COURSE REQUIREMENTS

Minimal Technical Skills Needed

In this class, you will utilize the Learning Management System (LMS) entitled D2L for portions of instructional and learning methods and submitting assignments. You will need to utilize other technologies such as Microsoft Word, PowerPoint, etc. If you have issues with this system, it is your responsibility to contact the help desk immediately.

Instructional Methods

Lecture, discussion, seminar, and supervised application. (See instructor syllabus.)

Client Role

You will be in a client role and in a counselor role in different role-plays and activities in this course. These roles are essential and mandatory to your learning, demonstration, and assessment of basic counseling skills. If you are not prepared to engage in these roles, you are recommended to drop this course, as it will negatively influence your grade. What you share in these role-plays (or real-plays) is entirely up to you and your comfort level. As such, all students are held to the highest privacy and confidentiality standards and must abide by the current ACA code of ethics.

The syllabus/schedule are subject to change

You have the right and personal responsibility to share only as deeply as you want. At the same time, if you find yourself not wishing to engage in these exercises, you may prefer to drop the course. See appendix D.

Confidentiality and Ethics

In this course, you are entering an experience that involves a fair amount of role-playing and practice interviewing. Naturally, in the course of discussion, it is possible for a student colleague to say something personally important and confidential. It is your duty to maintain confidentiality. Confidentiality is extremely important to the integrity of this course, enrolling in this course carries with it the responsibility to maintain confidentiality. Confidentiality cannot be guaranteed in any situation, but we are collectively accountable to maintain a safe, trusting environment throughout the course including experiential activities, and in-class conversations. While it can be compelling to share personal information about class members with others, all students are bound by the ACA ethical code of confidentiality with respect to any material shared by other members of the class. The disclosure of personal information to anyone outside this class would be considered unethical and you will face consequences for disclosing it to non-class members. Please explore any concerns you have about confidentiality during class time, after class, or via private communication with the instructor.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, then these students will not receive the instructor's endorsement to continue with the program. (ACA Ethical Standards)

CSCE Statement The Counseling Program is obligated by professional ethics (see ACA Code of Ethics, 2014) and University procedure to assess students as to their potential for meeting the expectations of the professional counseling field. The competencies outlined in this document (CSCE) are specific to professional counseling and are in addition to academic requirements. The Department of Counseling may suspend from the Counseling program any students judged incapable of meeting these expectations. Procedures regarding potential dismissal are outlined in the Program's *Retention/Dismissal* Procedure.

The CSCE may be used by any faculty member with any student enrolled in a Counseling course to provide that student with feedback regarding their potential for meeting the expectations of the professional counseling field and the Department. Completion of a CSCE is required in the following courses: COUN 516, COUN 548, COUN 551, COUN 552, COUN 620, and COUN 660. **Each use of the CSCE must be placed in the student's Department file along with any remediation plan developed by the faculty in conference with the student.**

Personal Counseling Requirements

All students are required to participate as a client in personal counseling (see Student Handbook).

- For students admitted to the program before Fall 2017, 6 personal counseling sessions must be completed prior to enrollment in COUN 551: Practicum.

The syllabus/schedule are subject to change

- For students admitted in FALL 2017 or later, 10 personal counseling sessions must be completed as a requirement in **your 516 course**. Failure to do so may result in a grade of “F” Failure or “X” Incomplete.

This personal counseling requirement may be completed at no cost to the student at one of the department-operated clinics (CHEC, Mesquite). Students may, at their own expense, complete this requirement with a counselor not associated with A&M-Commerce. Evidence of completion of this requirement is achieved by providing a signed letter from the counselor, preferably on letterhead, stating simply that the student has completed the required number of sessions.

COURSE HOURS REQUIREMENTS include, but are not limited to:

1. A minimum total of 600 (for both Internship I and II) clock-hour total for supervised experience must include a minimum of 240 (120 for Internship I and 120 for Internship II) hours of direct service work with clientele appropriate to the community, school, or student affairs program emphasis area.

