Course Description

This course focuses on the study of current theories and practices of classroom management and discipline in early childhood, elementary, and middle school settings.

Student Learning Outcomes

In this course, the successful student will be able to:

1. Analyze strengths and challenges in your own classroom management system to include your most and least effective practices, procedures, routines, rewards, consequences, etc.
2. Explore current research on best practices in classroom management.
3. Demonstrate improved insight into the critical role of classroom management, rules and procedures, disciplinary interventions, teacher-student relationships, mental set, students' responsibilities for management, and good management at the school level.
4. Demonstrate, via the Classroom Teaching Application Log, the ability to design an experiment and analyze the effectiveness of innovative classroom discipline and management strategies based on new learning in the cohort class, outside reading, and/or staff development. This includes writing goals for new classroom innovations.
5. Discuss in detail the impact of your learning this semester on your thinking, beliefs, and classroom practices.
