Course Description

This course builds on the generalist practice with individuals, families and group class, extending the concepts of empowerment based practice and the strengths perspective to macro client systems such as organizations and communities. The relationships between organizations and communities and at-risk populations are infused throughout the course.

RELATIONSHIP TO OTHER COURSES:

This course builds on foundation content in SWK 503, 513 and 521 relating to organizations and communities. It also incorporates content from SWK 541 relating to the roles of at-risk populations in organizations and communities. This course examines the dynamics of services to at-risk populations by formal organizational systems. The course provides theoretical content which supports SWK 508, Social Work Administration. In addition, it addresses specific practice skills related to community development and social policy advocacy.

PROGRAM GOALS:

2. Enable MSW graduates to apply ethical reasoning to advance equality, justice, and social change.
3. Promote leadership and service that is relevant to individual contexts of practice and enhances well-being and quality of life.

CORE COMPETENCIES

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Students achieve programmatic goals listed above through demonstration of the following competencies for Advanced Generalist Practice (AGP). *Students achieve programmatic goals listed above through demonstration of the following **bolded competencies** for Advanced Generalist Practice (AGP).*

Student Responsibilities or Tips for Success in the Course

"Civility in face-to-face classrooms, online courses and in labs, internships, practicum and all other academic settings necessitate respect for the opinions of others and is very important in all academic settings. It is likely you may not agree with everything that happens or discussed in the academic setting; however, courteous behavior and responses are expected. To create a civil and preserve learning environment that optimizes teaching and learning, all participants share a responsibility in creating a civil and non-disruptive forum" (Student Guide Book, p 35). To create an optimum learning environment, students have rights and responsibilities.

- Class participation has three components: (1) appropriate interactions with classmates; (2) active involvement in class activities and (3) attentiveness
- Students will attend class, reflecting responsibility, inherent in the development as a social work professional. Being on time and prepared when class begins

and remaining present throughout the entire class meeting demonstrates emerging professional behavior expected in social work graduates. Roll is taken in each class to document students' attendance.

- Classroom exercises, discussions, role-plays, guest speakers and other in-class experimental exercises are essential for a student's professional learning and continued development of self-awareness. Tardiness (or early departure) of more than 15 minutes will count as one-half absence and two (2) times being late to class or two (2) early departures culminating into one absence.
- A student is absent if he/she arrives more than 30 minutes late to class, leaves 30 minutes early or does not come to class.

- The following penalties for absences (unexcused, or excused, according to university policy) will be administered:

<u>Weekly</u> <u>(class meets</u> <u>1X week)</u>	<u>Up to 2</u> <u>absences: No</u> <u>Penalty</u>	<u>3 absences: 1</u> <u>letter grade drop</u>	<u>4 absences: Class grade of</u> <u>"F"</u>

Online, Blended and Web Enhanced Classes: Just as students are required to attend face-to-face classes, students are required to log in and participate in online venues. To receive credit for attendance online via eCollege, students must log in and complete assignments as required in the course. Not logging onto eCollege (monitored by the instructor) and completing assignments online during the required time is the equivalent of an absence for each week this occurs.

Final Evaluation and Grade Depends on both Classroom attendance and Participation
Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

Assessments

SWK 507 Assignments

- 1. Demonstrate understanding of assigned readings – 100 points**
 - Multiple Choice quizzes (100 points)

- Graded Exercises & Presentations and assignments (100 points)

Due Weekly BY ASSIGNED DATES

Students will complete Multiple Choice quizzes over readings, graded exercises, presentations, and assignments. If quizzes, exercises, presentations, and assignments are not completed in the allotted time and by the required dates, **no points will be awarded.**

2. Community Intervention Paper (75 points) & Community Presentation (25 points): 100 points total

This assignment involves writing a 6-8 page paper that proposes a community intervention to a significant LOCAL community problem. This paper should reflect the content from all applicable assigned readings. The paper must be correctly referenced using American Psychological Association (APA) guidelines. Special attention should be given to the **correct style of referencing**. Papers need to be original, typed, with clear and lucid analyses, and excellent grammar.

Please note that this is a graduate level course and the expectations are considerably higher than those at an undergraduate level. This research paper is intended to demonstrate your ability to **apply a macro-level model of intervention to a real problem situation**. The paper should be written in a formal, scholarly format.

In addition to reflected problem analysis, planned intervention and proposed change efforts consider issues related to economics, social policies, political influences, and involvement of various levels of systems (individuals, families, groups, organizations, and communities). Papers will be graded on quality of analysis, creativity, incorporation of theories and knowledge, and quality of writing.

Your selected problem should target **one specific community or regional area** and the content related to community assessment and resources should be specific to that community.

Presentation – You will be expected to present your identified problem, assessment data, and proposed solution to a body of LOCAL POLICY DECISION-MAKERS (such as city council, county commissioners, local school board, Council of Governments, public hearing on a particular issue, etc.). All communities have decision-making bodies that are open to public comment and input. However, you will need to find out the parameters of such input **AHEAD OF TIME**. Sometimes there is a time limit and advance request for permission to

speak. Failure to present before an appropriate group will result in point deductions. **You will need to include documentation (including a contact person) that can verify your presentation.**
