**Textbook:** The custom lab manual for general chemistry I is available at the campus bookstore or the e-book is available for purchase in D2L.

## **COURSE DESCRIPTION**

**General and Quantitative Chemistry Lab II.** This course is part of the University Studies core courses and will meet criteria for laboratory science credits. It is the introduction to methods and techniques of chemical experimentation using quantitative and semi-quantitative procedures to exploring problems in chemistry.

### **Student Learning Outcomes**

1. Students will be able to apply knowledge and skills to safety operate lab equipment and handle, utilize and dispose of chemicals and properly organize and return equipment at the end of experiments.
2. Students will be able to apply knowledge and skills to obtain accurate data needed to complete the experiments.
3. Students will be able to use chemical theories and principles to interpret and discuss data to draw sensible conclusions.

- Students will be able to apply the conclusions drawn from experiment6s to strengthen the concepts learned from lectures.
- Students will be able to work cooperatively with your team members to obtain data and complete lab reports.

## GRADING

Final grades in this course will be based on the following scale:

- A = 90%-100%
- B = 80%-89%
- C = 70%-79%
- D = 60%-69%
- F = 59% or Below

The lab report with the lowest score will be dropped. The average of the grade for the rest of the eleven laboratories will constitute the laboratory grade.

Prelab	25%
Post-lab	75%
Total	100%

You are required to submit pre-Lab/post-Lab Reports in a timely manner. You will incur a 10% penalty for every day that your lab report is late; thus, if a lab report is 10 days late, you will receive a zero for that report. Incomplete grades may be given only if the student has a current average above 70% and is precluded from completion of the course by a documented illness or family crisis.

## TECHNOLOGY REQUIREMENTS

### Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
