ORGANIZATION LEADERSHIP PROGRAM DESCRIPTION

The Bachelor of Applied Science in Organizational Leadership prepares innovative leaders for employment in an increasingly diverse technological and global society. The degree develops practical workplace competencies that meet current and future challenges through a real-world coursework utilizing personalized academic mentoring and tutoring. The coursework focuses on team building, ethical decision making, enhanced communication skills, critical thinking, and *The syllabus/schedule are subject to change.*

Course Description

This two-term course focuses on the leadership role within the principles and practice of management of organizations. The course is designed to provide students with the knowledge and skills that can be used to analyze, organizational processes and address challenges inherent in leading organizations, operations,

and projects. Leadership theory is applied to practical problems in planning, organizing, and controlling workplace situations and activities.

Student Learning Outcomes:

Upon completion of this course, the student will be able to:

1. Describe the role of leadership using fundamental concepts and principles of management
2. Explain the significance of how historical theories have shaped the practice of leading and managing organizations
3. Describe the leading challenges facing modern organizations
4. Summarize the activities that are performed when organizations plan their strategic, tactical, and operational initiatives
5. Describe the organizing functions that typically exist at all levels of an organization
6. Analyze internal and external environments to determine an organization's condition for selecting a strategy for improvement

As a general guide, students enrolled in a three semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

COURSE REQUIREMENTS

Pretest - No review needed and need to complete on the First Day of current term. Please do not use any course materials or outside materials when completing the pretest. The purpose of the pretest is to provide a baseline understanding of your knowledge of this competency. The pretest is **required** before students begin studying course materials. The Pretest for this course assesses your current knowledge of the competencies for this course. **You will not be able to access any other material in the course until you complete the pre-test!** [Important] The

feature that allows students to view all pretest questions with answers will be disabled on the 2nd Friday at 11:59PM of the current term.

Quizzes – The six quizzes are for your own review in preparation for the posttest. Grades from these quizzes will not be reflected in your final grade.

Discussions – Although your discussion posts will not be reflected in your final grade you are required to complete all six of the discussions.

Posttest and Culminating Project

The Posttest and Culminating Project for this course assess your culminating knowledge of the competencies in this course. Please do not use any course materials or outside materials when completing the posttest.

A score of 80 percent or higher on both the Posttest and Culminating Project is required to demonstrate competency. A score of 80 percent or higher on both the Posttest and Culminating Project is required to demonstrate competency.

If you score less than 80 percent on the Posttest you will have an opportunity to review the course materials and re-take the Posttest. You may take the Posttest assessment and submit it a maximum of THREE times during the seven-week term. If you have not passed the competency in three attempts, you will work with an Academic Coach to determine another method of fulfilling the program requirements in this subject.

The Culminating Project is meant to represent the readings, material, tests, and assignments, you have learned and completed in this course. Skipping these areas during the term, may hinder your ability to meet the course competencies and limit your ability to create a project presentative of the concepts you have gained in the course. Due to the number of students in the course, there may not be an opportunity for the instructor to review and provide feedback for every student's project in time for the Friday deadline of 5:00 on the last day of the term. Therefore, the details required for the culminating projects to meet the 80% standard or higher in this course, should be reflected in the FIRST project you upload to the Dropbox. It should be reflective of the knowledge you have gained by completing the course assignments and represent your BEST work.

If the seven-week term ends and you are not complete all competencies, you will receive a grade of "F" and be required to complete the remaining competencies in the next term. **In order to demonstrate competency, students must achieve 80% or higher for both the Posttest and Culminating Project.**

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