Assignments/Assessments

1. Class Participation/online discussions (40 points)

Due to the pandemic, this internship class will require all students to be available every Tuesday at 6:00 PM for Zoom sessions. In addition to regularly scheduled Zoom sessions, you will be required to participate in online discussions. Participation is credited to all activities related to this course. Please be aware that being consistently late to Zoom meetings can detract from your grade.

Students will demonstrate knowledge and understanding of key concepts through class discussions and in-class activities. Regular attendance, arriving to class (zoom) on time, and reading the materials before class are expected. You are encouraged to actively participate in and out of class. Do not expect/rely on class lecture for your learning. This class requires you to be an active participant, to share your thoughts respectfully, and to engage with the material honestly and openly. This course is the foundational course for facilitating your counseling skills; thus, attending, participating, and experiential learning within and outside of the classroom are crucial. You will have many opportunities to contribute to the total learning experience through attendance, discussion, and assigned activities.

The following criteria will be used to determine participation & attendance points:

Class Participation Rubric

3 – <i>Exceeds Expectations</i> (36-40 points)	Proactive participation: initiating, asking significant and meaningful questions and responding to the instructor/supervisor and other students insightfully. This does not mean dominating discussion. No more than two absences from zoom discussions.

1 – <i>Does Not Meet Expectations</i> (0-31 points)	Passive participation: present, awake, alert, attentive, but not actively involved or invested; Or Uninvolved: absent, present but not attentive, sleeping, texting/surfing, irrelevant contributions. From these weekly sessions, students are to submit two video recorded counseling sessions (a minimum of 40 minutes in length) for grading and may be required to bring additional recordings to group supervision. Along with each of the two recorded sessions as counselor you are to complete a session analysis using **Appendix A** as a guide. Content of the session analysis must correspond to the recorded video tape played in class. Please submit the session analysis the day the assignment is due.

Counseling skills of process, conceptualization, personalization, and professionalism are the focus of internship and should be evidenced in your tapes and session analyses. See **Appendix B** for more detail in regard to counseling skills. Tape two will also require a case conceptualization that utilizes the structure in Sperry & Sperry (2020).

The student is required to submit recordings of counseling sessions with clients from his or her field site for this supervision as well as in our class supervision.

Also, in addition to regular class meetings, the student will complete at least one hour per week, outside of class time, of individual or triadic supervision with their field site supervisor. The student is required to submit recordings of counseling sessions with clients from his or her field site for supervision as well as in our class supervision.

The syllabus/schedule are subject to change

The student will complete 300 clock hours of supervised field practice. At least 120 of these hours will be direct service work with clientele appropriate to the student's field setting, including experience in individual and group work.

The student will maintain professional liability insurance throughout internship.

Students will negotiate a Field Experience Contract and an Emergency Contract with their on-site supervisors. This contract constitutes an agreement between the student, field supervisor and instructor of record and specifies the student's activities, hours, and supervision arrangements.

The student will keep a *Weekly Activity Log* that will document a cumulative record of hours including:

The student will complete an evaluation of field site experiences during the last week of the semester. These evaluations will be filed with the department's Coordinator for Field Placement.

See rubric. Appendix D first class meeting paper work requirement.

5. Theory of Change Paper (S/U; required for internship 2 students ONLY):

The purpose of the Theory of Change Paper is to ensure that students are able to conceptualize their clientele from their own personal theoretical orientation, as well as conceptually demonstrate it in clinical practice. The paper must adhere to the APA 6th edition guidelines, and include peer-reviewed sources. Non-peer-reviewed sources (book, etc.) may be used as well. Be descriptive and utilize personal examples and the literature

to ground your position. General guidelines, a handout, for constructing this paper will be provided.

6. **Counseling Student Competency Evaluation (CSCE)**

The Counseling Program is obligated by professional ethics (see ACA Code of Ethics, 2014) and University procedure to assess students as to their potential for meeting the expectations of *professional practice* in the professional counseling field. The competencies outlined in this document (CSCE) are specific to professional counseling and are in addition to academic requirements. The Counseling Program may suspend from the program any students judged incapable of meeting these expectations. Procedures regarding potential dismissal are outlined in the Program’s Retention/Dismissal Procedure.

