### **BSCJ WITH EMPHASIS IN LAW ENFORCEMENT LEADERSHIP DESCRIPTION**

The Bachelor of Science in Criminal Justice with an emphasis in Law Enforcement Leadership (BSCJ-CJCB) at Texas A&M University-Commerce is a 100% online, competency-based program designed specifically for first responders: law enforcement, peace officers and military personnel with existing work experience, police academy training, or other certifications. Courses are offered in an accelerated format, so students can move swiftly through material they already have mastery over, and focus more attention on topics that are new and challenging to their existing knowledge base. The courses are self-paced, so students can work according to their own schedule. Students in the BSCJ-CJCB program develop practical workplace competencies that meet current and future challenges facing first responders today.

## COURSE DESCRIPTION

This is the capstone course for the competency-based Criminal Justice program with an emphasis in Law Enforcement Leadership. Throughout this course you will revisit previous coursework and reflect on the knowledge and skills you have obtained in the program. You will have an opportunity to apply this learning as you develop a proposal to solve a contemporary problem in the area of law enforcement showing mastery of communication, ethical and value-based decision-making, professionalism, critical thinking, and applied leadership theory. The final project will include a written proposal and oral presentation that reflects understanding and application of all topics involved.

## STUDENT LEARNING OUTCOMES

Upon completion of this course, the student will be able to:

LO1: Apply critical thinking as you propose a solution to a 21st Century policing challenge.

LO4: Practice ethical, value-based decision making and professionalism as you plan a solution to an issue in policing.

## Regular and Substantive Course Interaction
