COURSE INFORMATION

Materials

This course has been designed using Open Educational Resources (OER). All materials are embedded within the course and are accessible via the internet. After taking the pretest, students are encouraged to bookmark, download, or save materials provided via the internet for use during quizzes, assignments, and projects in this class.

ORGANIZATION LEADERSHIP PROGRAM DESCRIPTION

The Bachelor of Applied Arts and Sciences in Organizational Leadership (ORGL) degree is a competency-based program that prepares innovative leaders for employment in an increasingly technological and global society. This program provides opportunities for students to receive credit for what they know and can do already, allows them to accelerate completion of their degree, and — because it is fully online — students are able to plan their study schedule around the rest of their day to complete the coursework.

COURSE DESCRIPTION

Students in the Organizational Leadership program will be able to effectively recognize and describe the concepts, challenges, and opportunities of entrepreneurship. This Entrepreneurship competency helps you develop the critical thinking skills needed for your role as an organizational leader, whether starting and operating a small business or not-for-profit organization or working for an existing corporation or company. In other words, the hallmark of a successful manager and leader is treating the company for which you work as if it were your own. As such, this course develops the basic skills you need to evaluate opportunities that can be applied across myriad managerial and leadership positions, anticipate challenges, assess

the best course of action, monitor its progress, make adjustments, develop competitive advantages, seize and respond to opportunities, adapt to market changes, and the like.

STUDENT LEARNING OUTCOMES

Completion of this course provides the student with the knowledge to:

1. Create components of a viable business plan.
2. Demonstrate management, leadership, and communication skills for running and growing a business.
3. Demonstrate techniques for analyzing costs, preparing financial documents, and reporting requirements.
4. Design an effective strategy for marketing, customer service, selling and relationship building.
5. Create a plan for researching, securing and managing the financial aspects of the enterprise.
6. Devise a plan for business operations that will ensure the business delivers on its promises to customers.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

COURSE REQUIREMENTS

Minimal Technical Skills Needed: Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

Instructional Methods: This course is an online course. To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) must be completed. Please contact the instructor by email for any assistance.

Email your instructor as soon as you complete your pre-test so the instructor can access and grade your work.

Student Responsibilities or Tips for Success in the Course: To be successful in this course, all content and course modules should be read and reviewed. All assignments and

quizzes (both graded and not graded) should be completed. Please contact the instructor by email for any assistance.

ASSESSMENT

Students must achieve 80% or higher for the both the posttest and culminating business plan project to demonstrate competency and pass the course.

Course Pre-test

The purpose of the pre-test is to provide a baseline understanding of your knowledge in this competency. The pre-test is required before you begin studying course materials. If you do not make at least 80% on the pre-test, students will be expected to complete assignments, quizzes, and other course content to prepare for the post-test and culminating project.

Content	Description	Value	Notes
Pre-test	This is the initial assessment in the course to provide a baseline understanding of a student's knowledge of the course content and competencies. Pretests are taken once and should be completed upon the first couple of days of a CBE academic term or entry into a course if a student is an accelerator.	100 points	<u>Required before completing any other work in the course.</u> The grade on the pre-test does not count in the final grade for this course. SUGGESTED DUE DATE: First week of class enrollment

Business Plan Project

A required business plan project covers the components of a business plan, is worth 100 points, and will be averaged with the post-test grade to determine the final grade. The project's goal is to answer the ten questions and combine them into one cohesive business plan for an organization of your choosing. A **score of 80% or higher is required.**

Content	Description	Value	Notes
Business Plan Project	Assesses your knowledge of the concept of a business plan through guided questions.	100 points	<u>Required and you must score 80% or higher.</u> SUGGESTED DUE DATE: Last day of week 5, by 11:59 PM CST

Course Post-Test

The final comprehensive exam assesses student knowledge and understanding of major course concepts, theories, and processes. A **score of 80% or higher is required** to demonstrate competency.

Content	Description	Value	Notes
Post-test	Measures your competency of learning outcomes through essay, short answer, and multiple-choice questions.	100 points	<u>Required and you must score 80% or higher. You have three attempts.</u> DUE: Last day of week 7 by 11:59 PM CST

If you score less than 80% on the post-test, you will have an opportunity to review the material and retake the post-test two additional times. If the posttest score is less than 80% within three attempts, students will receive a grade of “F” in the course and will be required to retake the course in the new term. Students who fail the posttest should review instructor feedback before reattempting the posttest.

GRADING

A score of 80% or higher on the Business Plan Project and Posttest is required to demonstrate competency and receive credit for the course. These items are used to calculate your final grade:

Item	Worth
Posttest	100 points
Business plan exercise	100 points
Total	200 points

A = 180-200 points

B = 160-179 points

F – 159 or fewer points