The CSCE may be used by any faculty member with any student enrolled in a Counseling course to provide that student with feedback regarding their potential for meeting the expectations of the professional counseling field and the Department. Completion of a CSCE is required in the following courses: COUN 551, COUN 552, COUN 620, and COUN 660 (i.e., Clinical Supervision, Advanced Practicum, Advanced Internship, Advanced Supervision, Advanced Teaching). The course instructor in COUN 516 and COUN 548 may choose to implement the CSCE at his/her discretion. Each use of the CSCE must be placed in the student’s Department file along with any remediation plan developed by the faculty in conference with the student.

The Counseling Program has elected to use the CSCE to monitor student’s progress in *professional practice*. As a requirement in this course, a final CSCE evaluation will be completed by the course instructor, in consultation with the student, to assess your professionalism, general competency, social and emotional maturity, integrity and ethical conduct, and clinical competency. Please note that the instructor of the course may choose to administer the CSCE at different time intervals throughout the semester (e.g., initial, mid) at his/her discretion. The CSCE can yield an overall average composite score or an average subscale score for each domain. The Department utilizes both overall average composite score and average subscale scores to monitor students’ *professional practice*. See rubric below.

Counseling Student Competency Evaluation (CSCE) Rubric

- 7. Internship Site Supervisor’s Evaluation of Trainee (CMHC[D] & SC [C]):** The Counseling Program has elected to assess and incorporate site supervisors’ feedback

The syllabus/schedule are subject to change

in the evaluation of students' performance in *professional practice*. Completion of a site supervisor's evaluation of trainee is required in COUN 552. Each use of the site supervisor's evaluation of trainee must be placed in the student's Department file.

As a requirement in this course, a final site supervisor's evaluation of trainee will be completed by the site supervisor, in consultation with the student, to evaluate your *professional practice* across various domains. Please note that the instructor of the course may require a site supervisor's evaluation of trainee at different time intervals throughout the semester (e.g., mid) at his/her discretion. The site supervisor's evaluation of trainee can yield an overall average composite score or an average subscale score for each domain. The Department utilizes both overall average composite score and average subscale scores to monitor students' *professional practice*.

*Instructors, please be aware that the site supervisor's evaluation of trainee is program specific (CMHC or School Counseling) and exist in two different versions (Practicum or Internship). Therefore, please use the SC rubric for school counseling students and CMHC rubric for clinical mental health counseling students. See rubrics below.

GRADING

Though this is a pass/fail class, you will receive a numerical grade. Final grades in this course will be based on the following letter grade scale but it is important to remember that the class is **Pass/Fail** (minimum final grade of 80%).

90%-100%	A
80%-89%	B
70%-79%	C
60%-69%	D
< 59%	F

Assignment/Assessment	Point Value
Class Participation (Zoom)/Online discussions	70
Two Video Recordings/Session Analyses (80 pts. each)	160
Article Reflection Papers (10 points each)	40
Conceptualization paper	30
Theory paper (Internship II only)	Pass/Fail
Client Hours Requirement	Pass/Fail
KAA: CSCE	0
KAC & KAD: Site Supervisor's Evaluation	0
Theory of Change Paper (Internship 2)	Pass/Fail

Total points possible = 300 for this course.

Your Final Grade is determined by adding the point values earned from each assignment and then dividing by 330. The resulting value is multiplied by 100 to yield a percentage. For example: $(300 \text{ [points earned]} / 330) \times 100 = 90.9\%$

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Appendix A

(Session Analysis Tapes 1 & 2. In addition, **Tape 2 will require a case conceptualization**)
Handouts will be distributed

- Include client demographics: age, gender, ethnicity, family constellation, etc.
- Description of presenting problem, referral source, areas of concern
- Brief summary of session content
- Interventions and techniques used in the session and a rationale for choosing these responses.
- Session-Analysis: evaluate your performance and the session

The syllabus/schedule are subject to change

Partial Example: Your analysis will be considerably longer than the brief excerpts below.

