Students have 24/7 access to the Counseling Center's crisis assessment services by calling 903-886-5145. For more information regarding Counseling Center events and confidential services, please visit www.tamuc.edu/counsel

COURSE COMMUNICATION: Students are required to check their e-mail at least once a day for class information. The primary mode of communication in this class will be e-mail messaging. You should also check the D2L platform for announcements, to access the course documents via Doc Sharing, post comments on the discussion board, and to check your grades. All the audio and video files will be uploaded to D2L.

ABOUT CASES: Cases constitute to be the major part of this course. They will be used to integrate the material you were exposed to in your previous classes and some new material you are going to be exposed in this class. You must read the assigned cases thoroughly and must be ready to

answer the related questions. The case method is intended to lead us to a debate. During this debate, sometimes we will reach a consensus while other times a single “right answer” may not emerge. The idea is not always to find the right answer but the reasoning process we adopt in our analyses. In this section of the course, McGraw Hill Connect tool may be utilized for some of the cases. The tool includes questions on each case. You must answer those questions online (via D2L after registering for the Connect tool).

GROUP PROJECT: Each group (composed of 4-5 students) will be assigned to analyze a real company, prepare a report and present it in class (or online) using visual aids (e.g., handouts, PowerPoint slides, overheads). Use the concepts you learn in this class and previous classes to perform your analysis. You will get to rate your group members based on their contribution. I do not want you to come to me to complain about your group members. Try to solve problems in your group as if you will do in real life. Keep in mind that 25 percent of your grade for the group presentation will depend on how your group members rate you individually. In other words, learn how to be a good team player. It is up to you how to organize your paper/presentation, but you should at least address the following issues:

- Diagnosing the company’s situation, including external opportunities and threats, internal strengths/capabilities/resources and weaknesses/liabilities, thorough financial analysis, etc.
- Identifying problems that the company is facing
- Developing various action alternatives that can address the problems
- Analyzing the pros and cons of various action alternatives
- Making your conclusion and recommendations as specific as possible

In short, you assume the role of a consulting team for this company. Your team should be able to make specific recommendations regarding the solutions to the identified problems of this company. One member of your group should upload the final report to D2L.

EXAMS: There will be 2 (two) exams. Exams will include multiple choice questions and will be remotely proctored using Proctorio. You must have access to a computer that has a video camera and a microphone. The best browser to use for Proctorio is Google Chrome. Proctorio needs to download a software that is added as an extension to Google Chrome. Please refer to Proctorio’s website for details about privacy concerns.

INDIVIDUAL CASES (2): These assignments involve students in reading, analyzing, preparing a plan, and submitting individual written cases. Two will be assigned during the semester. The purpose is to apply your business knowledge from a variety of functional areas (such as finance, marketing, management) to solve a real business strategic issue. There may be several questions to guide the discussion. Generally cases follow this format: (1) a summary of the relevant situation in the case, (2) Internal analysis of the firm, including current corporate and business level strategies, (3) external analysis, (4) SWOT analysis culminating in identification of a problem (which may be in fact an opportunity), (5) proposal of two or more alternative courses of action that will help solve the problem or exploit the opportunity, (6) evaluation of all alternatives, (7) recommendation of best alternative and (8) implementation issues that need to be considered.

BUSINESS STRATEGY GAME: Each student will be assigned to a group composed of 4-5 students. The group members will be making strategic decisions for an athletic footwear company. The details about how to sign-up for the game and how to make decisions are provided online at www.bsg-online.com. Company registration codes for each group will be provided by the instructor. Please read the online document as soon as possible to get familiar with the game (there may be a quiz about this). Each student has to sign-up for this game.

In the Business Strategy Game, 1 to 5 class members are assigned to operate an athletic footwear company that produces and markets both branded and private-label footwear and competes head-to-head against footwear companies run by other members of the class. As many as 12 companies can compete in a single industry grouping. The companies compete in a global market arena, selling in four geographic regions—Europe-Africa, North America, Asia-Pacific, and Latin America.

The co-managers of each company are responsible for assessing market conditions, determining how to respond to the actions of competitors, forging a long-term direction and strategy for their company, forecasting upcoming sales volumes, and making decisions relating to:

- Production operations (up to 10 decisions for each plant, with a maximum of 4 plants)
- Upgrading plants and expanding/reducing plant capacity (up to 6 decisions per plant)
- Worker compensation and training (3 decisions per plant)
- Shipping and inventory management (up to 8 decisions each plant/geographic region)
- Pricing and marketing (up to 10 decisions in each of 4 geographic regions)
- Bids to sign celebrities to endorse their brand of footwear (2 decision entries per bid)
- Corporate social responsibility and citizenship (up to 6 decision entries)
- Financing of company operations (up to 8 decision entries)

Details for student participation in the BSG are provided under the doc sharing folder.

CORE COMPETENCY EXAM (CCE): The Core Competency Exam (CCE) is designed to measure your comprehension of the core business courses. The College of Business requires all students to take the CCE in their final semester, and uses the results to evaluate our programs. Additionally, faculty may consider your CCE results, in addition to your coursework, when they recommend you for jobs or additional academic programs. The CCE is administered through enrollment in this course (the capstone strategy course). The CCE will be administered in Week 12 (details will be provided). During that week, your requirements for this course will be minimal to allow you to focus on the CCE. More information will be provided later.

DISCUSSION/PARTICIPATION: I will have discussion topics for you during certain weeks. I expect each of you to be active participants. The discussions may be about a specific case in the book or a general business topic.

EVALUATION:

Connect Assignment	5 percent
Individual Cases	10 percent
