## COURSE REQUIREMENTS

### Minimal Technical Skills Needed

1. Must be able to use the learning management system (D2L)
2. Must be able to use MS-Word and MS-Powerpoint
3. Must be able to read the English language
4. Must be able to use a calendar and take tests on the appropriate date
5. Must be able to communicate via email and NOT CALL ME ON THE PHONE!

### Instructional Methods

This is an ONLINE course. All of the content is delivered online. There are no class meetings.

Students are expected to read the relevant chapters in the textbook. For each chapter there is a PowerPoint presentation to supplement the reading in the textbook. Some of the material in the PowerPoints is different from the material in the textbook and vice versa. Students are responsible for the material in both the textbook and in the power points. Make sure you are familiar with the course schedule and make time to take the tests and write the chapter reviews.

## **Student Responsibilities or Tips for Success in the Course**

You are responsible for ensuring that you complete all of the tests and chapter reviews in a timely manner. Make sure you get the textbook prior to the start of class. For each chapter, you will have to write a brief chapter review and there will be a chapter test. When you are ready to take a test, make sure you have both the textbook and the PowerPoints available to refer to. Review the materials beforehand. Book-marking important sections of the textbook may also be very useful and help you look up answers more quickly.

There is a comprehensive final exam: Many of the questions on the final exam come from the chapter tests. Therefore, when you are ready to take the final exam, make sure you have, in addition to the textbook and PowerPoints, copies of your chapter tests available to look up answers.

### **Chapter Reviews**

For each chapter you will write, in your own words, a summary of the content of that chapter. **Do not use any quotes. You will lose points for using quotes.** Write everything out in the form of paragraphs: **Do not use point form. You will lose points for using point form.**

You must highlight the major points covered by the chapter and how these points are relevant to the topic of the chapter. Close each chapter review with a personal comment on what you thought about the material covered in the chapter. **You will lose points for failing to include a personal comment on the chapter at the end of your review.**

Your chapter reviews must be in MS-Word format and submitted by the due date indicated in the course D2L shell. **Reviews not in MS-Word format will receive a grade of zero.** Put your name on your review. Reviews must be written using Times New Roman, 12-point font, double spaced, no extra spaces between paragraphs, with 1" margins on all sides. Include a title page with your name and the title of the chapter you are reviewing. **You will lose points for not following this format.**

**You need to write a 4-page review if you expect full points because even with 4 pages it is hard to cover the material comprehensively.** Reviews longer than four pages will not be penalized. Having said that, excessive verbosity and padding will get you nowhere. If you wish to include figures and tables, do so by appending them to the

back of the review. Figures and tables do not count toward the page limit. All chapter reviews must be submitted through D2L in MS-Word Format. **Do not submit pdf documents.**

## Grading and Course Content

The textbook is mandatory. You will be required to read each of the assigned chapters in Bolin and Robinson. In addition, you are provided with PowerPoint slide presentations based on the required chapters in Bolin and Robinson. However, there is frequently material in the PowerPoint slides that is not in the textbook and vice versa. You will be responsible for material in both the PowerPoint slides and in the textbook.

For each chapter there will be a quiz based on material in both the textbook and in the PowerPoint slides. The quiz will be composed of 10 multiple choice questions and will be timed. You will have 20 minutes to complete the quiz.

The strategy, therefore, is to make sure you read all of the material beforehand and study it to make sure you are entirely familiar with it. Then, when you are ready for the test, make sure you have the textbook and the PowerPoint slides in front of you so that you can quickly find the answers to the questions.

## TECHNOLOGY REQUIREMENTS

### Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
