COURSE INFORMATION

Required Text and Readings:

Textbook Required:

Henley, T. B. (2018) Hergenhahn's An Introduction to the History of Psychology (8th ed), ISBN-13: 978-1337564151, MA: Cengage Learning

Course Description

This class will include a general review of the history of psychology, but will mainly focus on the development and evolution of theories both within and across different content areas of psychology. It will also provide you with an opportunity to read some original source materials.

Student Learning Outcomes

Students successfully completing the course should be able to:

1. Articulate the principal conceptual developments in dated, (mostly) western history that have led to the dominant strands in contemporary psychology.
2. Identify the major players and their relationships to modern psychology.
3. Identify the interaction of conceptual schemes, the role of philosophies and “metasystems,” and the major conceptual structures upon which psychological systems are built.

<h2>COURSE REQUIREMENTS</h2>

Course Requirements:

1. Class participation (Weekly Discussion Assignments).
2. Completion of all assigned activities and reading materials.
3. Completion of exams.
4. Completion of a final term paper.

Your final grade will be based on your overall performance in the class: class participation, three exams, and one final term paper.

Class Participation (Weekly Discussion Assignments):

We cover a tremendous amount of information each week, therefore, participation at a high level is very critical to your performance in this

course. All students are expected to participate regularly and daily (Monday through Friday, except perhaps the weekends). Throughout the course, the instructor will give several discussion topics each week. Each student is required to respond to at least one topic and post it on the discussion section of that week. Additionally, each student is required to respond in depth to at least one of your classmates' posts. Your Own Discussion Essay Post is worth 10 point each, and your Response to Your Classmates' Post is worth 10 points each. This means that, for each week, you will receive 20 points for your participation (2 posts). We have 15 weeks (excluding Final week), therefore, your class participation will make a total of 300 points toward your final grade.

Grading Criteria for Discussion Essays: Below is "Discussion essays will be graded as follows." Use this as a general idea of how papers will be graded.

Discussion essays will be graded as follows:

10: Absolutely perfect, no typos, beyond minimum requirements, additional references added, excellent knowledge of topic, clearly project completed with much forethought, the top paper in class, independent of class size, APA style is used appropriately, submitted on time, independent of excused or unexcused absence.

9: Great job, no typos, built upon minimum requirements, met reference requirements, good knowledge of topic, completed with forethought, good paper not one of the best in class, APA style requirements met.

8: Good job, writing good, although at times not too clear, offered basic understanding of major points, ideas at times choppy, few typos, APA style requirements met.

7: Paper attempted but completed poorly, several typos, not followed directions, paragraphs are sentences not paragraphs, no independent thought collection of quotes from others.

Less than or equal to 6: Paper not completed with forethought, numerous typos, student barely meeting minimum requirements, not reflective of college-level performance, numerous questions not addressed. Paper turned in, but too many distractions, not meeting minimum requirements.

0 for no discussion question answered. 0 for no discussion question answered by the due date.

Each time you post a Discussion Essay, copy and paste the topic number and the question. In this way, everyone will know which question you are answering.

Due dates for your own discussion posts always fall on Friday (11:59PM) of each week, and your responses to other students' posts are due 2 days after the essays are due (Sundays, 11:59PM).

Do not wait until the last minute to post your discussions. Post an assignment early as opposed to the last minute. In addition, grades will be based on quality of responses, not length of responses.

APA Format

You are required to use APA format for all references, including our textbook and Internet references. Never put a long direct quote from the textbook or other source. Always put the answer in your own words. Here is one site that discusses the APA Style:

<http://www.apastyle.org/apa-style-help.aspx>

Exams:

There will be three online exams, each worth 100 points toward your final grade. Exams will contain objective questions over material that is presented in the textbook and online lectures. Multiple choice format will be used. The exams must be taken at the time designated. You will be able to use your textbooks when you take the exam; however, you **MUST** read the material thoroughly prior to taking the exams. If you try to take the exam without having read and studied the material, you will run out of time as you try to look up each answer. After you take an exam you will receive your score. For test security reasons, you will not be able to access online the correct answers for those items that you missed on the exam.

