material. Students should also utilize all course resources provided through D2L, such as, course lecture notes, assignments, and course information. It is the students responsibly to have internet access, check this site frequently, and become familiar with how it works.

Grading

Each assignment will be worth a pre-determined amount of points. Upon the completion of the course, grades will be calculated by adding up the total number of points each student has earned and dividing it by the total amount of points available in the course. This will produce a percentage of points earned (Ex. Student earned 850 points out a possible 1000 in the course: $850/1000 = 85\%$ "B"). Grades will be assigned based upon the percentages below.

	Grading Scale: A = 90-100%
Discussions: 125 points	B = 80-89%
Assignments: 175 points	C = 70-79%
Literature Review: 100 points	D = 60-69%
Total Points = 400	F = 0-59

Students are expected to earn points toward their final grade during the course of the semester with the assignments and exams that are scheduled. Extra Credit Assignments WILL NOT be given at the end of the semester. All students are graded based on the exact same criteria and no exceptions will be made for individual assignments, tests, or final point values.

Student assignments will be graded in a timely manner, typically within one week of the assignment due date. Any questions or concerns about assignments/grades should be brought to the instructor's attention immediately (i.e. Do not wait until the end of the semester)
