### 3. Counseling Student Competency Evaluation (CSCE)

The Counseling Program is obligated by professional ethics (see ACA Code of Ethics, 2014) and University procedure to assess students as to their potential for meeting the expectations of *professional practice* in the professional counseling field. The competencies outlined in this document (CSCE) are specific to professional counseling and are in addition to academic requirements. The Counseling Program may suspend from the program any students judged incapable of meeting these expectations. Procedures regarding potential dismissal are outlined in the Program's Retention/Dismissal Procedure.

The CSCE may be used by any faculty member with any student enrolled in a Counseling course to provide that student with feedback regarding their potential for meeting the expectations of the professional counseling field and the Department. Completion of a CSCE is required in the following courses: COUN 551, COUN 552, COUN 620, and COUN 660 (i.e., Clinical Supervision, Advanced Practicum, Advanced Internship,

*The syllabus/schedule are subject to change*

Advanced Supervision, Advanced Teaching). The course instructor in COUN 516 and COUN 548 may choose to implement the CSCE at his/her discretion. Each use of the CSCE must be placed in the student’s Department file along with any remediation plan developed by the faculty in conference with the student.

The Counseling Program has elected to use the CSCE to monitor student’s progress in *professional practice*. As a requirement in this course, a final CSCE evaluation will be completed by the course instructor, in consultation with the student, to assess your professionalism, general competency, social and emotional maturity, integrity and ethical conduct, and clinical competency. Please note that the instructor of the course may choose to administer the CSCE at different time intervals throughout the semester (e.g., initial, mid) at his/her discretion. The CSCE can yield an overall average composite score or an average subscale score for each domain. The Department utilizes both overall average composite score and average subscale scores to monitor students’ *professional practice*. See rubric below.

## TECHNOLOGY REQUIREMENTS

### Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

*The syllabus/schedule are subject to change*

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
