Course Description

The purpose of this course is (1) to present the Diagnostic and Statistical Manual of Mental

Disorders ("DSM") as a knowledge base for enhancing social workers' understanding of the individual bio psychosocial function and (2) to expand social workers' ability to use the DSMV to work with at-risk populations across diverse settings and with diverse mental health professionals. The course is critical for social workers to learn how to perform comprehensive assessments and to devise effective interventions for clinically impaired populations. Additionally, the nomenclature is applicable across diverse contexts and multi-theoretical orientations. Ethical dilemmas inherent in categorizing and labelling will be highlighted along with cultural concerns in using a homogenous system of diagnostic classes.

RELATIONSHIP TO OTHER COURSES:

This course builds upon practice courses and assessment in SWK 506 Advanced Family Therapy. It builds upon exposure to professional values and ethics, particularly the NASW Code of Ethics.

PROGRAM GOALS:

1. Prepare MSW graduates for professional advanced generalist practice that reflects application and integration of critical thinking, theoretical frameworks, and differential interventions.
2. Enable MSW graduates to apply ethical reasoning to advance equality, justice, and social change.
3. Promote leadership and service that is relevant to individual contexts of practice and enhances well-being and quality of life.

CORE COMPETENCIES

Council on Social Work Education (CSWE) requires a competency-based approach to identify and assess what students demonstrate in practice. In social work, this approach involves assessing students' ability to demonstrate the competencies identified in the educational policy. Students achieve programmatic goals listed above through demonstration of the following competencies for Advanced Generalist Practice (AGP). *Students achieve programmatic goals listed above through demonstration of the following **bolded competencies** for Advanced Generalist Practice (AGP).*

Competency AGP 2.1.1 Exemplify professional social work behavior and standards

Competency AGP 2.1.2 Apply social work ethical principles to resolve dilemmas and create positive change

Competency AGP 2.1.3 Critically analyze practice solutions and Communicate judgments and reasoning through decision-making processes

Competency AGP 2.1.4 Demonstrate the ability to build strengths based on mutual engagement with diverse populations

Competency AGP 2.1.5 Demonstrate commitment to strategies that address discrimination, reduce disparities, and promote social and economic justice

Competency AGP 2.1.6 Contribute to evidence-based best practice approaches to assess and improve effectiveness

Competency AGP 2.1.7 Differentially apply theories and frameworks of HBSE

Competency AGP 2.1.8 Promote social policies to improve service delivery systems

Competency AGP 2.1.9 Use leadership skills to respond, influence, and shape changing contexts

Competency AGP 2.1.10 Demonstrate autonomy in dynamic practice situations that involve:

2.1.10.1 Relationship-building at all levels of systems

2.1.10.2 Evidence-based assessment tools and intervention approaches

2.1.10.3 Effective intervention with complex problems and prevention strategies

2.1.10.4 Response to the feedback process from interventions

Competency AGP 2.1.11: Develop leadership skills as advanced generalist practitioners to enhance organizations and communities

Competency AGP 2.1.12: Demonstrate innovative problem-solving in social and organizational systems

Student Learning Outcomes (Practice Behaviors)

Each competency (outlined above) describes the knowledge, values, skills and cognitive and affective processes that comprise competency at the Advanced Generalist Practice (AGP) level. While content and activities of each course in the MSW curriculum covertly or overtly addresses each of the nine competencies, identified within each course is a set of specific practice behaviors representing observable components of one for more competencies. Content and Assessment in this course reflect the following practice behaviors:

AGP 2.1.2a Articulates and advocates social work values and ethics among interdisciplinary situations and settings

AGP 2.1.10c Collects, organizes and interprets clients data

AGP 2.1.10e Select appropriate intervention strategies

AGP 2.1.10f demonstrates one's ability to move a client system through the practice intervention process

AGP 2.1.10i Facilitates transitions and endings

GRADING

1. Assessment	= 100 Points
2. Exams (2 worth 100 each)	= 200 points
3. Weekly Discussions (10 worth 10 each)	= 100 points
	<u>400 total</u>

Grading and evaluation - Grades will be determined according to the following percentage points earned against possible points.

