### **Communication Studies B.A./B.S.**

The Communication Studies program is designed as an area of study to apply scholarly communication research for a variety of careers and personal goals in an interconnected world.

### **Two general goals of the program for graduates are:**

1. Each graduate will be the most communicatively informed person in every communication situation they find themselves in, such as understanding others verbally and nonverbally in professional and personal situations.

2. Each graduate will be the most effective communicator verbally and nonverbally in each communication situation they find themselves in, such as professional and personal contexts. Furthermore, an essential part of effective communication is the ability to communicate strategically verbally and nonverbally to accomplish one's goals.

### **Course Requirements**

#### **Minimal Technical Skills Needed**

Using MyLeao DL2 Bright Space, Microsoft Word, Power Point

#### **Student Responsibilities**

Checking TAMUC email account three times a week. Checking student grades in MyLeo DL2 Bright Space, Submitting Assignments through MyLeo DL2 Bright Space in Content, Assignments, Appropriate envelopes

### **GRADING**

**Assignments will be submitted electronically through DL2 Brightspace and must be received by 5:00 P.M. Central Friday the week it is assigned.** This includes discussion postings. Please note the last

week of class for Test 3. **Please do not send an e-mail asking if your paper was received until at least 1 week after it is due.** Answering e-mails about receiving the papers slows down the process of grading speeches. **An e-mail from the Instructor to ALL students will be sent AFTER ALL papers have been graded to notify the class that paper assignment grades have been posted.**

**Please Label All Submitted Assignments with your Name, Section, & Assignment Number. Examples: Smith, 1311-01W Paper 2. Please also use these labels in e-mails, such as in subject lines. Both Paper assignments are submitted in the proper envelop in Course Shell, Content, Assignments, Proper Envelop. Tests are taken in Course Shell, Activities, Quizzes.**

Final grades in this course will be based on the following scale:

**Course Assignments/Assessments**: The department of Literature and Languages supports university policies of academic excellence as noted in the student handbook. Interpretation of grades should be considered within the university framework: A=excellent, B=good; C=average; D=inferior; and F=failure. Final grades in this course will be based on:

**A = 100%-90%**

**B = 89%-80%**

**C = 79%-70%**

**D = 69%-60%**

**F= 59% or Below**

### **Assessments**

**Statement Summary** = 2%; Tests = 68%; **Papers**: 1 = 10%, 2 = 10%; **Discussion** = 10%

#### **\*Statement Summary - (2%)**

There is a letter in (Click on **Content**) (Click on label **Statement of Freedom of Thought**) in this course with the title addressing a **Statement for Freedom of Thought and Expression**. Each student will **write one double spaced paper over the statement's content**. The first half of the paper should summarize the statement's main ideas and suggestions. The second half of the paper each student should write how these ideas and concepts can be applied and useful inside the classroom. Each student should **underline and bold in the first half 3 major themes or ideas** from the statement and in the second half **underline and bold the student's 3 major applications or values** inside the classroom. Outside sources are not required. Each student will **submit their paper in**

**Content, Assignments, then the appropriate file**

in the envelop for this class labeled Statement assignment **only in Microsoft WORD.**

**\* Tests - (68%)**

20% Test 1

23% Test 2

25% Test 3

Test questions will come from the assigned chapters as well as any notes sent out. Students must take the tests without any assistance from other people. They may use their textbooks but the tests will be timed. Academic integrity is described in the student handbook for Texas A&M University-Commerce. Failure to abide by the rules outline may result in failing the class. If a week has both a test and discussion in that week, the discussion will not be part of that test but will be covered on the next test. Due to multiple sections of this class taking similar tests, **test answers will not be given after the test as to correct and incorrect answers.** The students' scores will be the feedback that they receive concerning their test performance. **Students preparing for tests should study how concepts are related to each other, how they differ, and come up with personal examples of the concepts. The test questions are usually not straight forward definitions but often give an example and ask the student which concept the example best represents.**

**Discussion- (10%)**

All discussions are finished by the Friday of the week they are assigned at 5:00 PM Central Time. A list of questions is given at the end of the syllabus for each section. The first student to post a comment or question for a section should consider addressing one of these questions. Students are required to **post 2 questions and respond to 2 other questions** that are posted each week. **Students need to come up with their own original questions to post and not re-post previous questions from other students or the syllabus. Likewise, students need to refrain from answering the same questions other students previously fully answered.** Some repetition is acceptable if it helps to develop the ideas and concepts. The objective is to expand and apply the course material. Students cannot post questions or comments for any section except the present one. Hence, you need to stay on top of your participation for each section. **It is helpful for viewing in DL2 Brightspace if students begin a new post with each of their original questions they post rather than connected to a previous comment or posting more than one question together.**

**\* Papers - (20%) Note: Encyclopedias, the course textbook, and dictionaries do not count as sources. Papers will be submitted in Content, Assignments, Proper Envelop.**

10% Paper 1:

10% Paper 2:

**\*Please only submit written assignments as attachments in WORD in Content, Assignments, Proper Envelop. Other files such as PDF files are too difficult to grade.**

Paper 1: 1-2 pages (Cultural Communication Paper)

Each student will communicate with another student in class about the other person's cultural communication. It is the responsibility of each student to find their own partner. This can be done by sending out individual emails of request. **Do not send out mass emails asking for a partner. This approach gets too chaotic.** Communication with the other student can take place through email, phone, instant messaging etc. The goal of this assignment is to better understand how other cultures communicate differently from your own. The areas of communication can be verbal and/or nonverbal communication. Some topics you may cover are greetings, traditions, clothing, family communication, conflict, proximity use, gender comm., use of technology etc. These are just a few ideas, but you are not required to address all of them or any of them. Be creative. **You are required to address at least 3 areas of culture communication covered either in notes or the book. Clearly indicate the three issues from class material in the paper by underlining the concepts within the paper.** The purpose of this assignment is to indicate what you learned about the other person's culture and how you can communicate better in the future from this knowledge. Each student will submit their paper through Course Shell, Content, Assignments for this class in

**then the appropriate file** . At the end of each paper, each person will write the name of the classmate they communicated with and the date that the communication took place.

Paper 2: 1-2 pages (Technology Communication Paper)

Each student will write a paper addressing the role of technology in communication. The general goal is to address the **benefits and disadvantages of technology use during communication**. Each student should narrow it down more specifically to something of interest to him. It can be regarded to a particular context, such as at work, church, home etc. Another option is to focus on a particular form of technology used in communication, such as cell phone, e-mail, skype etc. **Each student will cite 3 sources in their paper and have these references on their reference page.** The sources need to be credible, such as books or journals. **Internet web-site sources will not count as part of the required 3 sources.** Further sources not given credit are Wikipedia, our textbook, dictionary, interview of someone not considered an expert. . **In addition, you are required to address at least 3 areas of using technology to communicate covered either in notes or the book. There have been several studies covered in class notes throughout the semester. Clearly indicate the three issues from class material in the paper by underlining the concepts within the paper.** Students will turn in a reference page with their sources when submitting their paper. Each student will submit their paper through Course Shell for this class in

**Content, Assignments, and then the appropriate file.**

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