Final Paper:

Another major graded assignment for the course is a final paper (100 points). The purpose of this assignment is to enhance critical thinking skills as well as appreciation for the various areas of modern psychology. The detailed requirements for the final paper will be provided later in the course.

Extra Credit (Weekly Journal Entry):

There will be some extra credits available for this course. Students are encouraged to keep a reflective journal weekly throughout the course. For each journal entry, one extra credit point will be awarded. A maximum of 15 points can be earned. These extra points are determined at the discretion of the instructor. Detailed information on this weekly journal can be found under FAQs section in the course content part in D2L.

Research Participation

Participating in research studies contributes to students and faculty at A&M - Commerce, your understanding of how research is conducted, and human knowledge in general. For this course, participating in research will be extra credit. You will have the opportunity to earn up to 20 points depending on the amount of research you participate in. Each credit hour of research will be worth 5 extra credit points that will be added to your total pool of points. So, for example, if you participate in 4 credit hours of research, you will earn the full 20 extra points. For more information, please visit D2L and check the extra credit research participation documents once available.

Late Work:

Students are required to submit each assignment by the close date indicated in the course outline. Late work will not be accepted without a verifiable excuse. Regardless of the reason, points will be deducted on all late work.

GRADING

Final grades in this course will be based on the following scale:

Grading:

Class Participation	300 points
Exam #1	100 points
Exam #2	100 points
Exam #3	100 points
Final Paper	100 points
Total	700 points

A = 700 - 630

B = 629 - 560

C = 559 - 490

D = 489 - 420
F = <420

TECHNOLOGY REQUIREMENTS

This is an online class. The following technological resources are required:

Internet access (high speed preferred)
Word Processing software (Microsoft Word preferred)
A myLeo email account

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft Office, you can check with the bookstore to see if they have any student copies.

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

COMMUNICATION AND SUPPORT

Interaction with Instructor: Please feel welcome to contact me by email (qingwei.wang@tamuc.edu). All email should receive a response within 48 hours. If you have not received a response then assume your email did not go through and please try again to make contact. All email should include student's last name, first name, course name and brief description of the reason for contact.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778 or click on the **Live Chat** or click on the words "[click here](#)" to submit an issue via email.

System Maintenance

D2L runs monthly updates during the last week of the month, usually on Wednesday. The system should remain up during this time unless otherwise specified in an announcement. You may experience minimal impacts to performance and/or look and feel of the environment.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Student Conduct and Respect:

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See Code of Student Conduct from Student Guide Handbook). The classroom is a scholarly environment and students are

expected to behave accordingly. Expressions of ideas, thoughts, opinions, etc are encouraged, but have to be done in a scholarly and respectful manner. Email your instructor whenever you have any problems or concerns regarding this course. Your feedback (both positive and negative) is more than welcome. We should strive to respect and value the diversity that exists in TAMUC classrooms (e.g., age, gender, ethnicity, national origin, disability, geographic, backgrounds, political orientation, sexual orientation).

Academic Honesty:

Scholastic dishonesty may involve, but is not limited to, one or more of the following acts: cheating, plagiarism, collusion, use of annotated texts or teacher's editions.

Plagiarism is the use of an author's words or ideas as if they were one's own without giving credit to the source, including, but not limited to, failure to acknowledge a direct quotation.

Cheating is the willful giving or receiving of information in an unauthorized manner during an examination, illicitly obtaining examination questions in advance, copying computer or Internet files, using someone else's work for the assignments as if it were one's own, or any other dishonest means of attempting to fulfill the requirements of a course.

Collusion is intentionally aiding or attempting to aid another in an act of scholastic dishonesty, including but not limited to, providing a paper or project to another student; providing an inappropriate level of assistance; communicating answers to a classmate during an examination; removing tests or answer sheets from a test site, and allowing a classmate to copy answers.

Academic dishonesty could result in a "zero" grade on the particular assignment or test.

Withdrawing from/dropping Psy403:

Students are responsible for following University procedures to drop a class. If you stop participating in the class for any reason, you must initiate the process of dropping, or you will receive a failing grade. DO NOT wait until the last minute to drop the class. Plan to take care of this several days ahead of time, so that you will have the time required to get the forms signed, submitted, etc.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).
