COURSE INFORMATION

Materials

This course has been designed using Open Educational Resources (OER). All materials are embedded within the course and are accessible via the internet. After taking the pretest, students are encouraged to bookmark, download, or save materials provided via the internet for use during quizzes, assignments, and projects in this class.

ORGANIZATION LEADERSHIP PROGRAM DESCRIPTION

The Bachelor of Applied Arts and Sciences in Organizational Leadership (ORGL) degree is a competencybased program that prepares innovative leaders for employment in an increasingly technological and global society. This program provides opportunities for students to receive credit for what they know and can do already, allows them to accelerate completion of their degree, and — because it is fully online — students are able to plan their study schedule around the rest of their day to complete the coursework.

Course Description

This course provides an examination of ethics in the workplace and the role of organizational leaders in fostering ethical behavior. Case studies, discussion, self-assessment exercises and reading assignments explore the basic frameworks of ethical dealings and moral leadership. Students will demonstrate a competency in critical thinking skills to both identify and remedy ethical issues typically encountered in organizational settings and interactions. Prerequisites: ORGL 3311 or ORGL 3311 concurrent enrollment.

Student Learning Outcomes

Completion of this course provides the student with the knowledge to:

1. Apply critical thinking skills in resolving ethical issues
2. Describe and analyze ethical issues and dilemmas
3. Demonstrate awareness of one's own values and investigate the interrelationships and tensions that occur between personal, professional, and societal values.
4. Employ theoretical frameworks for analyzing ethical situations
5. Apply the principles and practices of interpersonal, group and leadership ethics to situations involving communication, exercise of influence, organizational citizenship, and social responsibility.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three-semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

COURSE REQUIREMENTS

Minimal Technical Skills Needed: Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

Instructional Methods: This course is an online course. To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) must be completed. Please contact the instructor by email for any assistance.

Email your instructor as soon as you complete your pre-test so the instructor can access and grade your work.

Student Responsibilities or Tips for Success in the Course: To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) should be completed. Please contact the instructor by email for any assistance.

Assessment

Students must achieve 80% or higher for the both the posttest and culminating project to demonstrate competency and pass the course.

Pre-test

The purpose of the pre-test is to provide a baseline understanding of your knowledge in this competency. The pre-test is required before you begin studying course materials. If you do not make at least 80% on the pretest, students will be expected to complete assignments, quizzes, and other course content to prepare for the post-test and culminating project.

Content	Description	Time	Value	Notes
Pre-test	This is the initial assessment in the course to provide a baseline understanding of a student's knowledge of the course content and competencies. Pretests are taken once and should be completed upon the first couple of days of a CBE academic term or entry into a course if a student is an accelerator.	2 hours	100 points	Required before completing any other work in the course. The grade on the pre-test does not count in the final grade for this course.

Learning Objective Essays

A brief short-answer item that the student submits to the instructor that requires students to synthesize and apply the concept, theory, process, etc., introduced in the Learning Objective Module. Essays are submitted to the instructor and do not require comments or "discussion" with other students in the course.

Learning Objective Quizzes

A brief assessment at the end of each module that is intended to emphasize key concepts, theories, processes, etc., introduced in the Learning Objective Module.

Course Post-test

The end-of-course comprehensive exam that assesses student knowledge and understanding of major concepts, theories, processes, etc., in the course. A **score of 80% or higher is required** to demonstrate competency.

Content	Description	Time	Value	Notes
Post-test	Measures your competency of learning outcomes through essays, short answers, and multiple-choice questions.	2 hours	100 points	Required and you must score 80% or higher. You have up to three attempts. DUE: Last day of week 7, Friday by 11:59 PM CST

If you score less than 80% on the post-test, you will have an opportunity to review the material and retake the post-test two additional times. If the post-test score is less than 80% within three attempts, students will receive a grade of F in the course and will be required to retake the course in the new term. Students who fail the posttest should review feedback from the instructor before reattempting the post-test.

Culminating Project

The project assesses your knowledge of terms and the application of concepts presented in this course. A **score of 80% or higher is required** to demonstrate competency.

Content	Description	Time	Value	Notes
Project	Measures your competency of learning outcomes the completion of a competency-based project.		100 points	Required and you must score 80% or higher. You have up to three attempts. DUE DATE if you want feedback for revisions: End of week 6. HARD DUE DATE: Last day of week 7, Friday by 11:59 PM CST

If students score less than 80% on the culminating project, they will have an opportunity to review the material and resubmit the project up to two additional times. If the culminating project is less than 80% within three attempts, students will receive a grade of F in the course and will be required to retake the course in the new term.

Grading

A score of 80% or higher on both the Culminating Project and Posttest is required to demonstrate competency and receive credit for the course. The following items will be used to calculate the final grade in the course:

A = 90%-100%

B = 80%-89%

F = 79% or Below

Item	Worth
Post-test	100 points
Culminating Project	100 points
