

Fall 2021 Texas A & M-Commerce Math 522 – General Topology I

This is the syllabus for Math 522-General Topology I, Section 01SE (41RE, 71RE) for the Fall 2021. Please read it carefully. You will be responsible for all information given in the syllabus, and for any modification to it that may be announced in the classes.

Instructor: Dr. Yelin Ou

Office: Binnion Hall 313. Phone: (903) 886-5949

E-mail: yelin.ou@tamuc.edu

Webpage: <http://faculty.tamuc.edu/you/>

Office hours: M: 1:30-3:00 pm, TW: 9:00-10:00am, R: 3:00-4:30pm, and by appointment.

Class schedules and room: MW: 5:00-6:15pm, BA 109.

Textbook: “General Topology: An Introduction” by Tom Richmond.

Publisher : De Gruyter; 1st edition (July 6, 2020), ISBN-10 : 3110686562

Portions of Chapters 0-5 in the textbook will be taught and discussed.

Course Description: Ordinals and cardinals, topological spaces, identification topology, convexity, separation axioms, covering axioms.

Pre-requisites : [MATH 440](#) or consent of instructor.

Learning Outcomes: Upon successful completion of this course, students will be able to:

1. Write mathematical definitions and explain the basic examples of topological spaces including discrete, indiscrete, cofinite, metric, and right ray topologies.
2. Explain and verify some basic properties of topological concepts including open sets, closed sets, neighborhoods, boundary and limit points, interior and closure.
3. Understand and explain the constructions of topological spaces via metrics, basis and subbasis, subspace, product spaces and quotient spaces.
4. Explain and verify examples of first and second countable, Hausdorff, connected, path-connected, and compact topological spaces.
5. Understand and explain the convergence of sequences, the continuity of maps between topological spaces, and homeomorphic topological spaces.
6. Write proofs for some important theorems including unique limit theorem, characterizations of a basis, equivalent formulations of continuity of a map and of a homeomorphism, and connectedness is a topological property.

Tests: There will be two midterm tests and a final exam for the course. The tentative schedules for the exams are:

Test 1: Oct. 6, Wednesday 5:00pm-6:15pm.

Test 2: Nov. 19, Wednesday 5:00pm-6:15pm.

Final exam: The comprehensive final exam is scheduled on **Dec. 15, Wednesday 5:00pm-7:00pm.**

No makeup exam will be given unless you have verifiable evidence showing an acceptable reason to have to miss a test and, in that case, you must notify the instructor before the test or in the earliest possible time.

Homework & Projects: Homework will be assigned and collected to grade on a weekly basis. You are strongly recommended to work out homework assignments on a regular basis since **No one can learn mathematics without doing it!** The assigned homework problems will be collected to grade **every other Wednesday** from the 2nd week. Some homework problems or their similar forms will be used as test questions.

Course grades: The course grade consists of

Homework & Projects:	15%
Two tests:	50%
Final exam:	35%.

The letter grades will be assigned using the following scale:

A: 90-100% B: 80-89% C: 70-79% D: 60-69% F: 0-59%

Withdrawal Policy: Concerning the deadlines and consequences of withdrawals please check on:

<https://inside.tamuc.edu/admissions/registrar/academicCalendars/default.aspx>

Academic Integrity: I have a **NO TOLERANCE** policy for cheating and if you are caught cheating you will fail this course. Cheating in this course includes the following:

- Giving or receiving answers during an exam or quiz.
- Viewing the exam or quiz answers of other classmates.
- Having notes/practice work available during quizzes or tests.
- Possession or access to test items before the test is given.
- Deception in getting an excused absence to obtain the undeserved opportunity to make-up work.
- Use of cell phones or text messaging technology during exams or quizzes. You may not use the calculator on your cell phones.
- Improper citations in written works, or using another person's ideas and words as your own without giving proper credit.

- **Any** method, no matter how well rationalized or accepted, which improves a person's grade by any means other than study and skillful performances on exams and/or other assignments.

Students found guilty of an act of academic dishonesty in this course will be subject to receiving an "F" in this course.

Classroom Behavior: "All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment" (See Student's Guidebook). A&M-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

The information for students with disability: The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact: Office of Student Disability Resources and Services, Texas A&M University-Commerce, Gee Library, Room 132, Phone (903) 886-5150 or (903) 886-5835, Fax (903) 468-8148, email: StudentDisabilityServices@tamuc.edu

Campus Concealed Carry Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations. For a list of locations, please refer to (<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>) and/or consult your event organizer). Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.

Counselling & Help: The Counseling Center at A&M-Commerce, located in the Halladay Building, Room 203, offers counseling services, educational programming, and connection to community resources for students. Students

have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

Getting help: A better way to learn math is to keep progress and leave no gaps in one's study. So please get help as soon as you need it and do not wait until it is too late. You are welcome to get help from me via Zoom.

Homework assignments for Math 522:

Chapter 0: 6 (a), (b), (c), (d); 9(b); 10(a); 15 (a), (e); 17(b).

Section 1.1: 2, 5, 6, 8.

Section 1.2: 3 for subsets B, D; 5 (a), (c); 6 for subsets A, C, F.

Section 1.3: 1 for T3, T5; 5, 9, 15.

Section 1.4: 1 (a), (b); 3; 11, 22, 30 (b), (c).

Section 1.5: 1; 7 (b),(c); 8 (a), (d); 15; 20.

Section 1.6: 7.

Section 2.1: TBA

Section 2.2: TBA

Section 2.3: TBA

Section 3.1: TBA

Section 3.2: TBA

Section 4.1: TBA

Section 4.2: TBA