Evaluation for the course grade is computed according to the following formula:

Possible Points Grade

400 to 360 –	A
359 to 320 –	B
319 to 280 –	C
279 to 240 –	D
239 below --	F

Assessments

SWK 510 Assignments

- 1. Assessment, including Diagnosis & Interventions** – Write a complete intake assessment on a client with a DSM diagnosis. Develop a treatment plan that would last 6 sessions with this client and discuss the types of interventions deemed useful to help the client during each of the sessions, and include a termination plan.
- 2. Exams** – There are 2 exams in this course. They are worth 100 points each (200 points total). Exams are open book and open note. In prior class, there is an in-class exam review and discussion.
- 3. Weekly Class Discussions (Role Plays)** – You will be asked to demonstrate how you would collect data for a biopsychosocial history and pretend to be a client on different days. An outline will be given to you for each role. The other group members will provide feedback to you and point out opportunities for improvement. All students **MUST** participate in weekly discussion of what you learned from the readings' assignments, video lectures, learning objectives, PowerPoints. (100 points total for the course.)

Department or Accrediting Agency Required Content

Engagement Policy

Final Evaluation and Grade Depends on both Classroom attendance and Participation

Inadequate participation or lack of required time commitment in each class significantly affects students' grades. No matter the course venue, students must engage in a comparable amount of time. Expectations of both Face-to-Face classes and those with Online components include time spent reading and studying course material.

To earn a level of competency within a specific course, students must demonstrate both mastery of content and active engagement.

Mastery of content areas is evidenced by successful completion of course assignments such as written papers, group project deliverables, tests/quizzes and other tangible products designed by instructors to evaluate knowledge and skills.

Additionally, the Social Work Profession is built upon human interactions and building human relationships – which is defined as engagement. Engagement is defined as meaningful involvement in interactions with instructor, peers, outside stakeholders as appropriate (such as contacting a social worker to interview for a required assignment). Within the classroom setting, whether virtual or F2F, students must actively participate in 80% of engagement activities as outlined by individual instructors. These activities can include participation in a live, synchronous virtual classes, attending a Face to Face course when appropriate, interacting with peers in posted discussions and collaborating in group interactive projects.

Students must meet standards for content mastery on tangible assignments and meet the threshold of active engagement 80% of the time during a semester. Instructors are experts in each course content area and set the standards for students to meet for successful completion of the course.

As we enter the Fall semester, we are all working under stresses and strains related to the COVID-19 pandemic. It is imperative we communicate consistently and frequently. If, for any reason, you are not able to complete assignments or actively engage in the course, you MUST reach out to your instructor and let him or her know.

Student Conduct

Students preparing to become professional social workers must adhere to the *University Code of Conduct*, *Department Code of Conduct* and *National Association of Social Workers' (NASW) Code of Ethics*.

University Code of Conduct located in the *Student Guide Book* at

<http://www.tamuc.edu/campuslife/documents/studentGuidebook.pdf> (pp 34- 66). On the University Website under Campus Life Documents

To become aware of University policies related to student academic and behavioral expectations for students refer to the Guidebook.

Department Code of Conduct

"Faculty have the authority to request students who exhibit inappropriate behavior to leave the class/lab/internship practicum or to block access to online courses and may refer offenses to the [Academic and Professional Issues Committee (API)] or to the Department Head. More serious offences by be referred to the University Police Department and/or the Judicial Affairs Office for disciplinary action" (Student Guidebook p 35)

Social Work students conduct themselves in an ethical and professional manner.

Closely linked with professional recognition is the social worker's compliance with the profession's ethical standards. It is imperative for professional social workers to be competent and ethical in practice if the profession is to maintain the public trust. It is essential that each social work student gain a thorough understanding of the ethical principles that guide practice and actively demonstrate in behavior, both in and out of the classroom. Student conduct is to reflect the tenets of *NASW Code of Ethics* (located at <https://www.socialworkers.org/pubs/code/code.asp>) on the NASW website: <https://www.socialworkers.org>
