TEXES 268 Principal Standards Addressed DOMAIN II-Leading Learning (Instructional Leadership/Teaching and Learning)

Competency 003: The beginning principal knows how to collaboratively develop and implement high quality instruction.

- A. Prioritizes instruction and student achievement by understanding, sharing, and promoting a clear definition of high-quality instruction based on best practices from recent research
- B. Facilitates the use of sound, research-based practice in the development, implementation, coordination, and evaluation of campus curricular, co-curricular, and extracurricular programs to fulfill academic, development, social, and cultural needs
- C. Facilitates campus participation in collaborative district planning, implementation, monitoring, and revision of the curriculum to ensure appropriate scope, sequence, content, and alignment (Backward Design)
- D. Implements a rigorous curriculum that is aligned with state standards, including college and career-readiness standards
- E. Facilitates the use and integration of technology, telecommunications, and information systems to enhance learning

Competency 004: The entry-level principal knows how to monitor and assess classroom instruction to promote teacher effectiveness and student achievement.

- A. Monitors instruction routinely by visiting classrooms, observing instruction, and attending grade-level, department, or team meetings to provide evidence-based feedback to improve instruction
- B. Analyzes the curriculum collaboratively to guide teachers in aligning content across grades and ensures that curricular scopes and sequences meet the particular needs of their diverse student populations (considering sociological, linguistic, cultural, and other factors)
- C. Monitors and ensures staff use of multiple forms of student data to inform instruction and intervention decisions that maximizes instructional effectiveness and student achievement
- D. Promotes instruction that supports the growth of individual students and student groups, supports equity, and works to reduce the achievement gap

The syllabus/schedule are subject to change.

- E. Supports staff in developing the capacity and time to collaboratively and individually use classroom formative and summative assessment data to inform effective instructional practices and interventions

Student Learning Outcomes:

1. The student will articulate how curriculum is designed, developed, and managed through course discussions and assignments.
2. The student will outline the principals' role in designing curriculum for effective instruction through course discussions and assignments.
3. The student will conduct a brief needs assessment and data collection of campus curriculum and curriculum processes.
4. The student will conduct a curriculum unit review using the Understanding by Design (UbD) model.
5. The student will develop a curriculum plan incorporating three curriculum goals over a three-year period.

COURSE REQUIREMENTS

The instructor will create an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students will actively participate in the class. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement. Learning will be achieved through textbooks and other assigned readings, projects, and class interaction.

Assignments:

Each student is expected to participate through D2L and complete all reading and written assignments on time, and actively engage in the class by closely connecting class topics and discussions to the textbook and other readings. Participate in each module by responding to prompts and responding to the answers of others. Participate in endeavors with the goal of contributing meaningfully and implementing higher order thinking skills.

Collaboration & Zoom with the Professor (280 points)

Many assignments will be collaborative in nature but require an individual response. The Learning Management System (D2L) will provide the space for collaboration but allows for the course to remain asynchronistic in nature. Each student will be assigned a responsibility in the Group Discussion Area. You will also be responsible for the collective knowledge. This allows the class to “divide and conquer” tasks, and still have access to the entire document. Please refer to D2L for specific instructions.

A Zoom meeting will be held in Module 1 and Module 4. The Zoom link will be posted in the module. The time will be posted in the module and on the course schedule. If students cannot attend the Zoom, the Zoom meeting will be recorded. The recording will be posted in the course. The Zoom points can be earned once the students have watched the Zoom and emailed the professor confirming that they have reviewed the video.

The syllabus/schedule are subject to change.

Quizzes (3 @ 25 each = 75 Points)

Application-focused quizzes over content and reading will be conducted in Modules 1,5, and 7.

Pillar Project (3 Products = 330 Points)

This course will include a project to demonstrate mastery and application of learning. The project is designed to be a real-world experience to assist you as a school leader/practitioner by using data to create an improvement plan. Projects vary in nature and are individualized to the student's current professional situation. Each project will have its own set of parameters for completion. Some of your Module assignments will assist you in developing this final course project. Detailed instructions are provided within the course.

The final exam will be an application component comprised of 3 steps.

- Step 1: Data Collection/Needs Assessment
- Step 2: Curriculum Review
- Step 3: Developing a Curriculum Plan

Step 1: Data Collection/Needs Assessment

Conduct a brief needs assessment and data collection of your school's current curriculum and curriculum processes. Create a brief PowerPoint of your findings and provide a narrative component to address other bulleted items.

Step 2: Curriculum Unit Review (Discussion Board)

Conduct a curriculum unit review using the Understanding by Design (UbD) model. You will receive feedback from your peers on your work. You must post each phase of your review and respond to at least two classmates on. Templates will be provided for each phase. ***You are required to post your initial response by Thursday night and a response to two student's posts by Sunday night at midnight.***

Step 3: Developing a Curriculum Plan

Based on the data collected in Step 1 and 2, you will identify 1 to 3 goals for the curriculum plan. Using a narrative format, write a paper with organized into the following sections: justification of curriculum, evaluation of curriculum, impact on learning, research to support the curriculum plan, other factors impacting the implementation of the curriculum plan, building support and collaboration, and follow up and support.

Assignment and Point Value Breakdown

Assignment Name	Point Value
Final Exam Pillar Step 1	100
Final Exam Pillar Step 2 (Discussion Board)	80
Final Exam Pillar Step 3	150

The syllabus/schedule are subject to change.

Quizzes (3 quizzes)	75
Collaboration and ZOOM	280

Total Points – 685 Points

FINAL GRADE:

A = 90% (685 to 617 points)
 B = 80% (616 to 548 points)
 C = 70% (548 to 606 points)
