Relationship to other Courses

The Field Practicum (SWK 554) is the agency-based learning environment in which students can apply the knowledge, values and skills learned in previously and concurrently6 in all other AGP classes in the curriculum.

Program Goals

3. Promote leadership and service relevant to individual contexts of practice and enhance well-being and quality of life.

Core Competencies

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Students achieve programmatic goals listed above by demonstrating the following competencies for Advanced Generalist Practice (AGP). *Students achieve programmatic goals listed above through demonstration of the following **competencies** for Advanced Generalist Practice (AGP).*

Student Learning Outcomes (Practice Behaviors) Each competency (outlined above) describes the knowledge, values, skills, and cognitive and affective processes that comprise competency at the Advanced Generalist Practice (AGP) level. While content and activities of each course in the MSW curriculum covertly or overtly address each of the nine competencies, identified within each course is a set of specific practice behaviors representing observable components of one for more competencies. Content and Assessment in this course reflect the following practice behaviors:

Competency AGP 2.1.1 Exemplify professional social work behavior and standards

ASSESSMENTS

SWK 554 Assignments

Overview of Course Assignments

Field Practicum Seminar

A Faculty Field Liaison conducts the field practicum seminars. The function of the Faculty Field Liaison is to monitor and evaluate the progress of the student in the field practicum, assist the student in integration of classroom learning and application of field practicum of content.

For students in their first semester at a field agency, the Faculty Field Liaison will visit the student's field practicum agency a minimum of two times during the semester or as needed on problematic issues. For students in their second or final semester in the field agency, the Faculty Field Liaison will make a minimum of 2 contacts with the agency field instructor, at least one at the field practicum agency or as needed.

All students enrolled in the field practicum are required to meet with the Faculty Field Liaison and other students in a seminar meeting scheduled once a week. The Faculty Field Liaison develops the seminar format.

Seminar Purpose

- To provide orientation to field practicum expectations and record-keeping
- To provide opportunity for students to raise and share questions regarding the field practicum, assignments, or expectations
- To provide opportunity for students to share with other students their learning experience in the field practicum; to begin the practice of peer consultation on professional problem solving; and to offer support and input to fellow students.

Learning Contract

Students complete a learning contract each semester. The requirements and time frames for documentation of assigned field activities will be presented in the seminar by the Faculty Liaison. The documentation in Tk20 must be available for the faculty liaison to review at the mid-term and final evaluation.

There is one final evaluation of student progress at the end of each field practicum semester. Through the use of the evaluation component linked to the learning contract, the field instructor completes the final evaluation of the students' progress in Tk20 and recommends a letter grade.

DEPARTMENT OR ACCREDITING AGENCY REQUIRED CONTENT

Engagement Policy

Final Evaluation and Grade Depends on both Classroom attendance and Participation

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities can include participation in a live, synchronous virtual classes, attending a Face to Face course when appropriate, interacting with peers in posted discussions and collaborating in interactive group projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement 80% of the time during a semester. Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

As we enter the Spring semester, we continue to work under stresses and strains related to the COVID-19 pandemic. It is imperative we communicate consistently and frequently. If, for any reason, you are not able to complete assignments or actively engage in the course, you **MUST** reach out to your instructor and let them know.

STUDENT CONDUCT

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and *National Association of Social Workers' (NASW) Code of Ethics*.

University Code of Conduct located in the *Student Guide Book* at

<http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website under Campus Life Documents. To become aware of University policies related to student academic and behavioral expectations for students refer to the Guidebook.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offences by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35).

Social Work students conduct themselves in an ethical and professional manner. Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics* (located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website: <https://www.socialworkers.org>