- **Demographics:** BC is a 12-year-old Hispanic male who is in 7th grade. He is the youngest of four children and lives with both biological parents.
- **Presenting problem:** BC was referred by his teacher. He is currently failing math and language arts and has been referred to the principal for disruptive behavior.
- **Areas of concern:** BC appears to have low self-esteem and few friends. He does not appear to have support for his schoolwork at home. His parents do not speak English well and are not very involved with his school responsibilities.
- **Summary of Session Content:** Identify client and counselor goals. What was the objective of the session? Include here what where the major themes/topics explored?
- **Interventions/techniques (along with rationale):** The counselor used reflective listening, open questions, paraphrasing, clarifying, and summarizing. Goal setting was also utilized. A homework assignment was given. *Client agreed to “act as if” the next time he is embarrassed to go to tutoring for math.*
- **Most prominent theoretical approach used during this session:** At this stage you will incorporate your use of theory into the process and include in your analysis your intention and rationale for doing what you did in session. You will document this with a(n) excerpt(s) from your session.
- **Session-Analysis:** Evaluate your performance and the session, focusing on **you** and not your client: what did you like best and least about your use of process, personalization, professional, and conceptual skills (see Appendix B for list of skills); what skills/processes did you do well?; what do you need to improve on?; what did you miss?; when were you aware of what was missed?; how did you handle any misconceptions or other issues that arose in session?; how would you define the quality of the counselor-client relationship?; what are the considerations surrounding multicultural factors?; what were you experiencing as the counselor during the session?; what might be going on that was left unspoken?; what might you tell a clinical supervisor when asked what you might not have addressed with your client?; and what hypotheses can you develop about what was occurring for your client?
 - Transcript of 5 consecutive interactions with self-critique of your responses. (What was the rationale for your response?; How effective was the timing and delivery of your response?; Was the client’s response what you anticipated?; And how, if at all, would you have liked to have changed your response?)

Plans for next session (process goals, homework assignments, referral, termination, etc.)

Appendix B (Counseling Skills)

Skills needed to be demonstrated during the course...

Process Skills: These include skills learned in Pre-Practicum and refer to counselor behaviors that can be observed either through two-way mirrors, video or audio recording. These skills enhance the process of counseling and will be evaluated in their execution rather than their choice. Process skills are observable counselor' attitudes and skills. Process skills range from paraphrasing to more complex skills such as attempts to empathizing, confronting discrepancies, responding to nonverbal behavior, pacing a session, and using silence.

Conceptual Skills: Most of the counselor's covert behaviors are found here. Conceptual skills reflect deliberate thinking and case analysis. There are two kinds of thinking in this area: conceptualization during the session and between the sessions. Kinds of behaviors that represent these skills include:

- understanding what the client is saying;
- identifying themes in the client messages;
- choosing strategies appropriate to client goals;
- recognizing even subtle improvement by the client.

Conceptualization skills involve understanding patterns and themes with each client. Conceptualization skills also involve being able to distinguish between important and unimportant client statements and processes.

Personalization Skills: These include both easily observable and subtle behaviors. Because counseling is a very personal activity, these skills will indicate how well the student has adjusted to the role of helper. Examples of these might include:
comfort with the responsibility of being a counselor;
being able to separate one's own issues from those of the client.
being able to handle a range of personal emotions
being able to accept constructive criticism

Professional Skills: These include ethical behaviors both within, and outside, counseling sessions. Examples include, but are not restricted to, the following:

- completing paper work on time,
- safeguarding confidentiality,
- behaving professionally in field placement,
- dressing appropriately for counseling contacts,
- not being defensive with an accusing client,
- being able to handle a range of personal emotions, and
- being able to accept constructive critique.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, then these

students will not receive the instructor's endorsement to continue with the program and pass the course.
