Textbook: McGraw Hill's *Taxation of Individuals and Business Entities*, 2022 Edition.

Course Format

This is a “blended” class. That means we will meet one day per week face-to-face and one day per week online. Class attendance will be used in any case where a student is below the cutoff for a grade. The cutoff for an A is 90%, for a B 80%, for a C 70%. If you miss more than two face-to-face classes you will NOT be moved up if you are below this cutoff, even if one point below. The online version will be recorded. Attendance live is not mandatory. However you will forfeit the opportunity to ask questions if you do not attend live online sessions.

Assignments will be discussed in class and online. To be aware of the expectations for assignments you will NEED to attend face-to-face sessions and watch online presentations. I will NOT provide written “rubrics” or any other explanations of expectations since they will be discussed in detail in class and online.

YOU MUST CHECK YOUR TAMUC E MAILS AND THE CONTENT SECTION OF D2L FREQUENTLY. YOU ARE RESPONSIBLE FOR KEEPING UP IN THIS COURSE.

There is a textbook. The 2022 version is now available. We will use the online version of the book and your account will be charged for the access. You will receive an e mail that will allow you to opt out if you prefer to use a paper version of the book. The text is a comprehensive one and is the same book as is used for ACCT 538. If you have a paper version that you used in ACCT 538 it will be acceptable for use in this class even if it is a 2021 or 2020 version. Assignment 1 is from the textbook so you will need to check to be sure you are doing the right assignment if you use a version other than the 2022 one.

There will also be significant other material posted on D2L. You should use all of this material to succeed in this class. The videos will be titled to help you determine if they relate primarily to a topic area/chapter or a particular assignment. Often it is not possible to make such a distinction. I will send e mails to indicate content.

Course Description

This course is an overview to the taxation of corporations (both “C” and “S”), and partnerships. It also discusses tax research techniques and professional responsibilities in tax practice.

We address issues and approaches that are similar to what a tax practitioner would encounter and do. In many cases, there are no certain answers. This course is not specifically designed to prepare for the CPA exam, but the course coverage will be very helpful in this regard.

Our tax laws change frequently. Many changes are significant. Changes to laws create a more equal footing for young professionals and more experienced ones.

This course has been designated by the accounting department as a writing-intensive course. We address issues and approaches that are similar to what a tax practitioner would encounter and do. In many cases, there are no certain answers. This course is not specifically designed to prepare for the CPA exam, but the course coverage will be very helpful in this regard.
