skills to respond, influence, and shape changing contexts

Competency AGP 2.1.11: Develop leadership skills as advanced generalist practitioners to enhance organizations and communities

Competency AGP 2.1.12: Demonstrate innovative problem-solving in social and organizational systems

Practice Behaviors

Each competency (outlined above) describes the knowledge, values, skills and cognitive and affective processes that comprise competency at the Advanced Generalist Practice (AGP) level. While content and activities of each course in the MSW curriculum covertly or overtly addresses each of the nine competencies, identified within each course is a set of specific practice behaviors representing observable components of one for more competencies. Course content and assessment reflect the bolded competencies and the following practice behaviors:

AGP 2.1.1c Adheres to professional roles and boundaries

AGP 2.1.2b Strategically uses supervision and consultation to address ethical dilemmas in practice

Overview of Course Assignments

1. Personal Supervisory Style Profile (Objective 3)

Students are to interview a social work supervisor and complete a Leadership Style profile on the supervisor. The profile outline includes personal style, personal range, and personal adaptability. The student will then compare the supervisor's style that he or she interviewed with the student's own leadership style including style, range and adaptability. Be prepared to discuss the results of your profile in class.

Three to five pages in length.

Due Date: September 21, 2020, by 11:59 p.m. (to be submitted online in D2L).

2. Grant Writing and Program Development: Group Project (Objective 2)

In groups of two or three students, write a formal grant proposal and submit that request to a public or private granting agency using the format/components in handouts given to you by the instructor. **This is an actual grant and the proposal is to address a real health or human service needs in Northeast Texas.** It may include a request for personnel, equipment, supplies, purchased services or other resources. The beneficiary is to be an existing agency or other organization, e.g., your field agency, your place of employment, or some other social service organization you feel would benefit if new resources were made available to them. If you don't know of an agency that would appreciate your help, check with your instructor. The length of most grant applications is 10 pages, however, some granting agencies have a standardized format for submission, which may dictate the length of the grant proposal.

Students are to provide the instructor with a brief summary of the grant proposal project a minimum of two weeks in advance of the due date. The Instructor will also set aside part of a class session to meet with each group, review their progress, and consult with students regarding progress being made. Each team will give a 20-minute presentation to the class, using members of the class as their “grant review committee,” such as those used by most grant-making or public agencies. The presentations will consist of a 15-minute summary of the proposal and five minutes for questions.

Grant Due: October 19, 2020 by 11:59 p.m. (to be submitted online in D2L)

Grant Presentations will should be uploaded by October 19, 2020 by 11:59 p.m. (to be uploaded in the Discussion Thread for this week’s class).

3. Administrative Research Paper

You may select an administrative issue and submit 10 pages, fully-referenced, research paper and give a 20-minute class presentation on same, using power point, written handouts, video clips or other education aids to communicate the subject fully to your colleagues.

The topic must be discussed in advance with the instructor to assure it is relevant to the curriculum in this course. It must address some aspect of populations at risk, social justice, or diversity. Some examples of topics follow:

- Leadership: Nature or nurture? Can people be trained/educated in the abilities required to be an effective leader or are those qualities innate?
- Burnout, fact or fiction? How is it that some people (e.g., Gandhi, Martin Luther King, Mother Teresa) never complained of burnout when they experienced many of the
- Conditions such as poor pay, stress and physical environments those are typically associated with burnout.

Throughout this course, other administrative issues will be raised. One of those might be appropriate for a scholarly research paper. If you have an idea for a paper, discuss it with the Instructor.

Date Due: November 9, 2020.(to be submitted online in D2L).

Powerpoint Presentations will should be uploaded by November 9, 2020 by 11:59 p.m. (to be uploaded in the Discussion Thread for this week’s class).

Student Rights and Responsibilities

"Civility in face-to-face classrooms, online courses and in labs, internships, practicum and all other academic settings necessitate respect for the opinions of others and is very important in all academic settings. It is likely you may not agree with everything that happens or discussed in the academic setting; however, courteous behavior and responses are expected. To create a civil and preserve learning environment that optimizes teaching and learning, all participants share a responsibility in creating a civil and non-disruptive forum" (Student Guide Book, p 35). To create an optimum learning environment, students have rights and responsibilities.

Student Rights

As set forth in Texas A&M University System Policy 13.02

The rights of students are to be respected. These rights include respect for personal feelings; freedom from indignity of any type, freedom from control by any person except as may be in accord with published rules of the system academic institutions, and conditions allowing them to make the best use of their time and talents toward the objectives, which brought them to the system academic institutions. No officer [university faculty, employee] or student, regardless of position in rank, shall violate those rights, any custom, tradition or rule in conflict will be allowed to prevail.

Students are expected at all times to recognize constituted authority, to conform to the ordinary rules of good conduct, to be truthful, to respect the rights of others, to protect private and public property, and to make the best use of their time toward an education.

Students with Disabilities

Students Responsibilities

STUDENT ENGAGEMENT

To earn a level of competency within a specific course, students must demonstrate both mastery of content areas and student engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as essays, projects, and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships. Student engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders (e.g., community members, interview for a required assignment). Within the classroom setting, whether virtual or F2F, student engagement is demonstrated as outlined by individual instructors. These activities can include participation in a live, synchronous session, as appropriate, interacting with peers in posted discussions and collaborating in group interactive activities.

Students must meet standards for content mastery on tangible assignments and meet the three engagement standards each semester.

Instructors are experts in each course content area and set the standards for students to meet.

As we enter this semester, we are all working under stresses and strains related to the COVID-19 pandemic and frequently. If, for any reason, you are not able to complete assignments or actively engage in class, please let your instructor know.

➤ **Final Evaluation and Grade Depends on both Course Engagement and Completion**

Inadequate participation or lack of required time commitment in each class significantly affects student learning. Expectations of both Face-to-Face classes and those with Online components require a comparable amount of time.

Engagement activities are defined as active participation in live synchronous classroom instruction; asynchronous discussions and other opportunities for peer to peer interaction, faculty to student interaction (e.g., interviewing a social worker for an assignment) among other possible venues. One half of the student's final grade is based on course engagement. **Example:**

Student A – earns 95% of possible points across the assignments

Student A – engaged in 75% of engagement activities provided throughout the course

Student A final grade: $95\% + 75\% / 2 = 85\%$ (B) for the course.
