Course Description

This course develops a foundation of concepts and solutions that supports the planning, scheduling, controlling, resource allocation, and performance measurement activities required for successful completion of a project. Basic project management tools will be introduced.

The syllabus/schedule are subject to change.

Student Learning Outcomes

1. Demonstrate an understanding of the basic properties of projects, including thoughtfully discussing their definitions.
2. Discuss and apply to a problem, the life cycle of a project.
3. Discuss how important it is for project managers to be able to make cross-functional decisions.
4. Discuss how project management is a 'leader-intensive' profession and how it differs from process management.
5. Analyze a project to complete a project checklist, work breakdown structure, activity networks, Gantt charts, scoring model, and a project proposal.
6. Explain basic cost estimating as it relates to the project schedule and work breakdown structure.
7. Analyze risk in a discussion post and be able to describe why risk management is so important to Project Planning.
8. Document the various constraints that make Project Planning and Scheduling so difficult.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a semester. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Students must be able to use Microsoft Word for assignments. Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office. Students will become comfortable using the basic templates found in Project Libre.

Instructional Methods

There are a number of assignments due each week, among them will be Case Studies, Discussion posts, and Project Libre assignments.

Student Responsibilities or Tips for Success in the Course

Students are expected to log into the course 3-4 times per week. Initial discussion posts are due on **Tuesday** of each week. Final replies (2 or more) will be due on Saturdays of each week when discussions are assigned. The Introduction is a chance for you to 'meet' your colleagues in the class. Specific instructions on what to post are available when you click on Introduction in Course home. At Chapter 4, you will be placed in small groups for discussions. My goal here is to foster a sense of community, while you learn, not only from me, but each other. Research shows that when students work in small groups, learning is richer and deeper. Keep this in mind as you work in your groups.

The syllabus/schedule are subject to change.

There are overview lectures for each chapter. These are just the high points, you still must read the chapters in your text. All the materials in the lectures come from your textbook and were created by your instructor.

The **Discussions** are directly related to the assigned readings, websites, podcasts, or videos. These discussions are critical to learning and are meant to provide opportunities to share your experience with your peers and to research the topics and share your thoughts. Upon completion of the assigned readings, you are expected to engage in an **ongoing** discussion/debate with your classmates. Your contributions to the discussion forums will be graded for **quality** and a **detailed analysis** linking the material to a critical appraisal of theory, policy, and practice. The introduction of outside materials is mandatory (unless otherwise noted in the discussion topic assignment). In all cases, students must cite in-text and provide a full bibliography/works cited at the end of their post for all citations mentioned in the post. See the 'How to Cite' Factsheet). Also, you can find information on the [Purdue Owl](#).

The specific discussion assignment is located in each unit Chapter by clicking on the Discussion link. The rubric used to grade the discussions will be available with the instructions.

The **Reply** posts are responses you make to the discussion posts that you and your classmates post as assigned.

Reply posts should be meaningful. Merely agreeing or disagreeing with a classmate will not be looked upon favorably and will result in a loss of points. A meaningful post is one that moves the discussion forward in some substantive way through providing one's perspective, additional information through research, or reframing the discussion in some new way. You are expected to engage in an **ongoing** discussion/debate with your classmates. Ask questions! Your comments will be graded for **quality**, and **relevance**. Your comments will also be graded based on your ability to engage in critical thinking. **Students must provide one outside source for at least one comment that they make. Remember, they're 40% of your grade.**

The final project will also be done in the same small groups you will be working in for discussion posts. **It is 25% of your grade.** One set of documents and a video presentation will be submitted from your group.

Assessments

Assessment Method: Discussion and Comment posts will be graded using the Discussion Post Grading Rubric located in under Grades, Class Progress. A writing assignments rubric is also available there.

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found on the [Brightspace Support Webpage](#).

Interaction with Instructor Statement

This is an online course; therefore, expect most communication to be online as well. Correspondence will always be through university email (your “myLeo” mail) and announcements in myLeo online (D2L). The instructor will make every effort to respond to emails within 24 hours provided the correspondence follows the requirements listed below. Students are encouraged to check university email daily. I strongly prefer the **Q & A Forum** so that I can share answers with the entire class; however, if you have something of a personal nature to discuss, by all means, email me.

All emails from students should include:

- **Course name and subject in the subject line**
- **Salutation**
- **Proper email etiquette (no “text” emails – use proper grammar and punctuation)**
- **Student name and CWID after the body of the email**

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

The syllabus/schedule are subject to change.

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail online in the [Student Guidebook](#).

Students should also consult the [Rules of Netiquette Webpage](#) for more information regarding how to interact with students in an online forum.
