Course Description

The purpose of this course is to facilitate the learning of talent development practices in the real world. This course investigates the theoretical foundations of specific talent development practices with a special emphasis on the ways in which these practices are represented in films. The focus will be on people analytics, mentoring, and career development which has significant

The syllabus/schedule are subject to change.

implications for workplace learning, performance improvement, employee engagement, and a host of related topics.

Student Learning Outcomes

- Demonstrate knowledge regarding theoretical foundations of talent development practices in the contemporary organization
- Analyze and interpret talent development practices based on the concepts of talent development
- Apply theoretical foundations of talent development to solve talent development issues in the workplace.

Course Grade

Weekly discussion (3 at 100 points each): Online discussions will serve as a comprehension check on selected topics. When you post your original message and respond to the work of others, always see if it adds substance/meaning to the topic. You need to say why and you can provide examples, experiences, resources, alternative perspectives, challenging views, etc, to make the dialogue richer.

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

The syllabus/schedule are subject to change.
