ORGANIZATION LEADERSHIP PROGRAM DESCRIPTION

The Bachelor of Applied Arts and Sciences in Organizational Leadership (ORGL) degree is a competency-based program that prepares innovative leaders for employment in an increasingly technological and global society. This program provides opportunities for students to receive credit for what they know and can do already, allows them to accelerate completion of their degree, and — because it is fully online — students are able to plan their study schedule around the rest of their day to complete the coursework.

COURSE DESCRIPTION

This is the second out of the two capstone courses of the BAAS Organizational Leadership major. The course provides you with opportunities to reflect what you have learned about leadership, followership, and significant organizational matters from all courses in the ORGL program.

STUDENT LEARNING OUTCOMES

There are three competencies associated with this course:

1. Create a complete and comprehensive strategic case analysis about an organization of your choice.
2. Reflect and evaluate on knowledge, skills, and experiences learned from all ORGL courses that demonstrates academic performance in meeting program competencies.

3. Create a professional ePortfolio presenting your academic and professional artifacts.

To demonstrate all competencies, you are required to write a strategic case analysis, produce a video presentation, and create an ePortfolio. Students are also expected to engage in group discussions.

REGULAR AND SUBSTANTIVE COURSE INTERACTION

As a general guide, students enrolled in a three semester hour course should spend one hour engaged in instructional activities and two to three hours on out-of-class work per week in a traditional semester. Students are expected to double this effort of engagement given that this course is being delivered in a seven-week term. Educational activities in this course are designed to ensure regular and substantive interaction between students and faculty to ensure that students are able to demonstrate competency.

COURSE REQUIREMENTS

Minimal Technical Skills Needed: Students will need reliable computer and internet access for this course. Students must be able to effectively use myLeo email, myLeo Online D2L, and Microsoft Office.

Instructional Methods: This course is an online course. To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) must be completed. Please contact the instructor by email for any assistance.

Student Responsibilities or Tips for Success in the Course: To be successful in this course, all content and course modules should be read and reviewed. All assignments and quizzes (both graded and not graded) should be completed. Please contact the instructor by email for any assistance.
