Course Description

This course integrates research design, instrument selection and development and techniques of data collection and analysis for application in a field setting. Development of a research project based on a practicum assignment is required; to a specific intervention or evaluation undertaken in the concurrent field practicum placement. Critical thinking skills, self-assessment and practice evaluation requirements are developed and demonstrated in a major paper. Prerequisite: Completion of SWK 590.

RELATIONSHIP TO OTHER COURSES:

This class builds upon the content gained in SWK 590. This prerequisite should provide the student with an approved research proposal from which to begin data collection for this class.

PROGRAM GOALS:

1. Prepare MSW graduates for professional advanced generalist practice that reflects application and integration of critical thinking, theoretical frameworks, and differential interventions.
2. Enable MSW graduates to apply ethical reasoning to advance equality, justice, and social change.
3. Promote leadership and service that is relevant to individual contexts of practice and enhances well-being and quality of life.

CORE COMPETENCIES

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Students achieve programmatic goals listed above through demonstration of the following competencies for Advanced Generalist Practice (AGP). Students achieve programmatic goals listed above through demonstration of the following **bolded competencies** for Advanced Generalist Practice (AGP).

Competency AGP 2.1.1 Exemplify professional social work behavior and standards
Competency AGP 2.1.2 Apply social work ethical principles to resolve dilemmas and create positive change

Competency AGP 2.1.3 Critically analyze practice solutions and
Communicate judgments and reasoning through decision-making processes

Competency AGP 2.1.4 Demonstrate the ability to build strengths based on mutual engagement with diverse populations

Competency AGP 2.1.5 Demonstrate commitment to strategies that address discrimination, reduce disparities, and promote social and economic justice

Competency AGP 2.1.6 Contribute to evidence-based best practice approaches to assess and improve effectiveness

Competency AGP 2.1.7 Differentially apply theories and frameworks of HBSE
Competency AGP 2.1.8 Promote social policies to improve service delivery systems
Competency AGP 2.1.9 Use leadership skills to respond, influence, and shape changing contexts

Competency AGP 2.1.10 Demonstrate autonomy in dynamic practice situations that involve:

2.1.10.1 Relationship-building at all levels of systems

2.1.10.2 Evidence-based assessment tools and intervention approaches

2.1.10.3 Effective intervention with complex problems and prevention strategies

2.1.10.4 Response to the feedback process from interventions

Competency AGP 2.1.11 Becomes increasingly proactive in recommending constructive change in organizations and communities

Competency AGP 2.1.12 Demonstrates innovative problem-solving in social and organizational systems

Student Learning Outcomes (Practice Behaviors)

Each competency (outlined above) describes the knowledge, values, skills and cognitive and affective processes that comprise competency at the Advanced Generalist Practice (AGP) level. While content and activities of each course in the

MSW curriculum covertly or overtly addresses each of the nine competencies, identified within each course is a set of specific practice behaviors representing observable components of one for more competencies. Content and Assessment in this course reflect the following practice behaviors:

2.1.6.a Uses research and evaluation to assess intervention, efficacy, and effectiveness

2.1.6.b Develops and shares data to enhance best practices and professional knowledge

2.1.6.c Uses evidence-based research findings to improve practice

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Basic knowledge of excel and being able to follow step-by-step instructions on how to run statistical analyses.

Instructional Methods

This class will use PowerPoints, live sessions and recorded lectures.

Student Responsibilities or Tips for Success in the Course

Students will be required to complete weekly statistics assignments. Keeping up with each week's statistics topic will be very helpful in completing these assignments as well as exams.

GRADING

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Assessments

SWK 595 Assignments

1. Research Manuscript/Program Report (100 pts = 50% of grade)

Students will complete an approved research study and create a final manuscript suitable for publication. Outline for the Manuscript is located in Appendix A of course syllabus.

2. Weekly Assignments & Quizzes (25% of grade)

Students will complete various statistical assignments (in class or as homework) designed to teach and reinforce basic statistical concepts related to both descriptive and inferential statistical analysis.

3. Mid-Term Exam (10% of grade)

4. Final Exam (15% of grade)

Policy on Due Date

(1) NO assignments will be accepted past the due date. If an assignment is not submitted by the specified due data and time, a 0 will be awarded. **In the event of extenuating circumstances, (i.e. medical issues) and proper supporting documentation is provided, a arrangement between the instructor and student will be made for submission of assignments.**

(2) NO unit quiz can be made up.

(3). ALL written assignments will be submitted in the correct folder, online in Bright Space D2L by the due date and time. **DO NOT** email an assignment to me. In the hordes of email I receive daily, many get lost. It is your responsibility to know how and if your computer software is compatible with Bright Space D2L for uploading assignments.

Department or Accrediting Agency Required Content

Engagement Policy

Final Evaluation and Grade Depends on both Classroom attendance and Participation

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities can include participation in a live, synchronous virtual classes, attending a Face to Face course when appropriate, interacting with peers in posted discussions and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement 80% of the time during a semester.

Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

As we enter the Fall semester, we are all working under stresses and strains related to the COVID-19 pandemic. It is imperative we communicate consistently and frequently. If, for any reason, you are not able to complete assignments or actively engage in the course, you **MUST** reach out to your instructor and let him or her know.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and *National Association of Social Workers' (NASW) Code of Ethics*.

University Code of Conduct located in the *Student Guide Book* at

<http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website under Campus Life Documents

To become aware of University policies related to student academic and behavioral expectations for students refer to the Guidebook.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offences by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves in an ethical and professional manner.

Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics*

(located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website:
<https://www.socialworkers.org>
